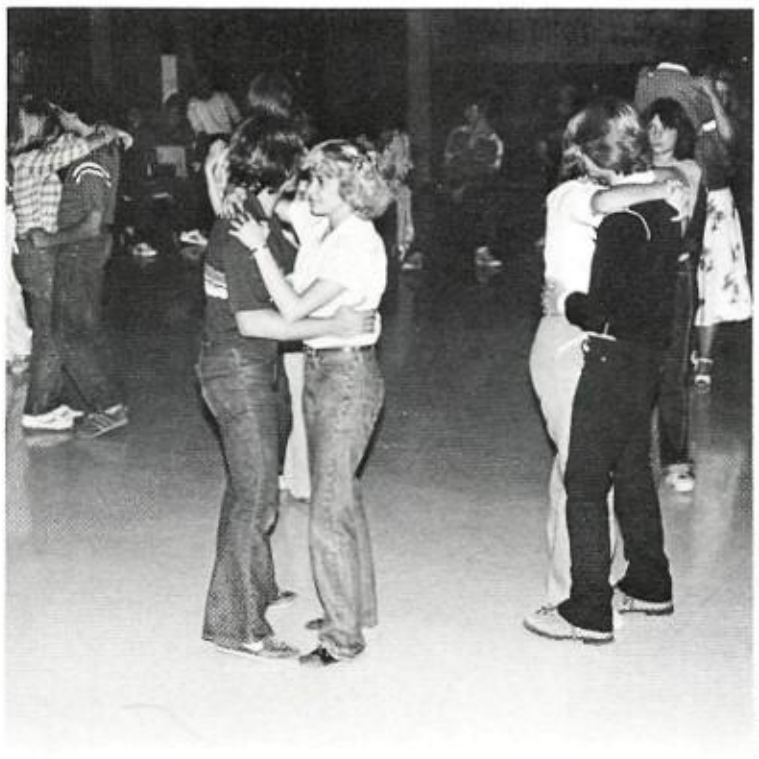
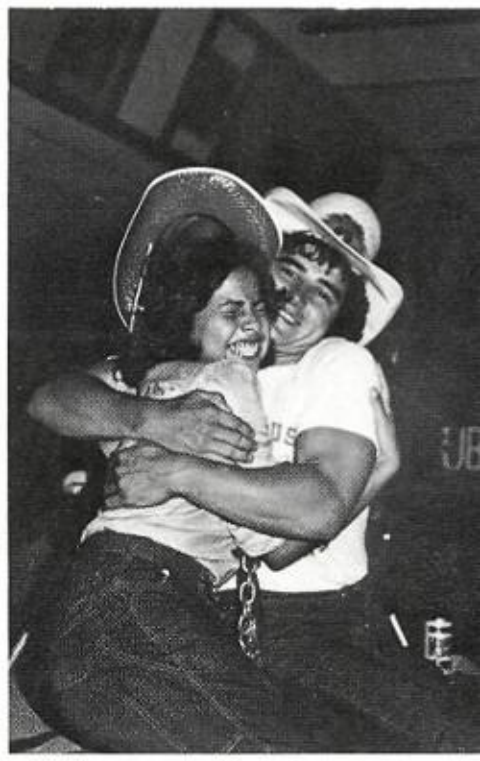
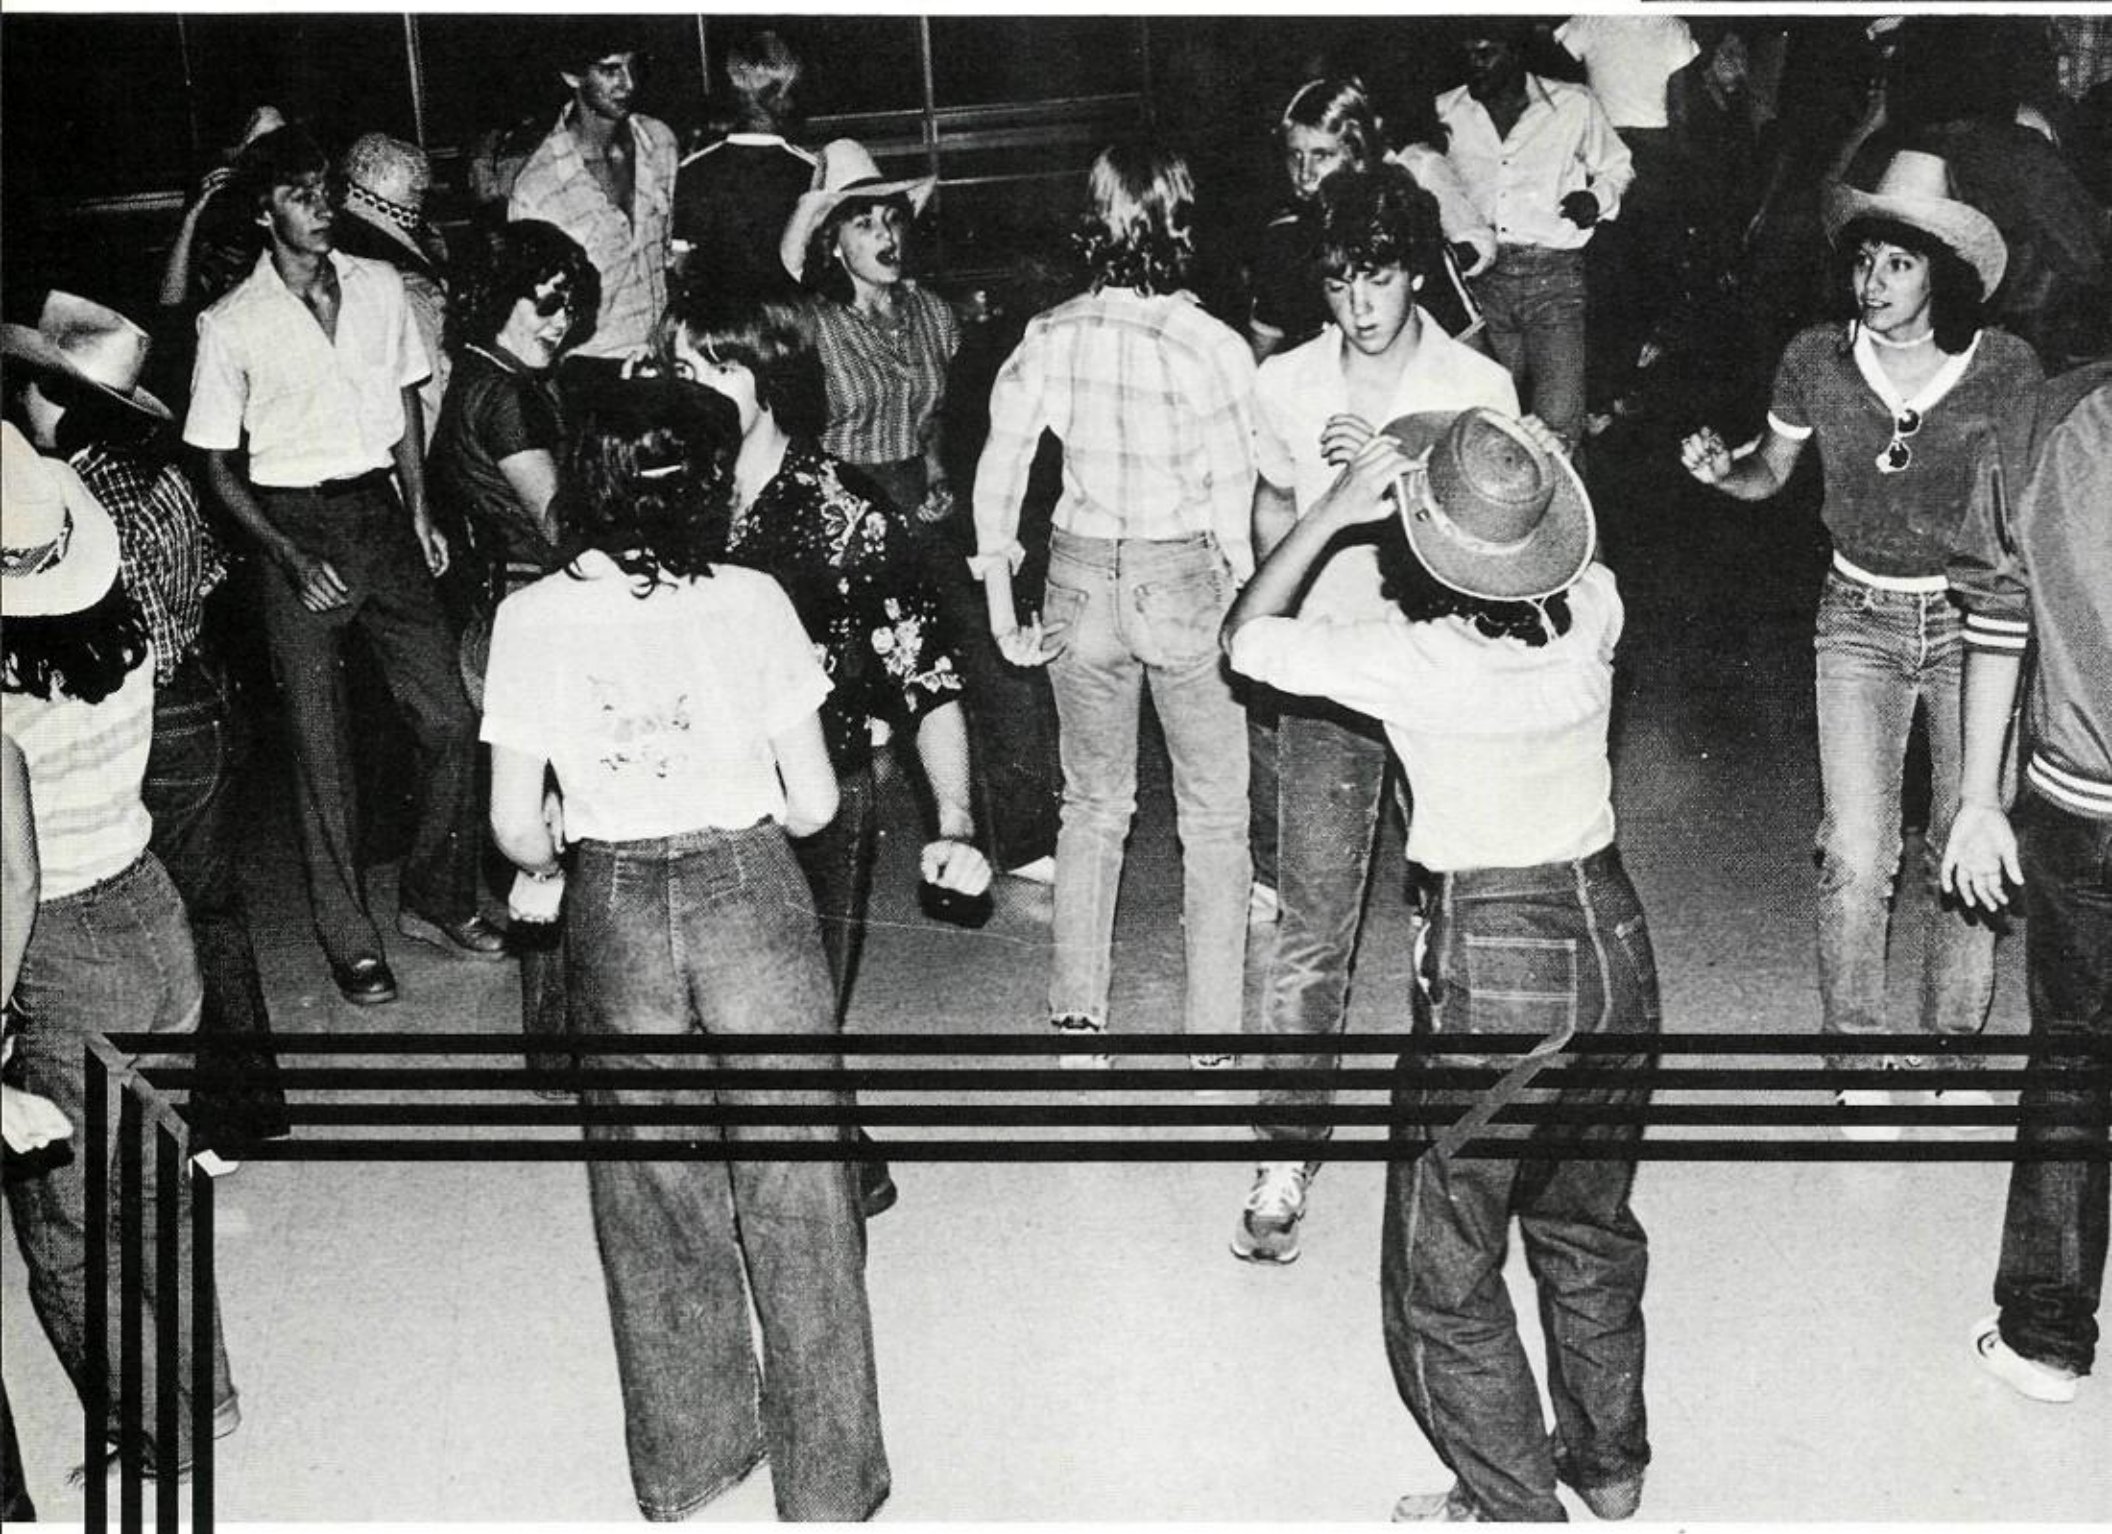
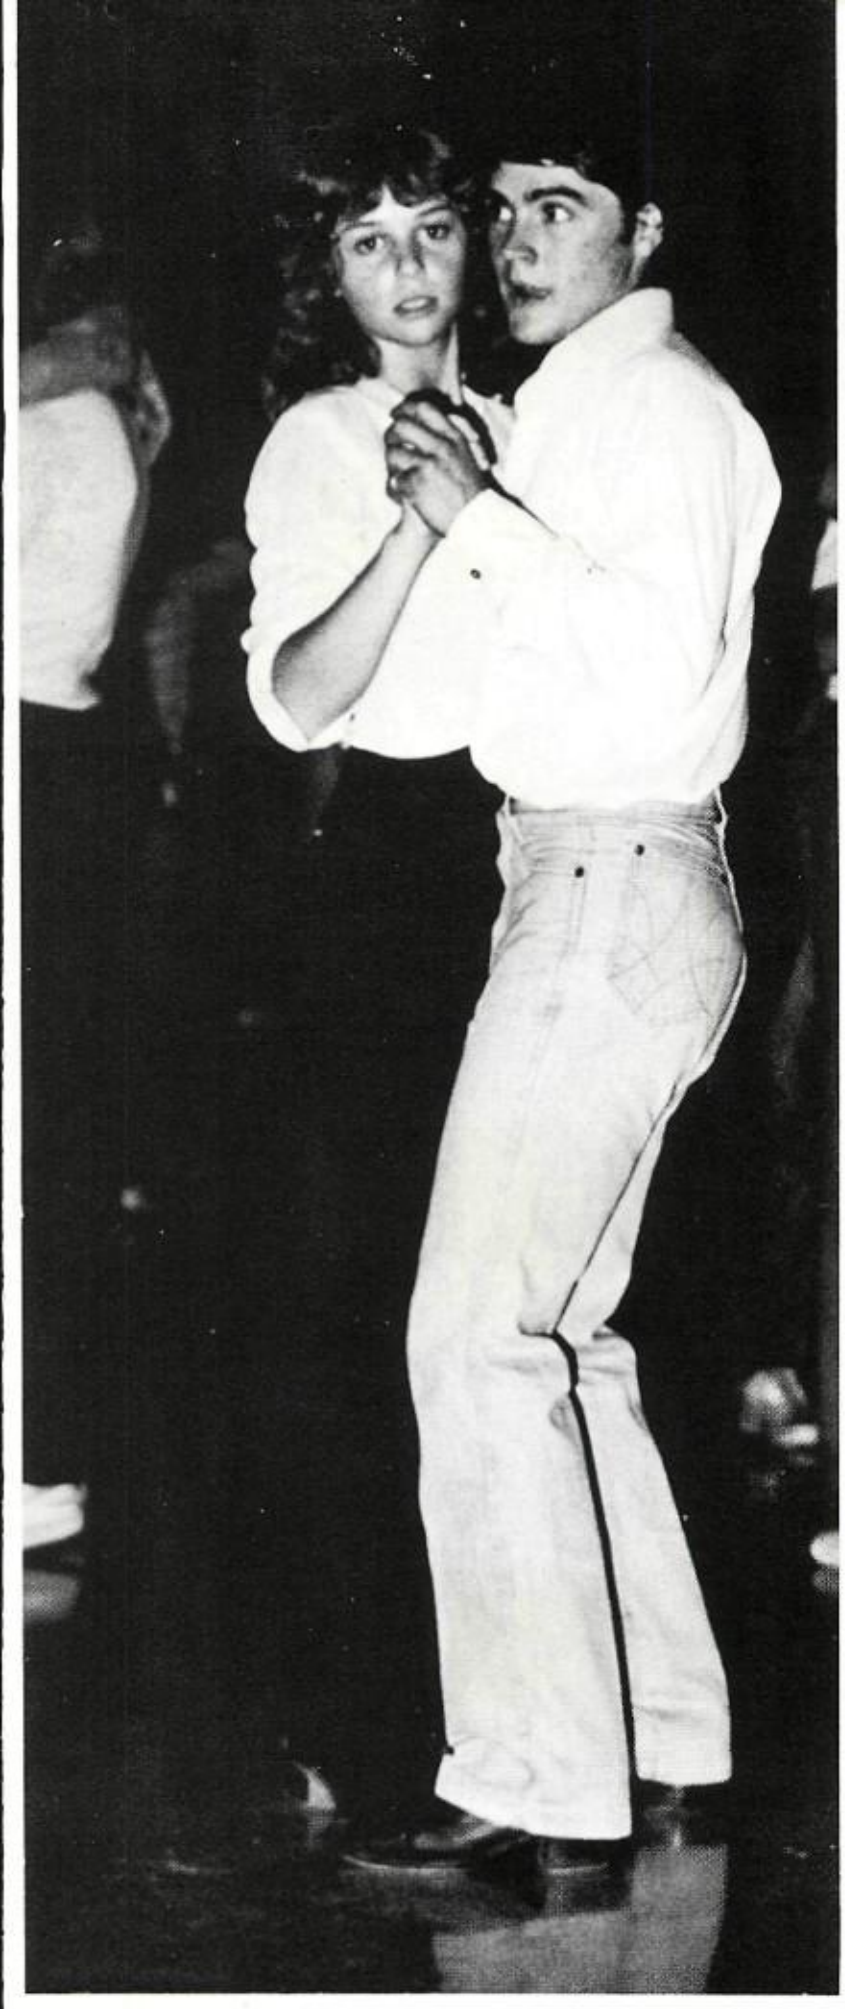
SCHOOLS IN - DANCES

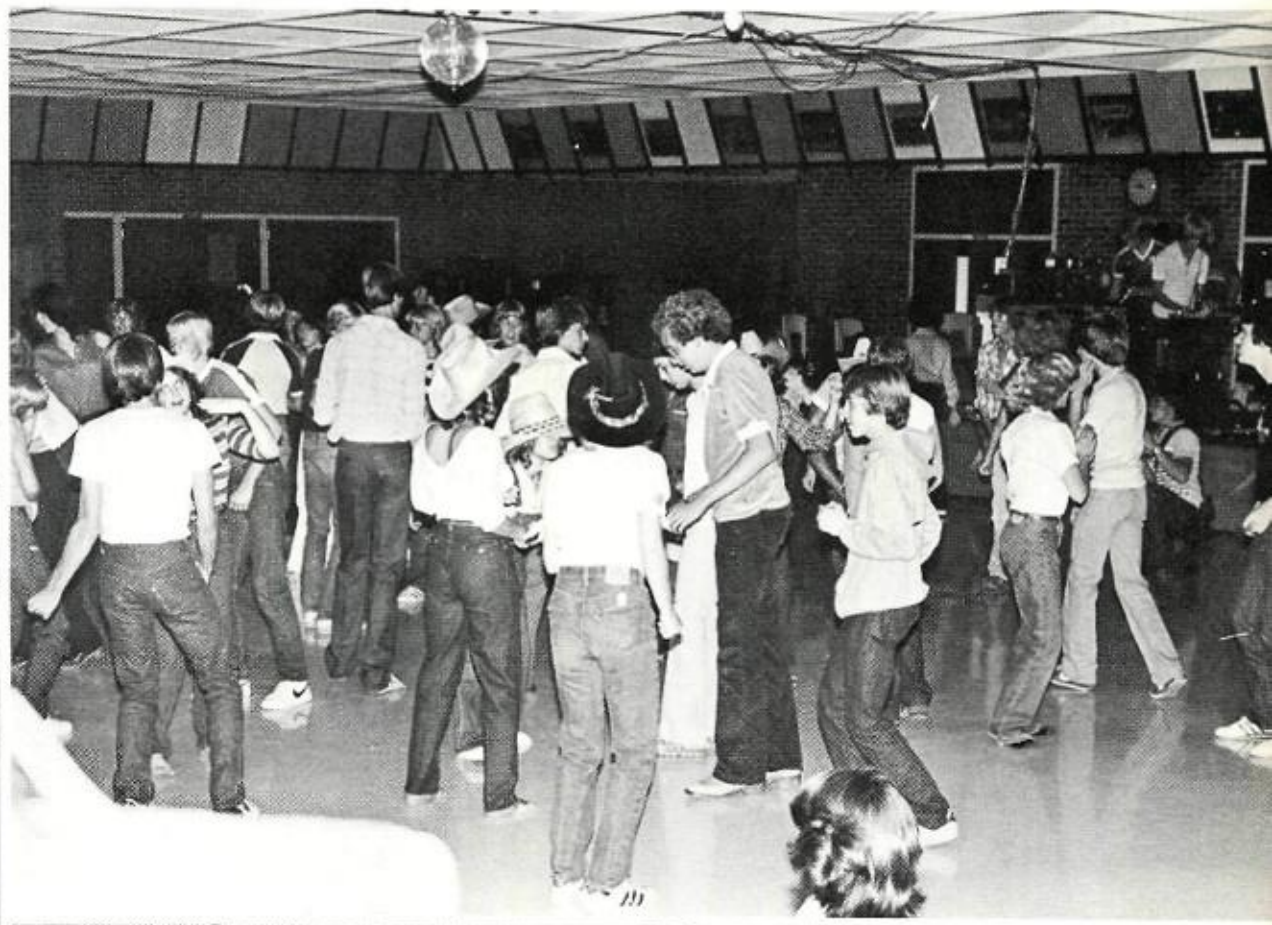
The Lobo's year started out exciting with a couple of Disco Dances. These dances were sponsored by PACK and DECA. They were a real hit with the Lobo student body and gave everyone a chance to "strut their stuff".

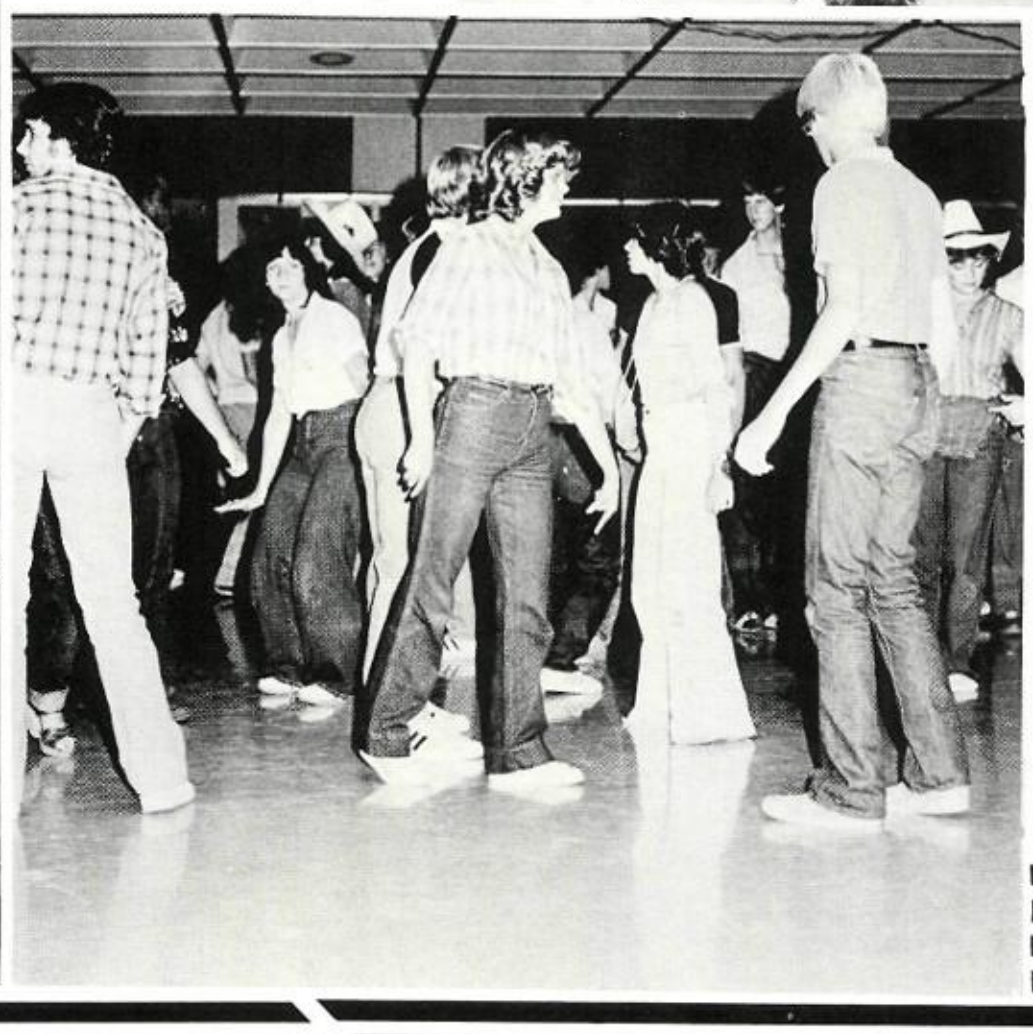


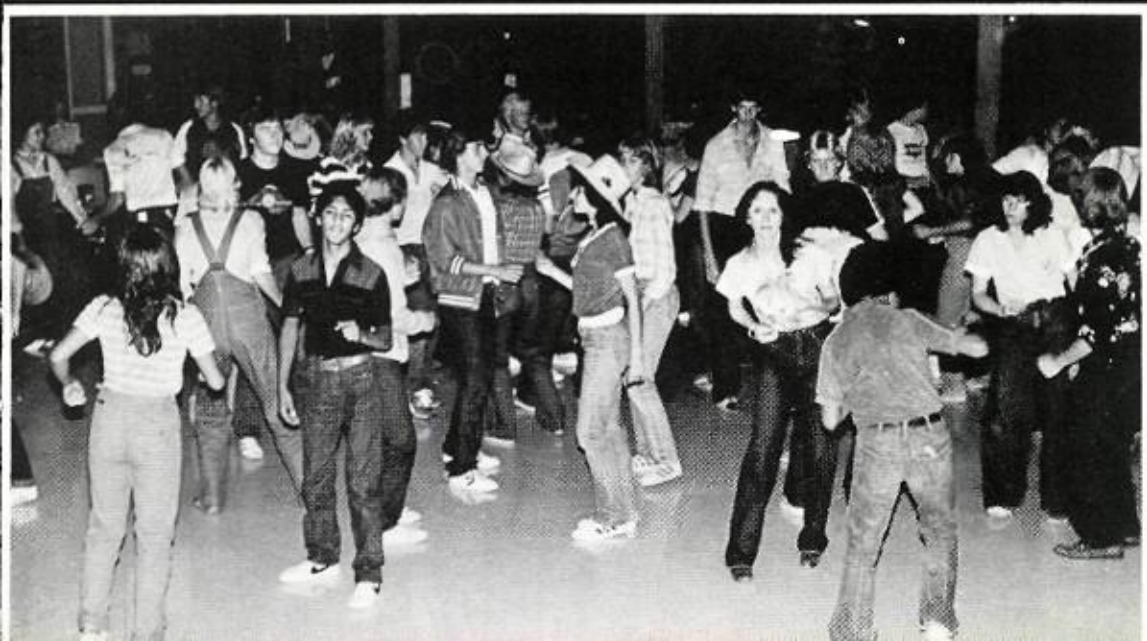


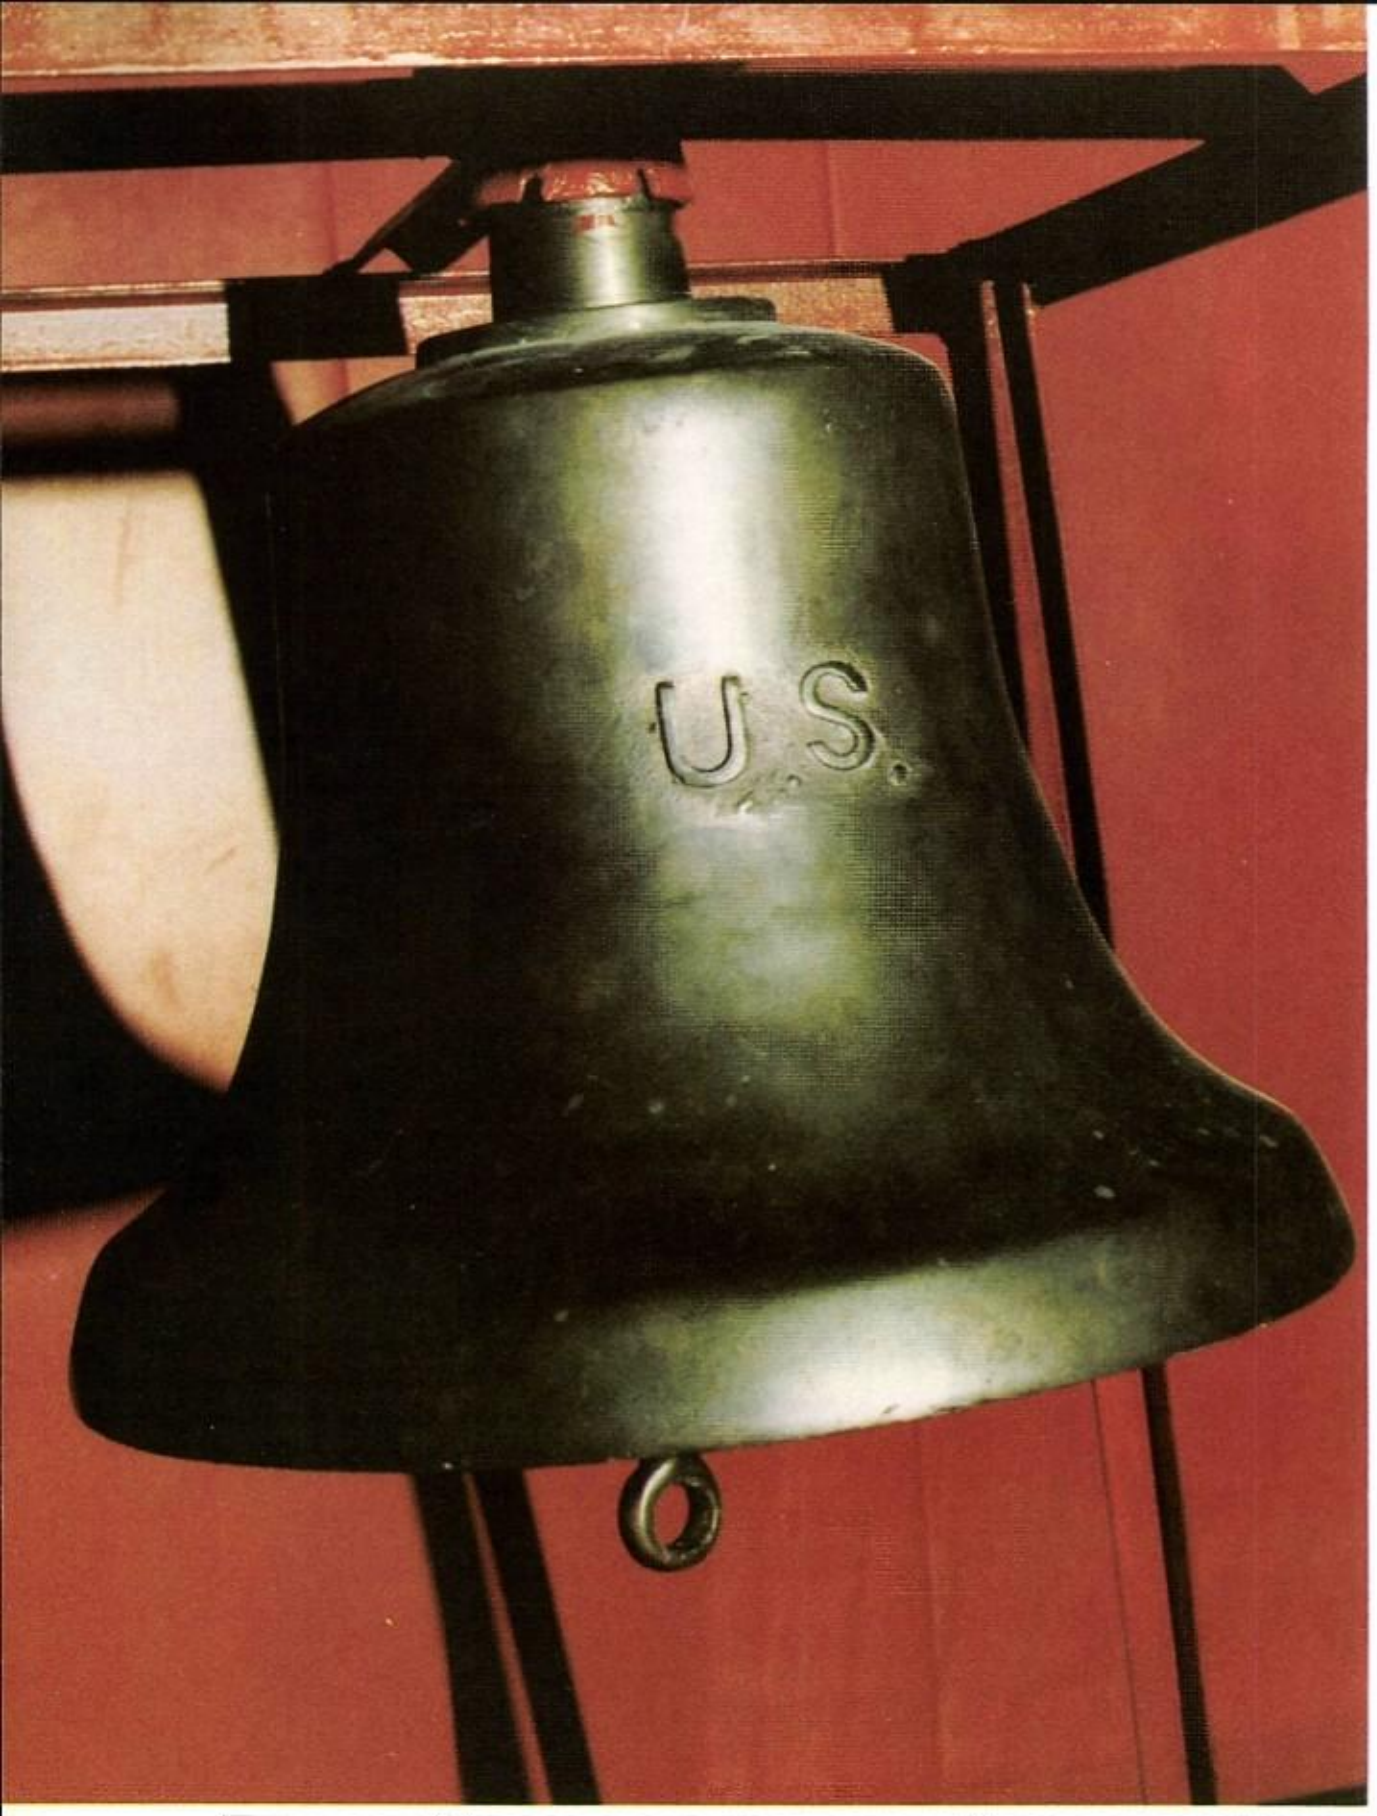












The tradition of the Victory Bell at Rocky Mountain was established in 1974 by the Student Council. The Council arranged for the U.S. Navy to send the bell from a Naval port on the East Coast. The "victory bell" is used for pep rallies and athletic events to symbolize the spirit and unity of the Rocky Mountain High School student body.

There are many ways to show school spirit. Helping out in activities and becoming involved is one way. By attending athletic events, plays, or music programs, you show that you are proud of your school and want to be a part of it. Joining the pep club will also allow you to express your spirit. "The Pack" tries to encourage and support all the athletes in the school. Some of the Pack's activities include decorating locker rooms, sitting together and yelling at games, and supplying the mascot at the games.

THE FALL SPORTS

Fall sports at Rocky Mountain High really kick-off the new year. Students really "dig-em" and sports at Rocky fit us to a "tee". The teams "plunge" into the competitions presented by each sport, and give most other teams a good "run" for their money. The LOBO fans just "love" to cheer on our teams, even to the "split" second of the competitions.

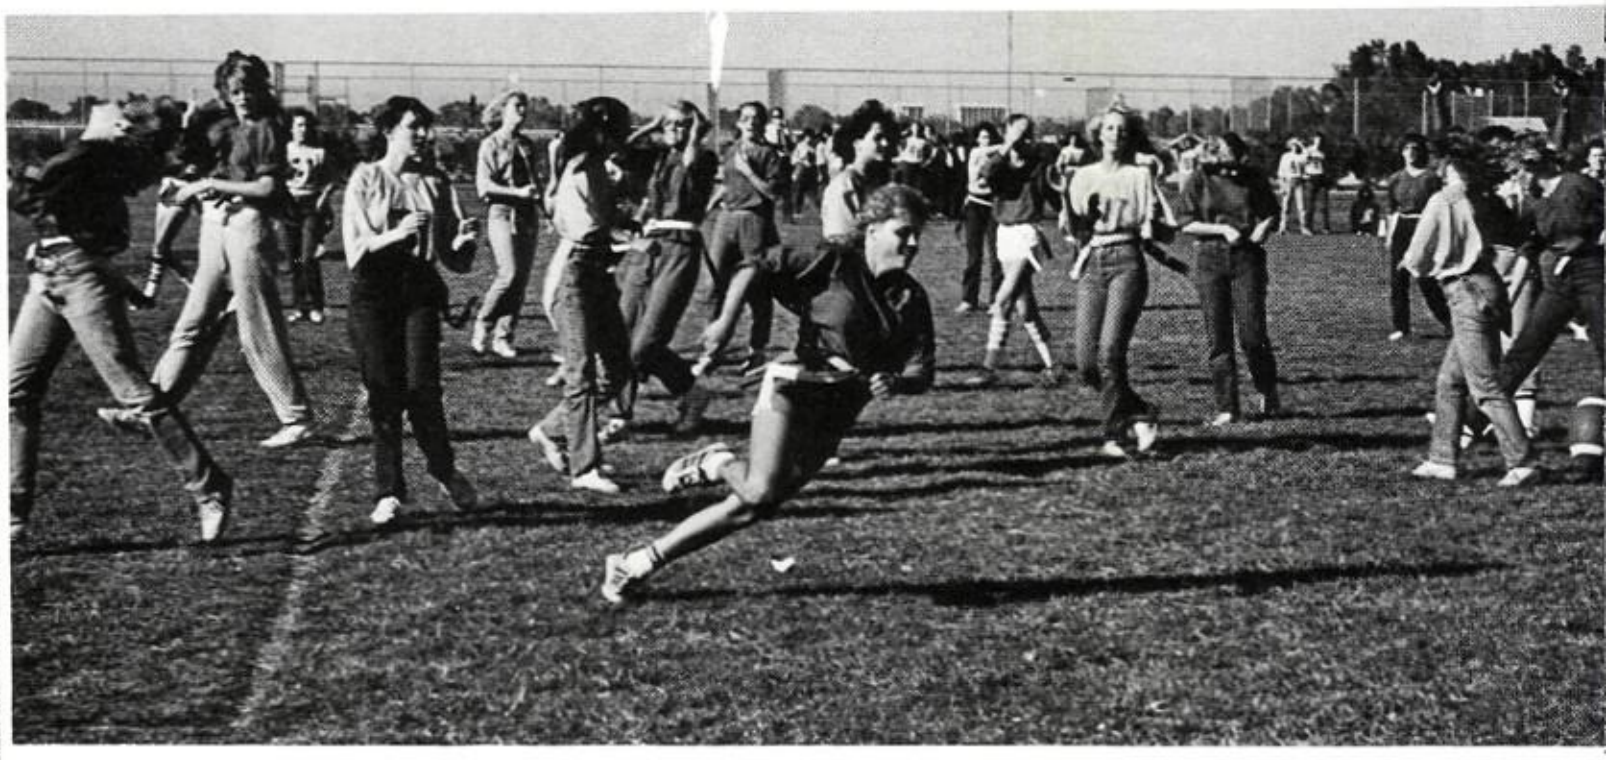
POWDER PUFF



This year's senior powder puff team for the class of 1981 did something no other class in the history of Rocky Mountain High School has done. The team has won the annual powder puff game two years in a row. Both years, they worked very hard getting ready for the game. The 1979 game was won 6-0; and, the score of the 1980 game was 8-6. Both years, the coaches for the team were Tom Ray, Gary Crockett, and Dave Kosht, with some help from Gregg Bartlett and Robert Wawrzynski.

The powder puff game is a tradition that allows the girls of the junior and senior classes to get together and have fun and be a part of the homecoming activities. Congratulations to the class of 1981.

HOMECOMING 1980

--Tradition
--Event to have fun
--Honor past graduates
--Chance to show pride in school

Homecoming: What exactly does the name mean?
The dictionary definition is:

Homecoming (-kum'-in)n 1. A coming or returning to one's home. 2. In many colleges and universities, an annual celebration attended by alumni.

Dr. Radcliff has similar feelings about this yearly event: "Homecoming is a time for alumni to see friends and socialize with people they have gone to school with. Alumni can also see how school has progressed. Homecoming allows the present students to rally around school. It builds pride and makes students glad to be going to Rocky Mountain High School, which, in turn, makes students do a better job."

Since each person has his own personal ideas of the meaning of homecoming a definite meaning cannot be reached. Nevertheless, everyone agrees that Homecoming is a time to be together.

Traditional to Homecoming is picking out a theme to set the mood for the week of spirit. The past seven years shows a variety of themes:

1973 - The Shape of Things to Come
1974 - Follow Me
1975 - Moments to Remember
1976 - As Time Goes On
1977 - Hands of Time
1978 - Always and Forever
1979 - Something Happened Along the Way

This year's theme, You Are My Shining Star, seemed to be just right with the clear, star-lit night of the dance.

The 1980 Homecoming Week was shortened to three days, but that didn't stop any of the fun and excitement. As usual, the unofficial "veggie war" got spirit week off to a rolling start. Wednesday kept everyone busy with the hat day, chili dinner, glamorous fashion show, the always hilarious Mountain Men program, and the spirited bonfire which warmly ended the evening. Wearing yellow and red on Thursday set an enthusiastic mood for the big game that night against Fort Morgan. Unfortunately, we lost, but our spirits were not dampened since we played a great game. During halftime, the crowd eagerly waited for that special moment when the kings and queens were crowned. The Senior Class was proud to have Gary Crockett and Heidi Martinez as the king and queen. Kelly Webb and Charlie Mitchell were selected for the Junior Class. Chosen for the Sophomore Class were Jeff Parker and Carmin Lee. An extra special performance was given by the band to finish the halftime. The next day, Friday, there were many new "girls" and "guys" at school because of switch day. Of course, the seniors were victorious over the juniors in the exciting powder puff game. Once again, the traditional dance brought everyone together to put a shining touch on the Homecoming festivities.

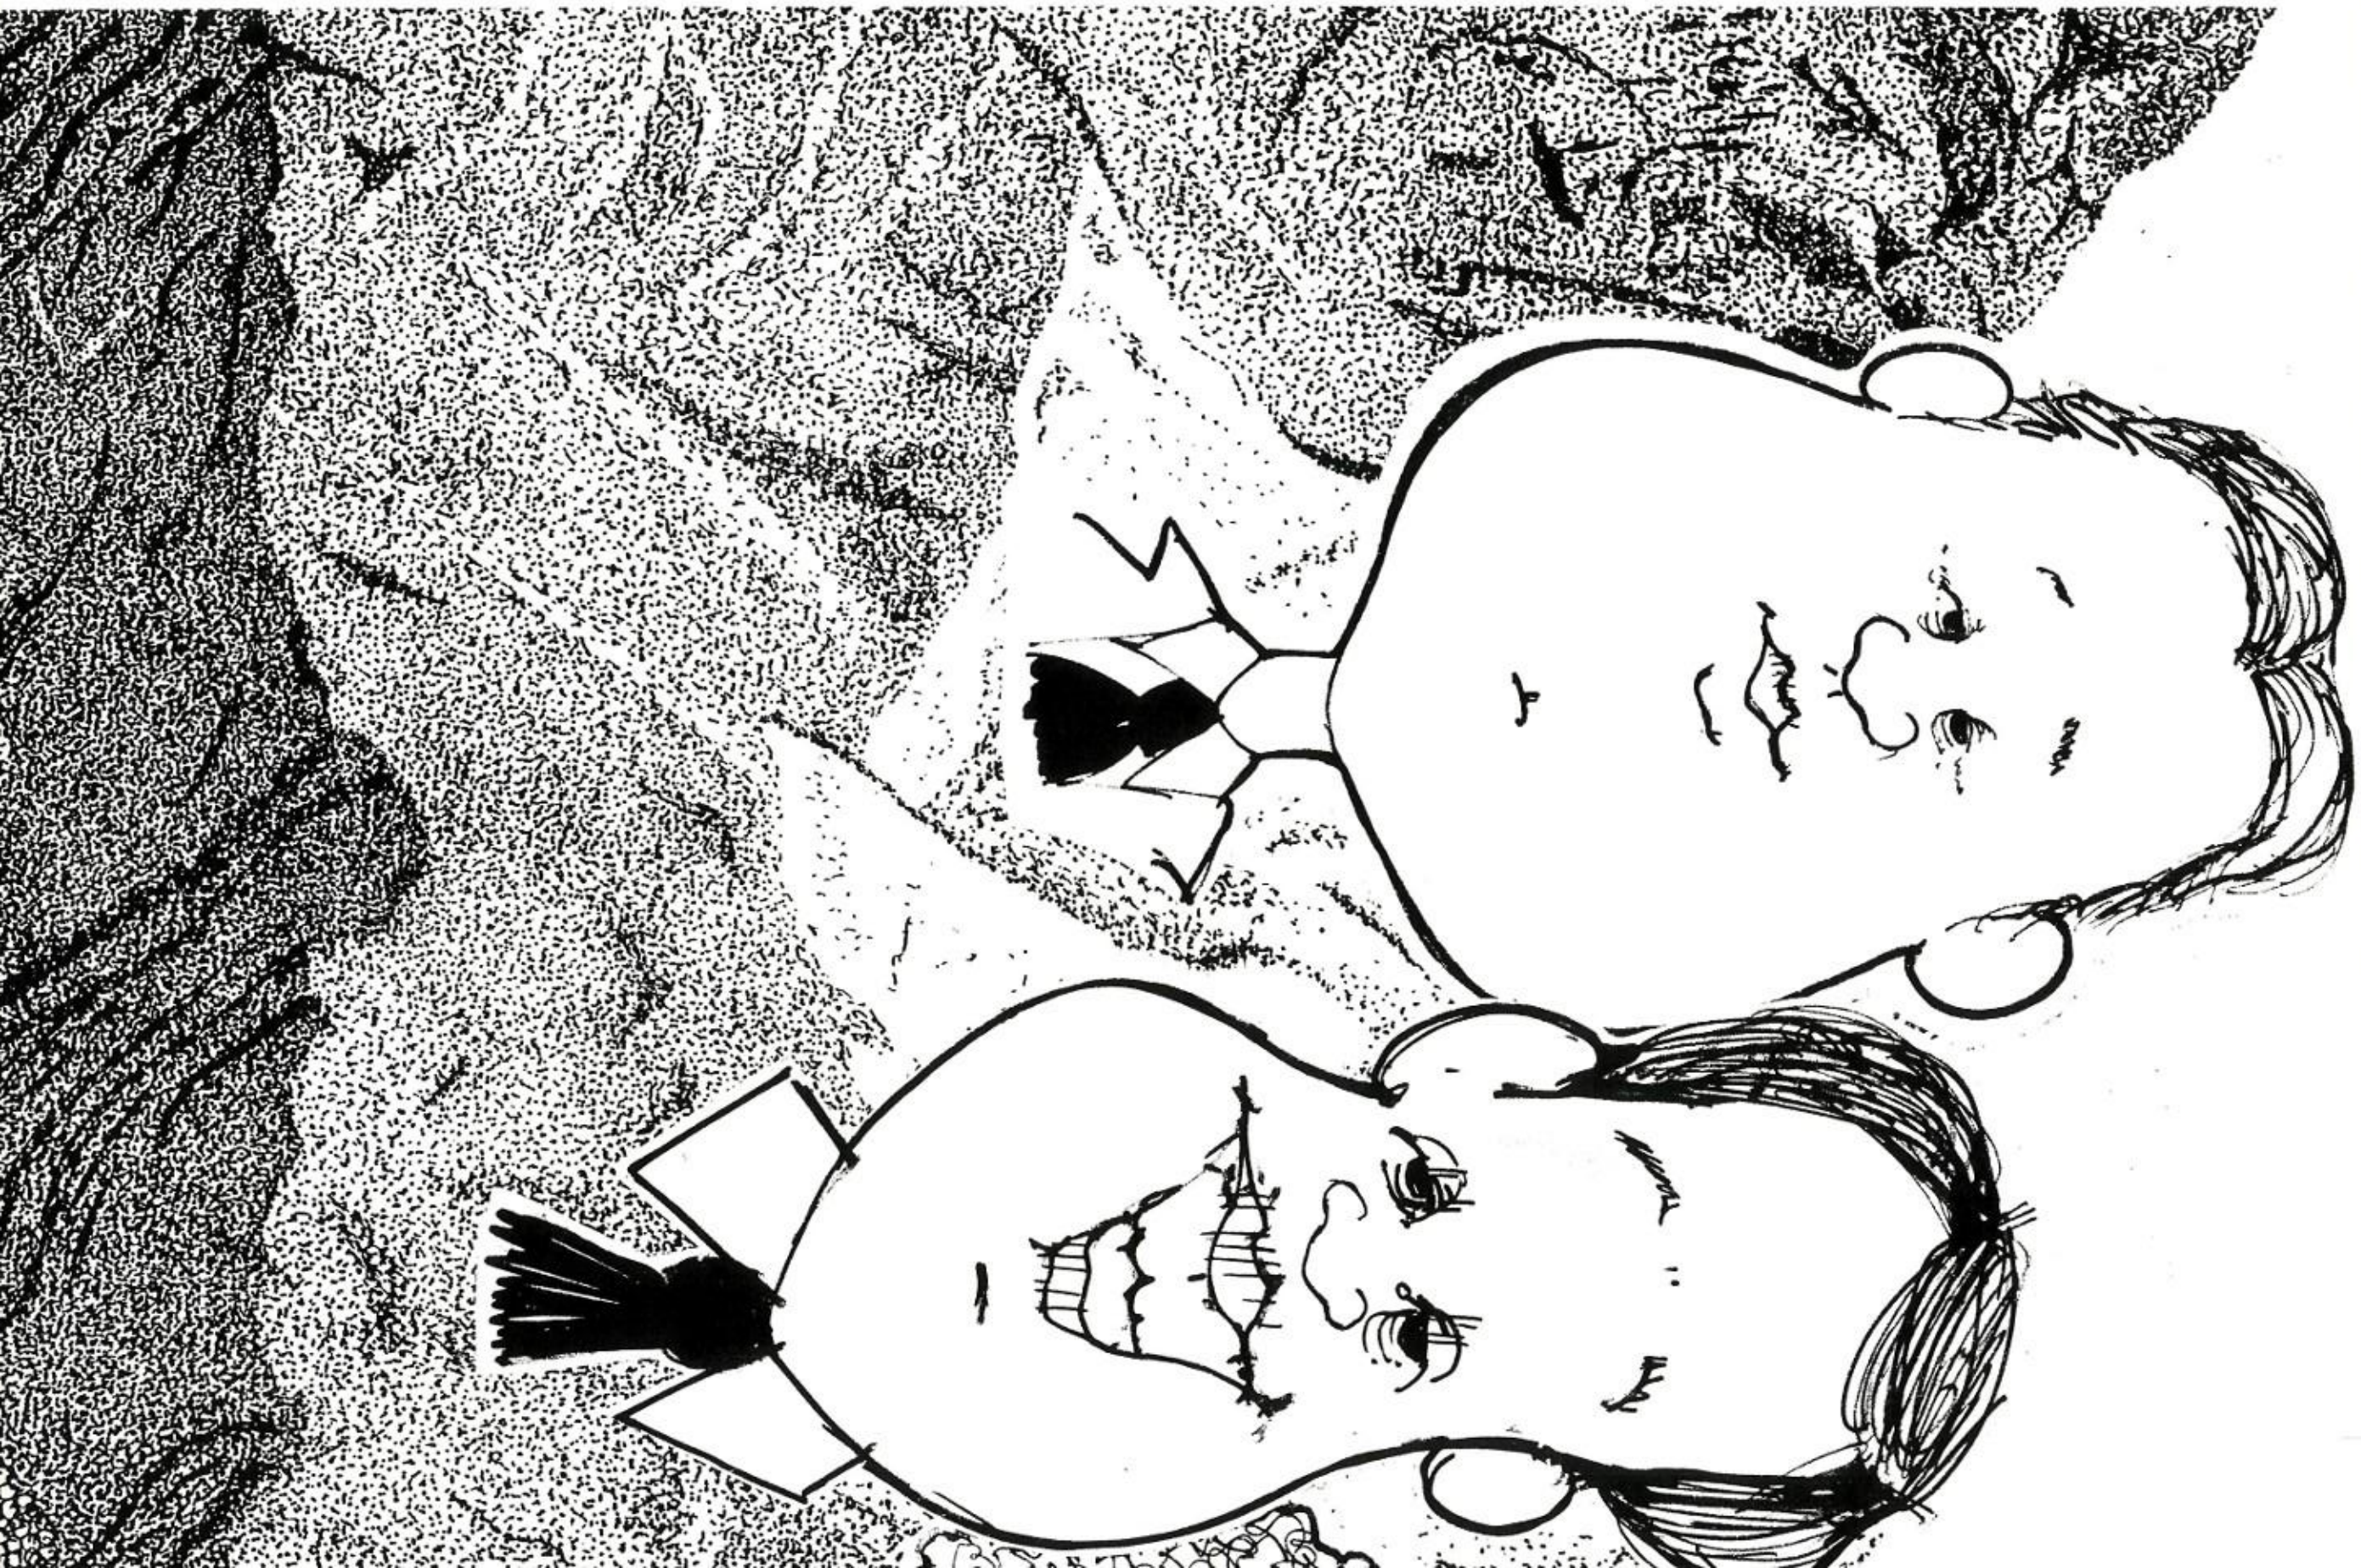
OUR MOUNT RUSHMORE



THIS YEARBOOK IS BROUGHT TO YOU THROUGH THE CREATIVE EFFORTS OF YOUR RMHS YEARBOOK STAFF

This book was brought to you by the 1981 LOBO Yearbook Staff:

Many hours of planning and work have gone into the production of the annual. The staff started last year by attending planning meetings. There, we decided on the cover, endsheets, division pages, and color section. This fall, while our photographers were busy taking pictures, the layout people worked diligently on designs for the pages. Copy was written. Photos and headlines were printed, and then everything was compiled to paste-up on the pages--all of which were produced at Rocky Mountain High School.

CLUBS

In today's society, there seems to be a club to suit every person's tastes and interests. This is very true for Rocky Mountain, for there are 31 different clubs and organizations ranging from a Geology Club to a Future Homemakers of America Organization. Each club enables a person to discover a variety of new interests. For example, the French Club goes to French-oriented plays, prepares French dinners, play sports that are played in France, and even sponsor fun-filled dances. Some clubs help out to improve the condition of the school. One such club is the Letterman's Club which holds fund-raising projects to buy new weight room equipment. Belonging to a club will help a person meet new people and develop special friendships with them. Traveling to different parts of the state or country should not be excluded from the activities of some clubs. The Explorers Club plans on visiting Mount Saint Helens in the state of Washington during the summer, and the National Forensics League travel around Colorado participating in various speech contests. In addition, most people do not realize that clubs can educate and help plan careers while having fun.

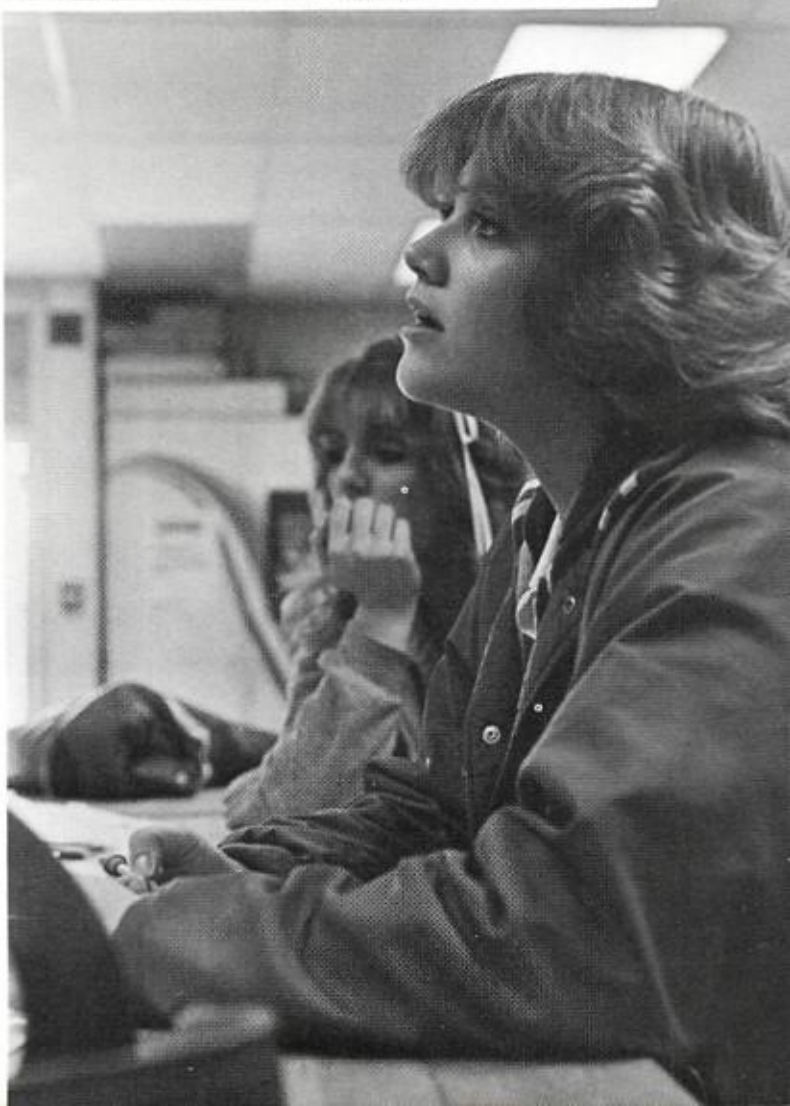
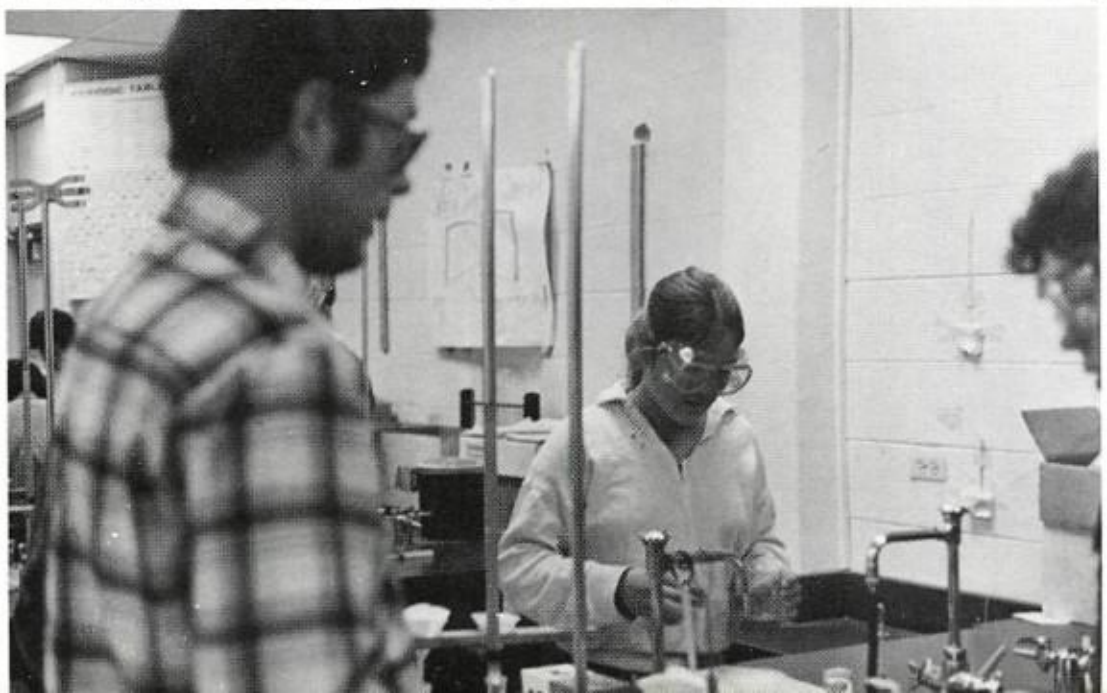
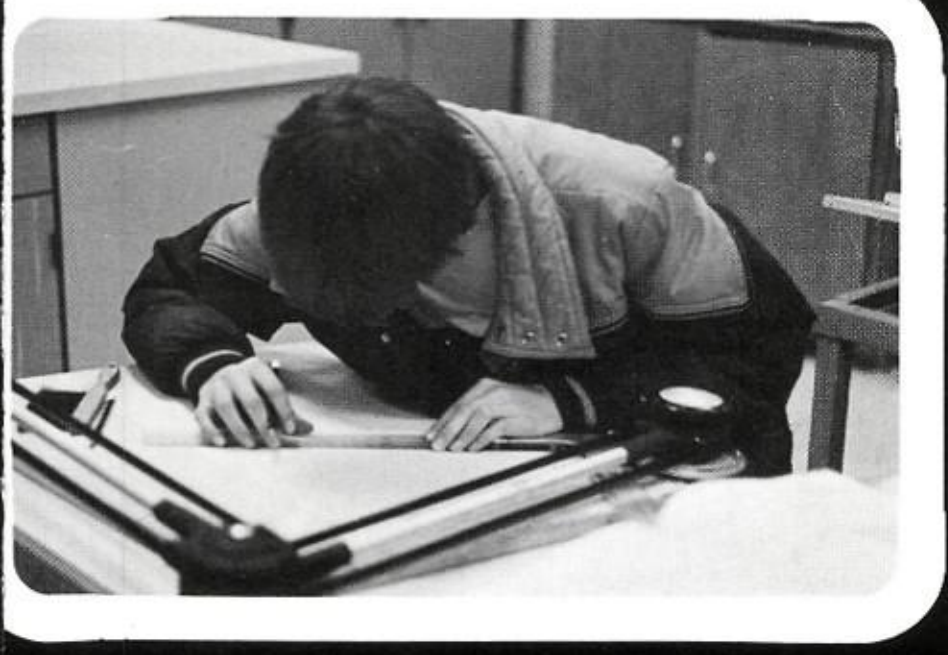
DARKROOM

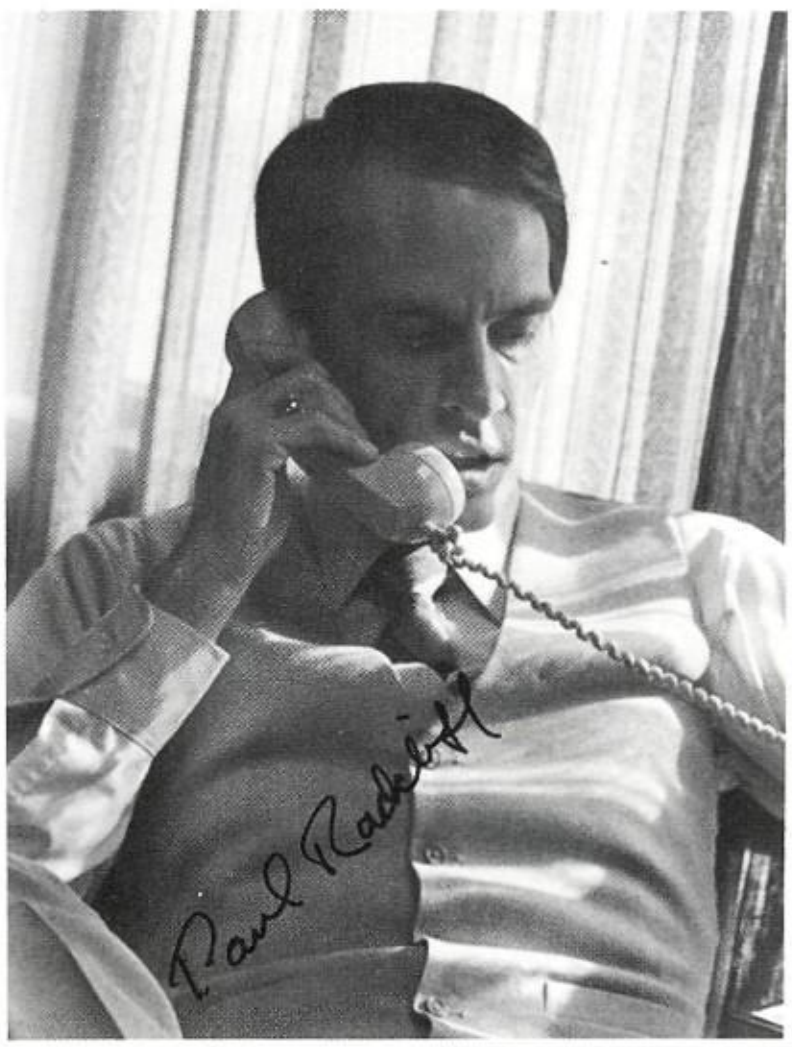


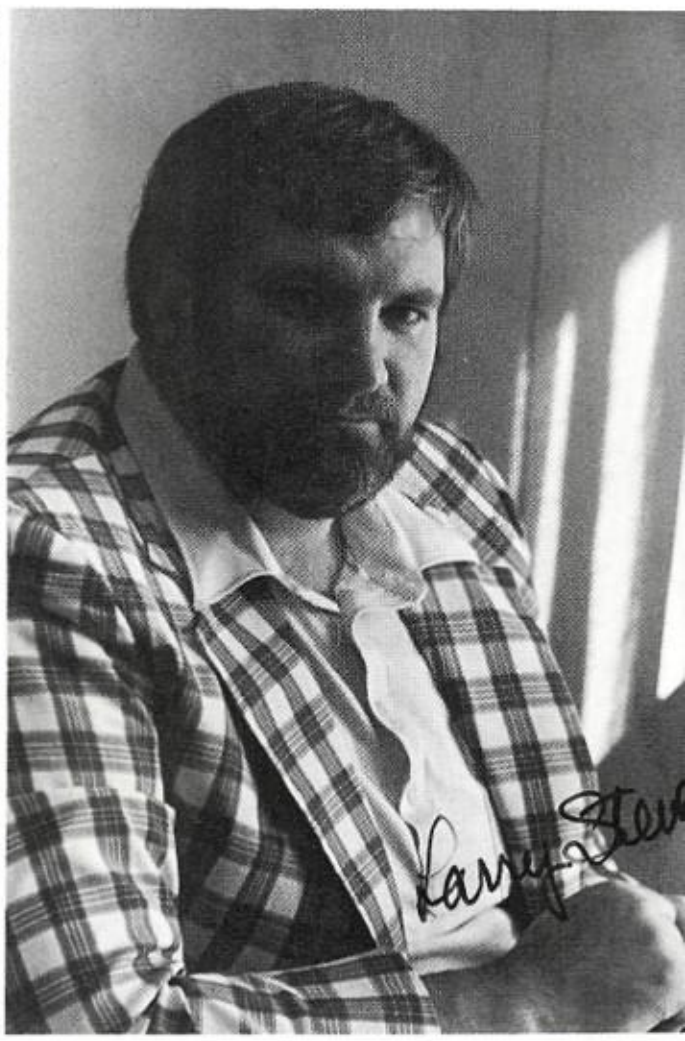




FACULTY

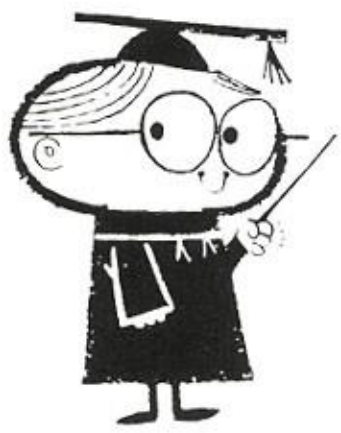
ADMINISTRATION

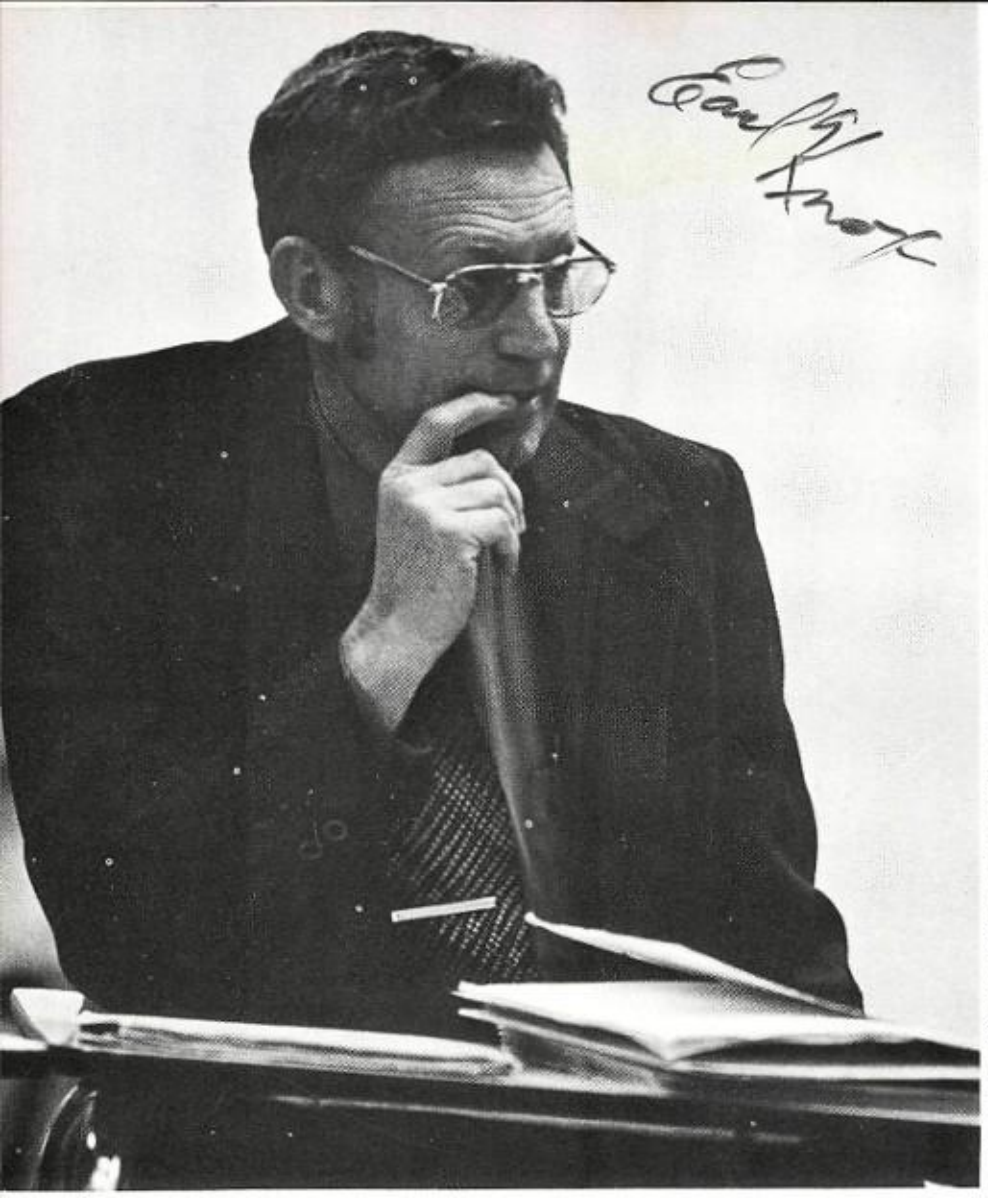


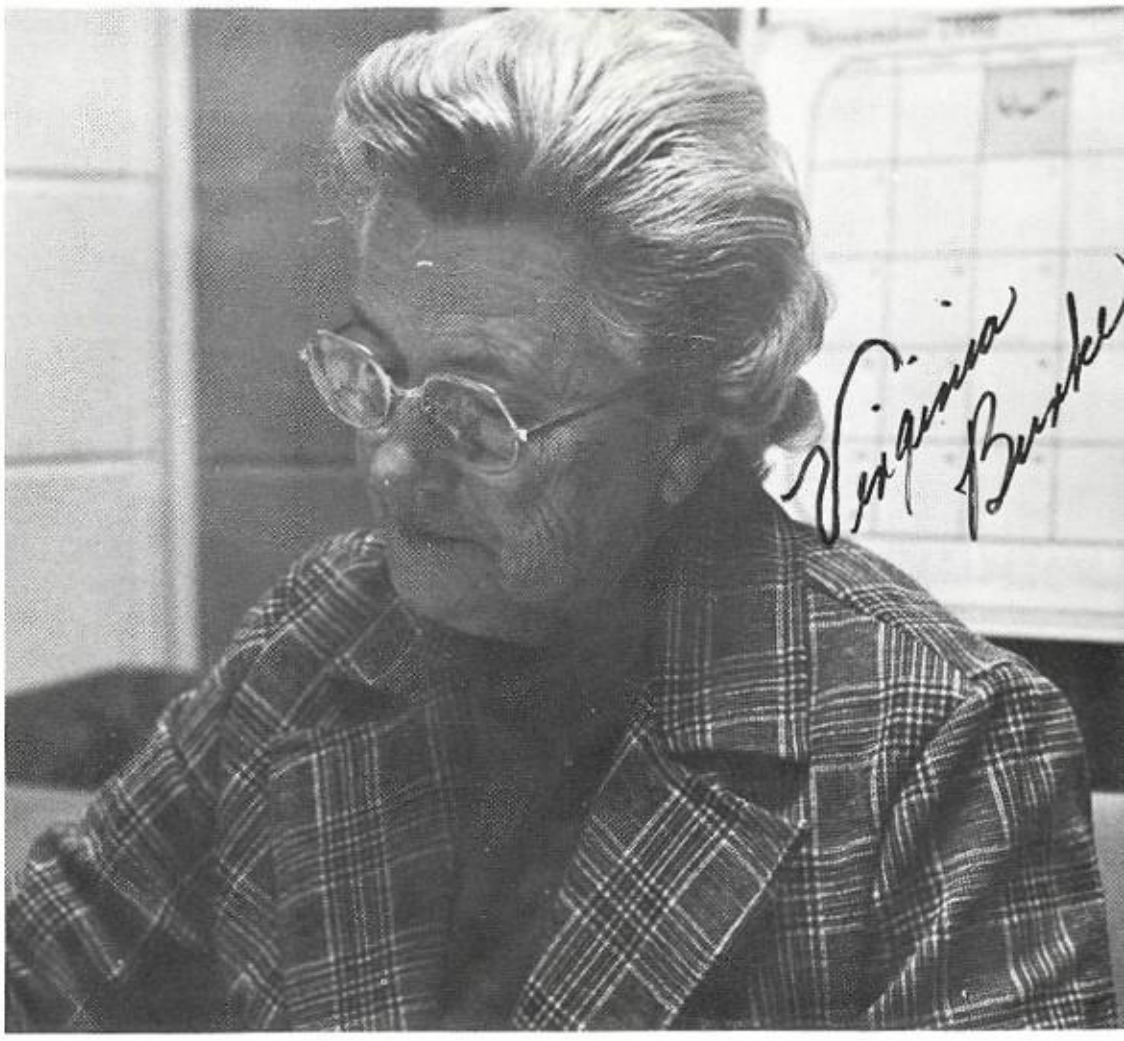


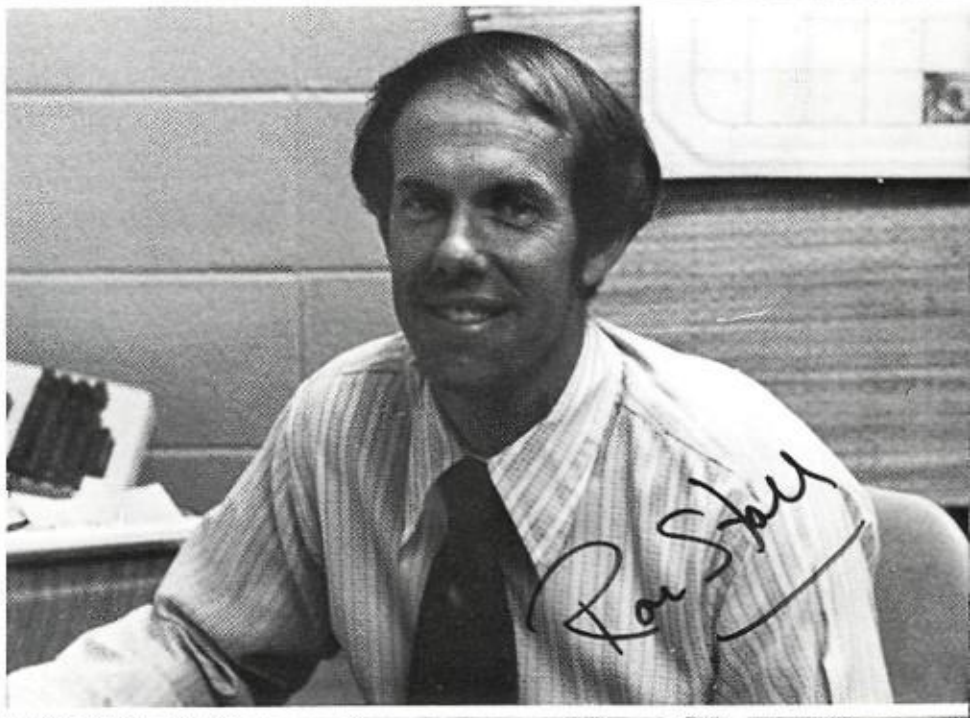
ADMINISTRATION

Rocky Mountain is a comprehensive high school, providing diverse programs to meet the diverse needs of its students. Within this framework, the administrative staff provides educational leadership, facilitates the instructional program, implements curriculum development, and serves the teaching staff in carrying out their responsibilities in meeting the needs of the students.





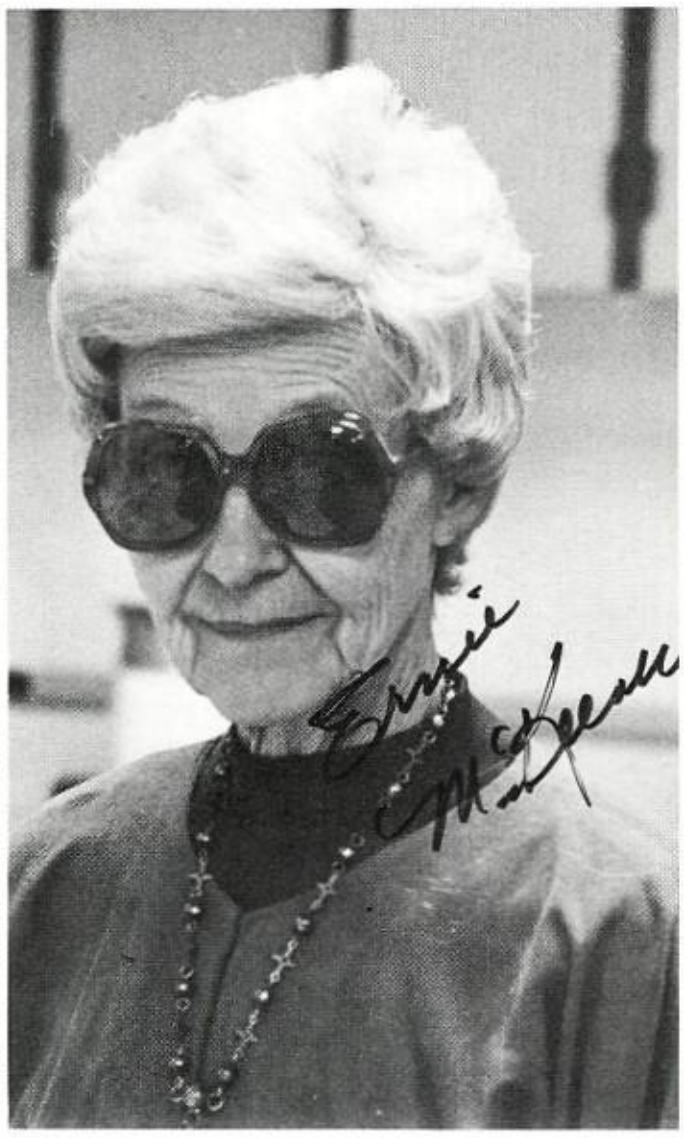




COUNSELING DEPARTMENT

The Counseling Department, consisting of four counselors, a counselor aide, a secretary/registrar, and a clerical aide offers the following basic services to the school: Individual Inventory Service, Information Service, Counseling Service, Placement Service, and Follow-Up.

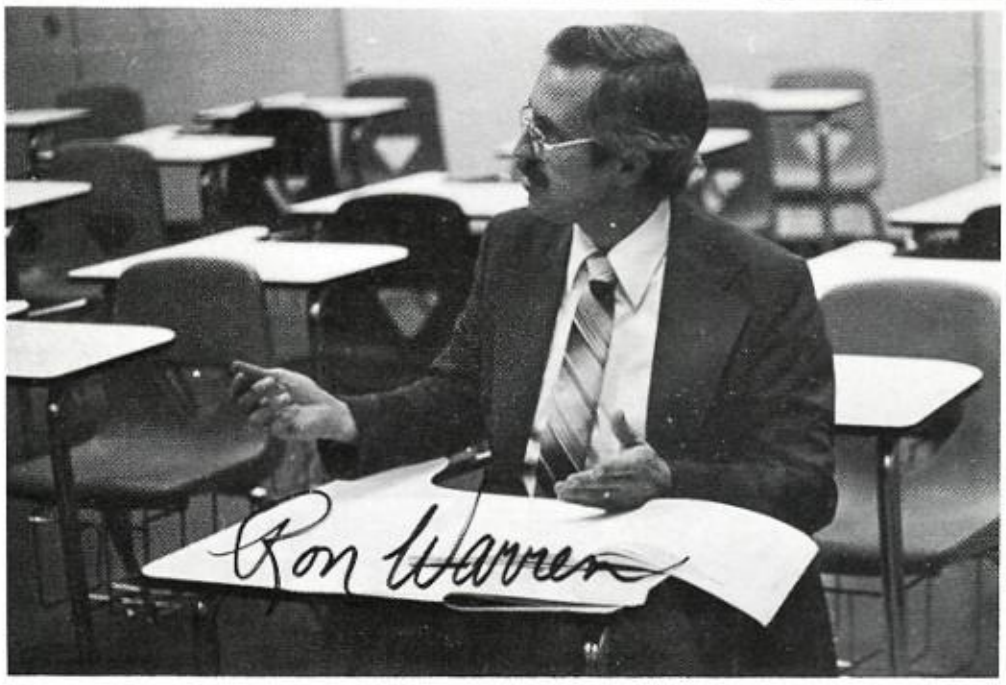
COUNSELING



IMC

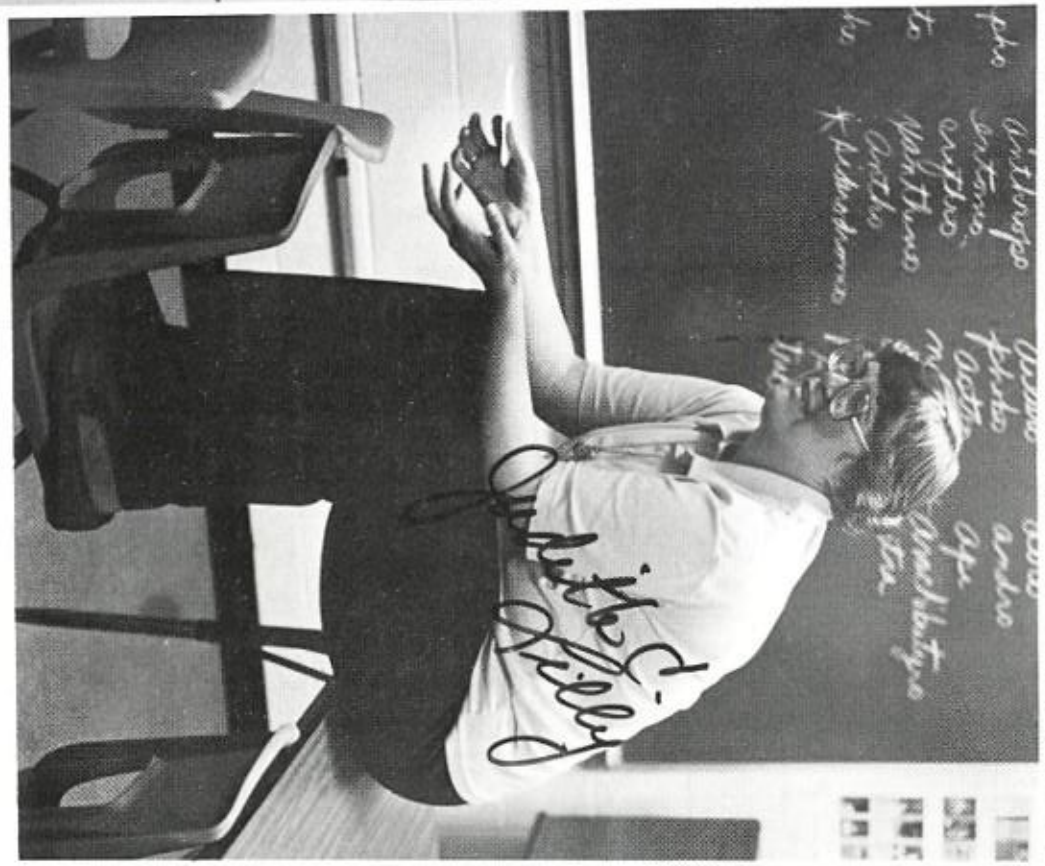
Education and communication are two concepts which are difficult to separate. They are dependent, one upon the other, and the purpose of the IMC is to facilitate education through communication. Its "Sounds of Silence" represent the world, communicate life, and educate people.

I.M.C

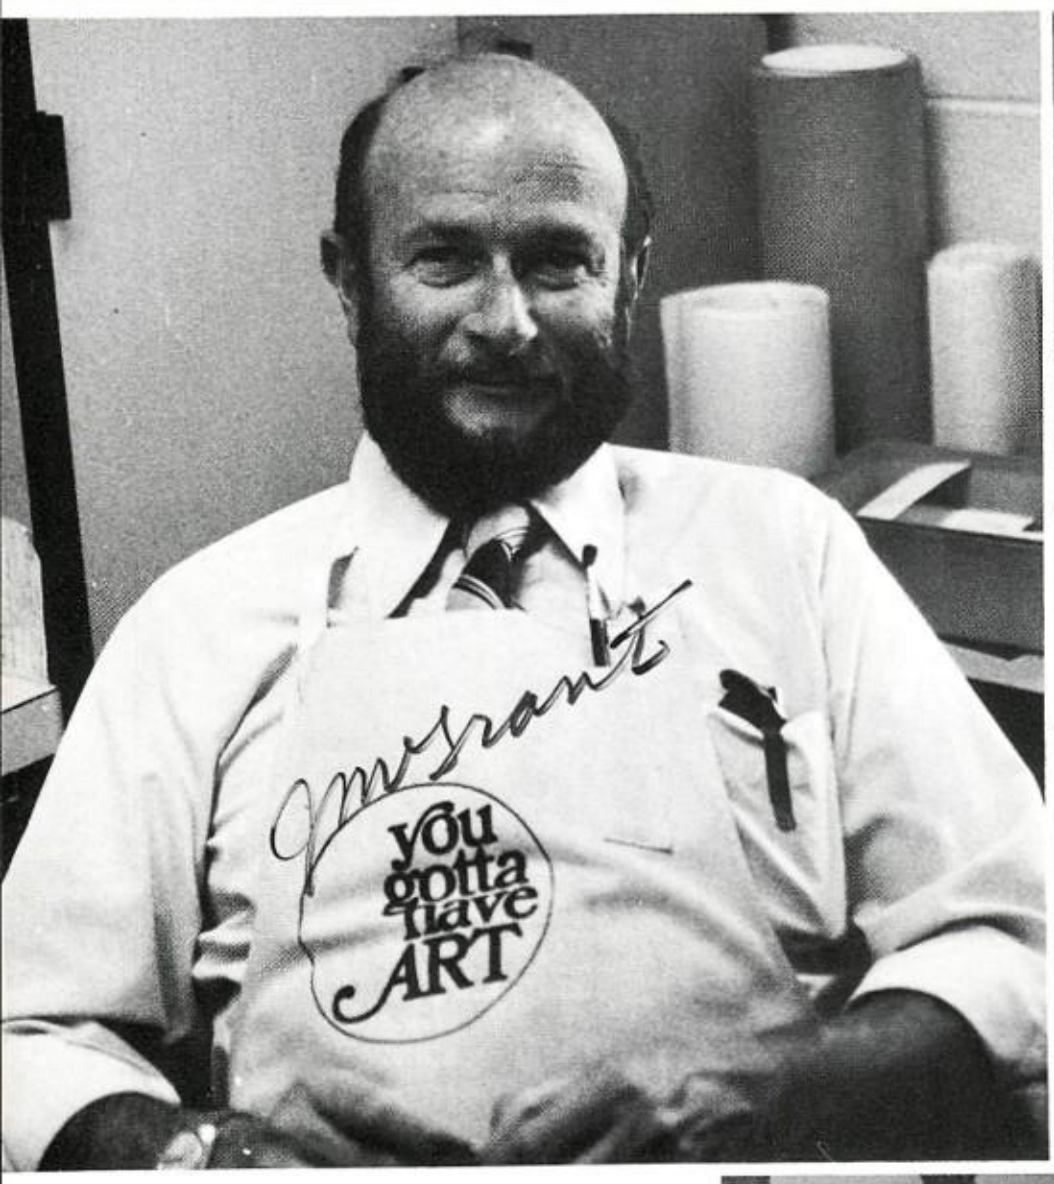


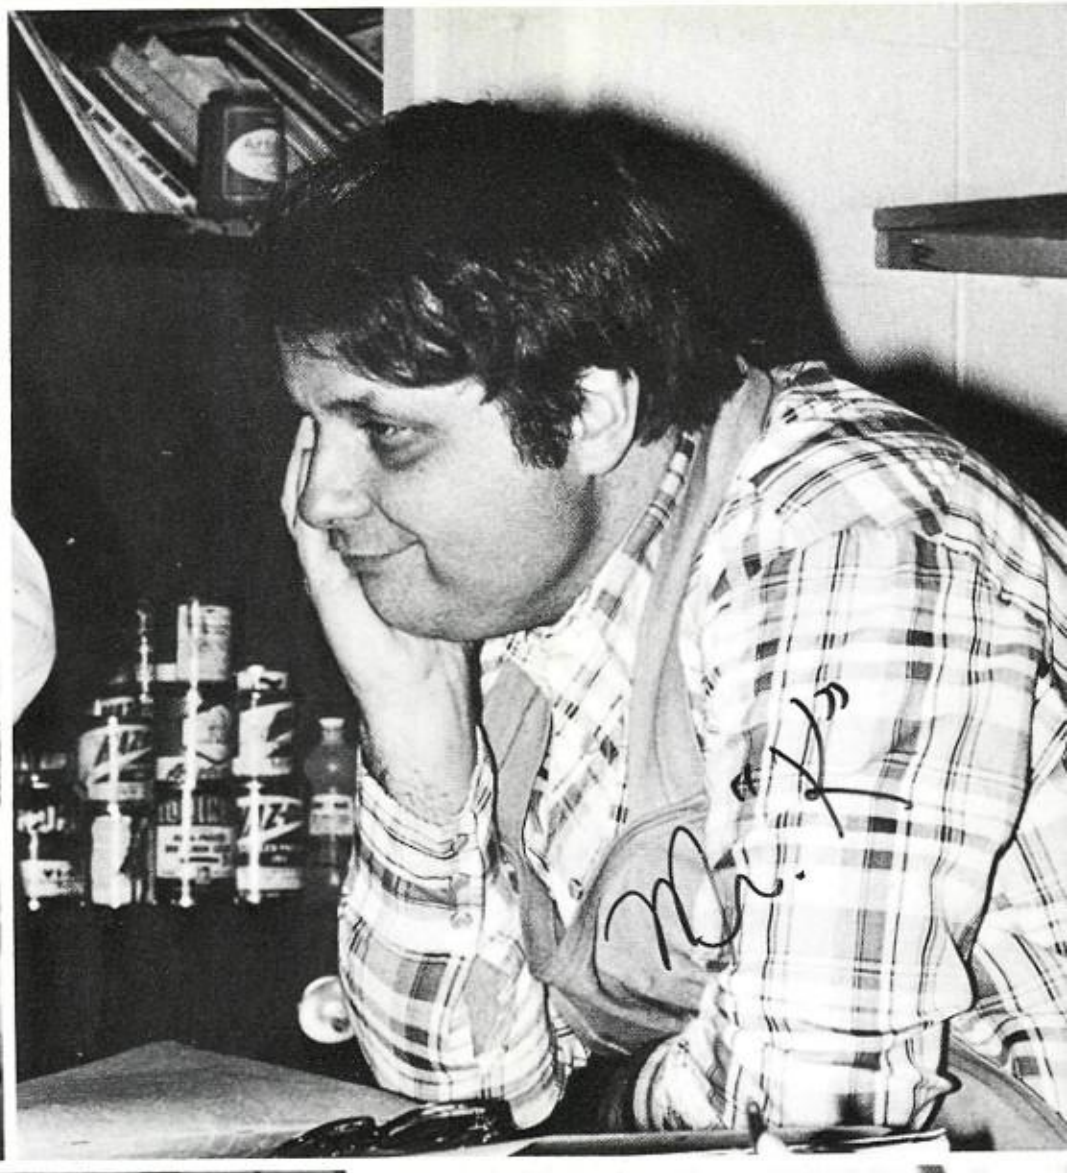
LANGUAGE ARTS

Oral and written language are central to the education process. Experiences in language arts lead students to intellectual, emotional, and social interaction and development. Behind the specific language arts experiences offered in this department, one can hopefully find a carefully conceived rationale to guide exploration of the entire range of language experiences. Our program combines curricular and co-curricular activities to meet this goal.



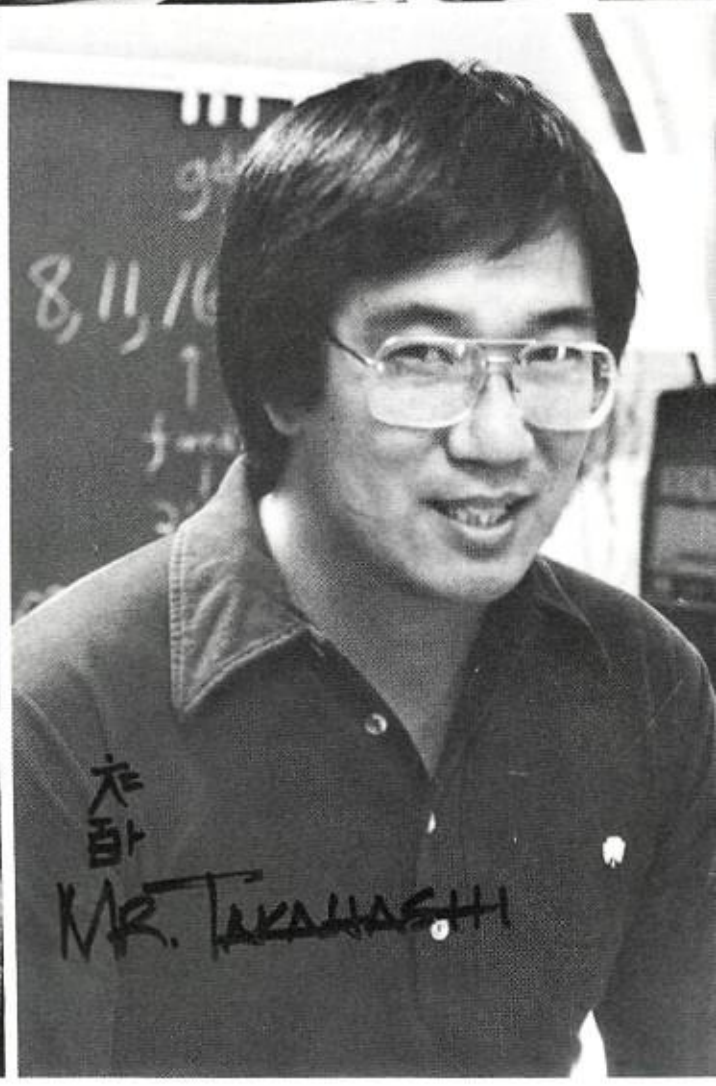
LANGUAGE ARTS

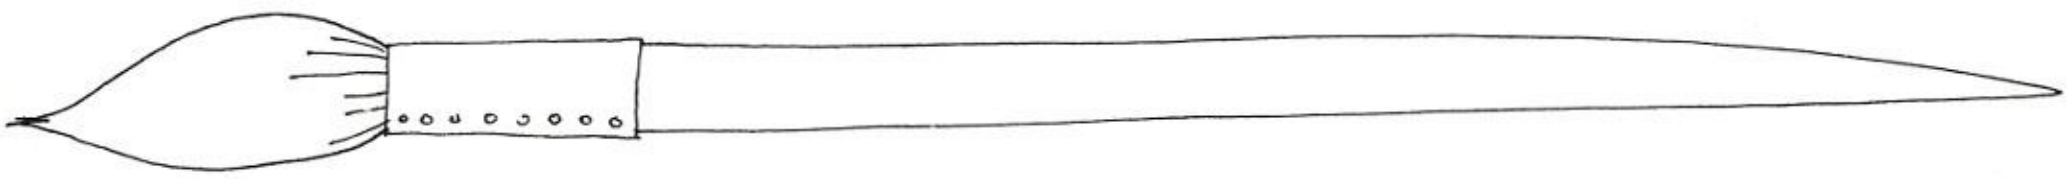




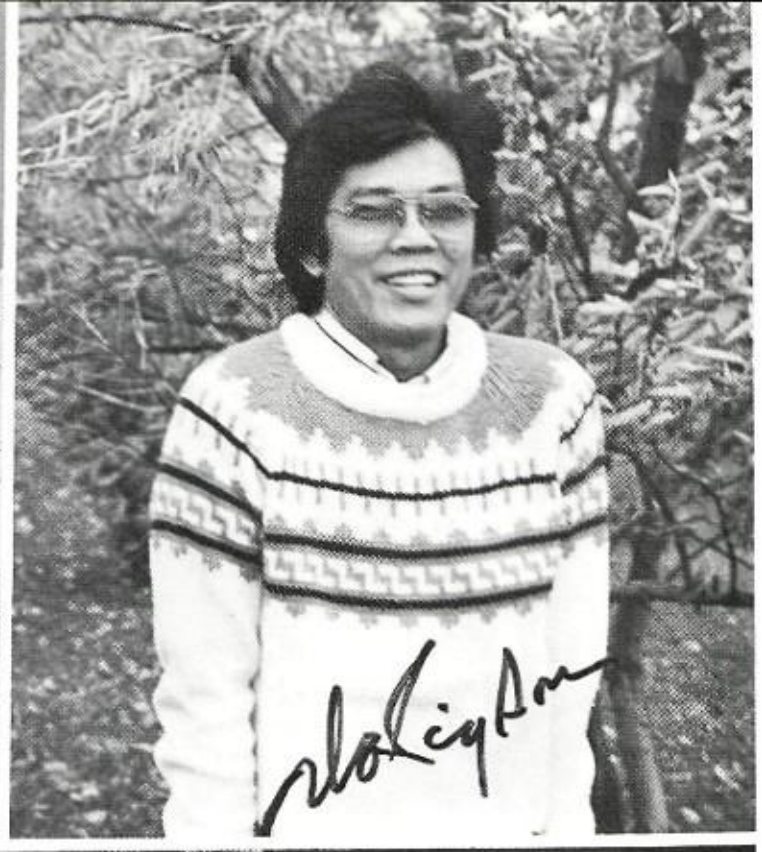
ART PROGRAM

The senior high art program offers the student opportunity to select areas of interest for specialization upon completion of the Design course. Learning experiences are designed to accommodate the student's ability in perceiving and responding to aspects of art; to recognize and understand major styles, historical periods, and significant contributions through art; and to make and justify judgments about the aesthetic merit qualities of art and the environment.





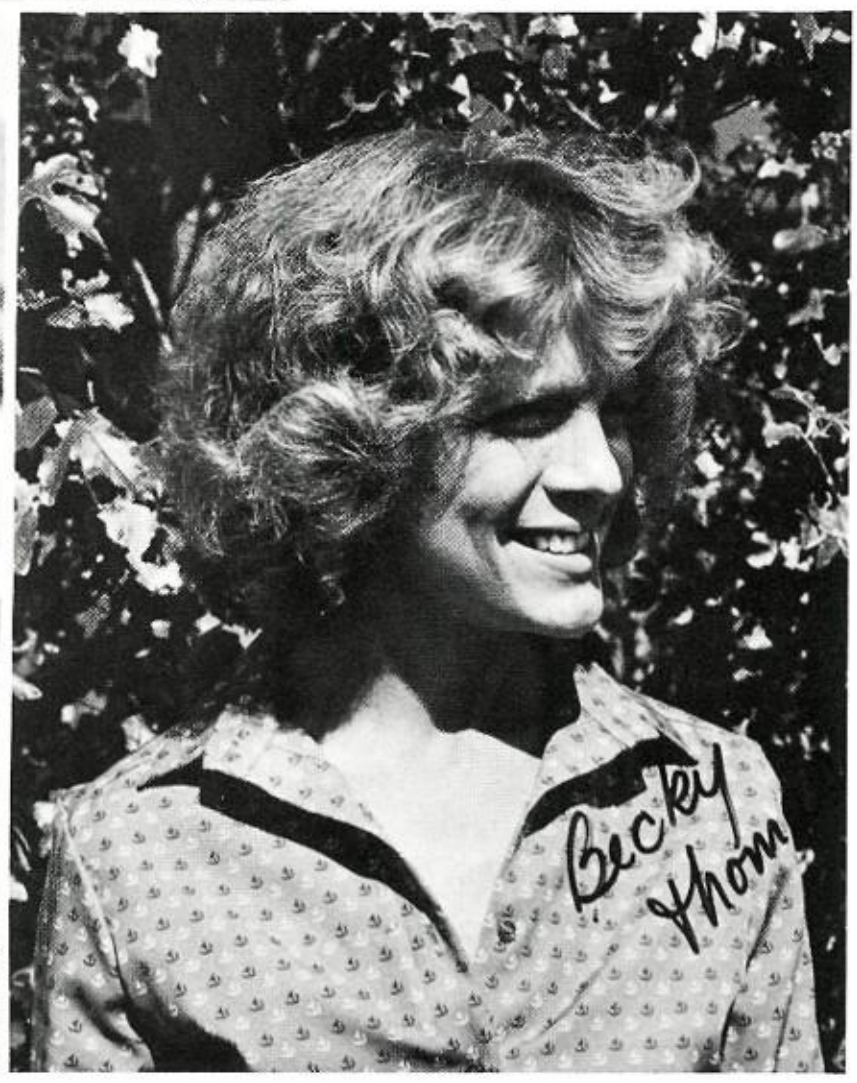
VISUAL ARTS



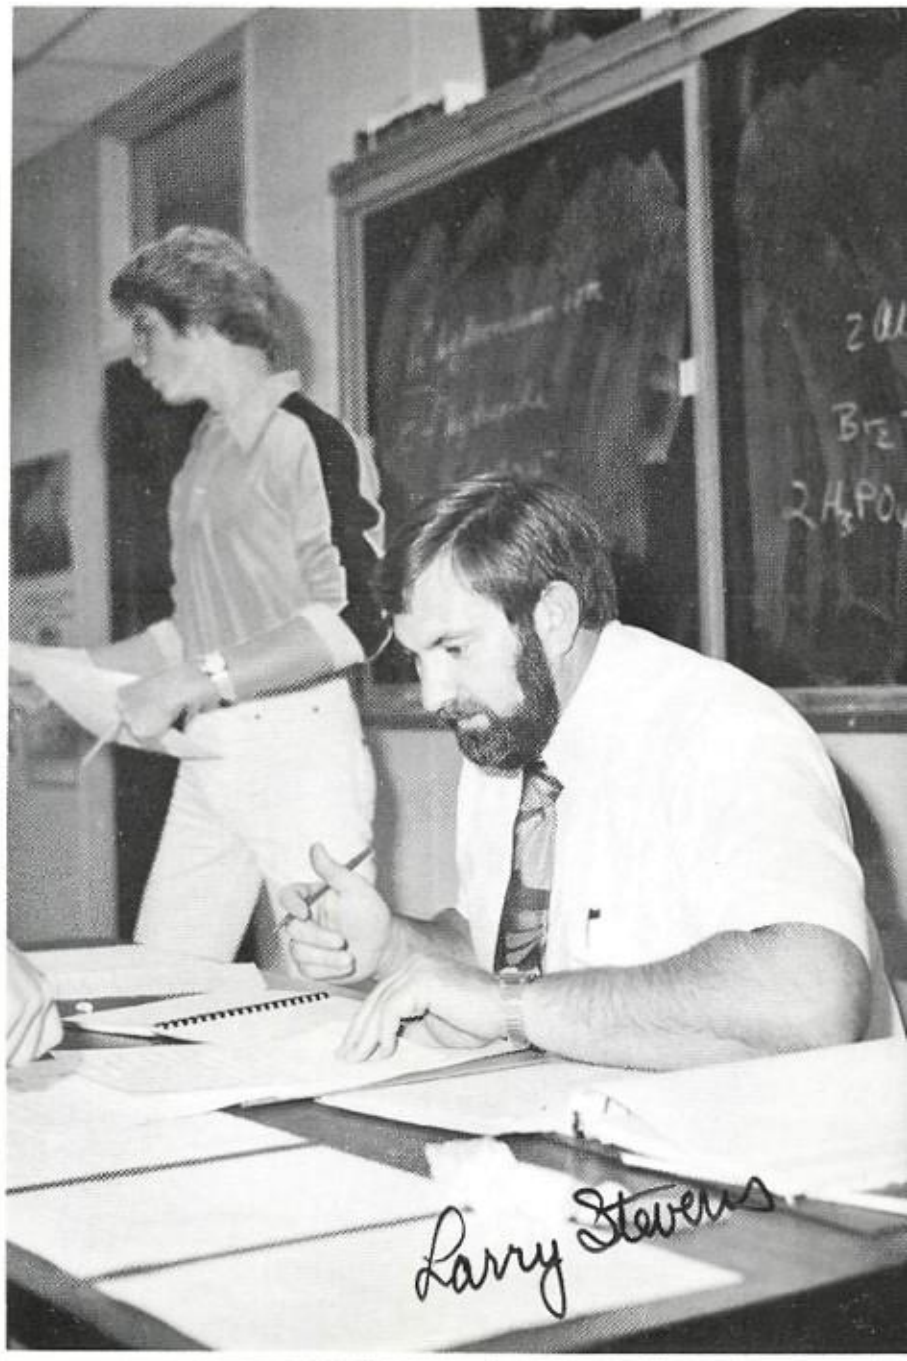
SECOND LANGUAGE

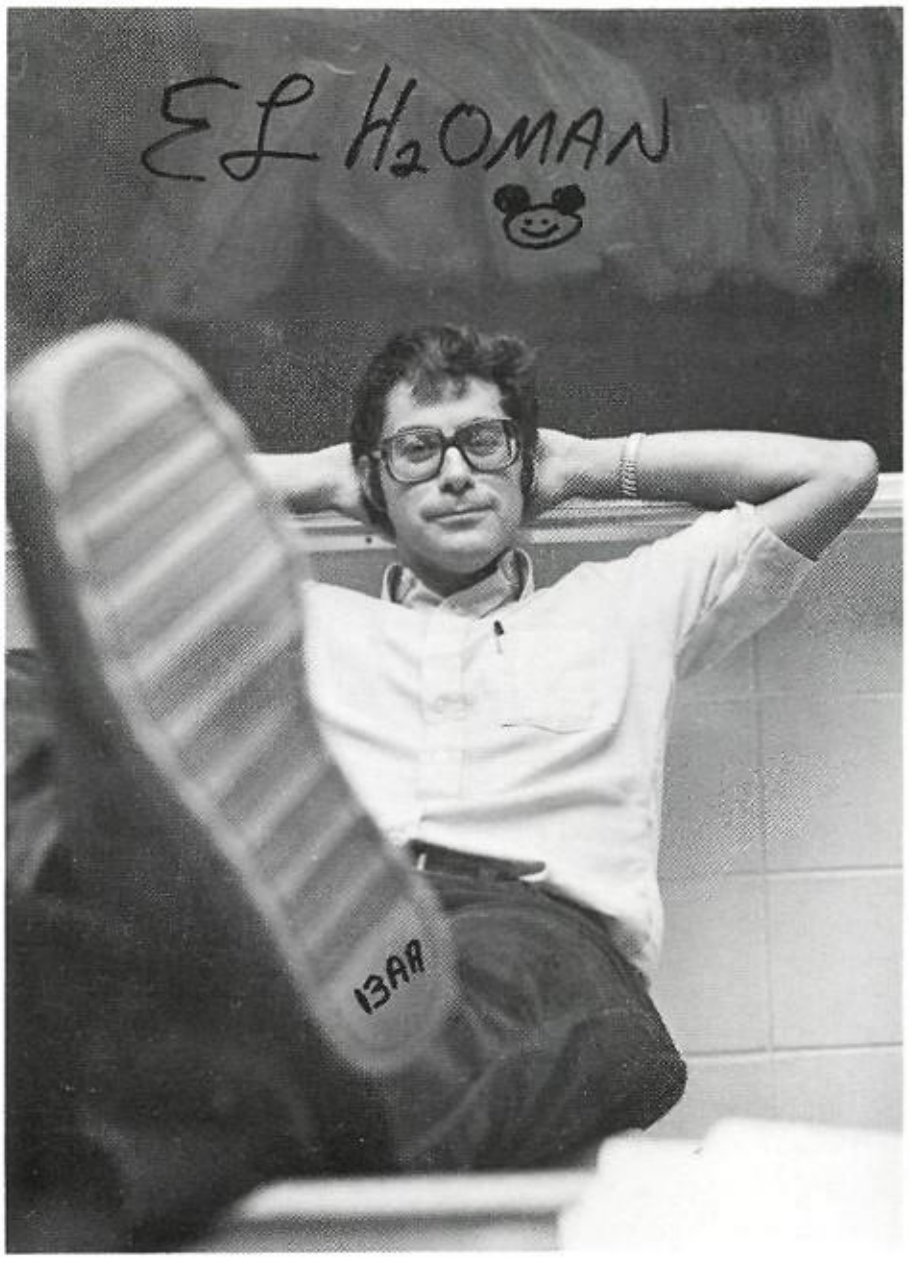
SECOND LANGUAGE

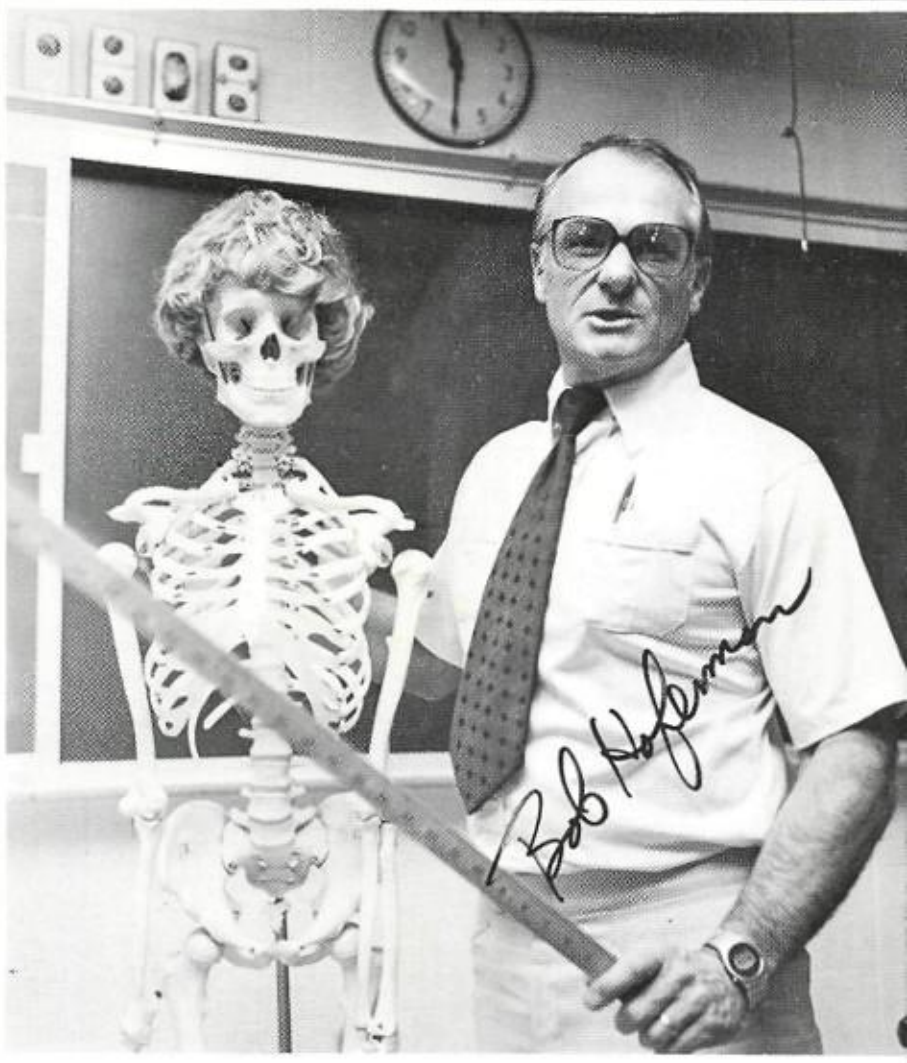
Learning a second language provides students with a skill necessary for communication with other nations and peoples. Its practical application is advantageous in pursuing career, study and travel plans. In addition, the study of a second language offers the individual yet another view of the world which not only enriches the student's world, but allows him or her to look at his or her own culture with new eyes. It reinforces and supports all subject areas dealing with communication and the study of man.



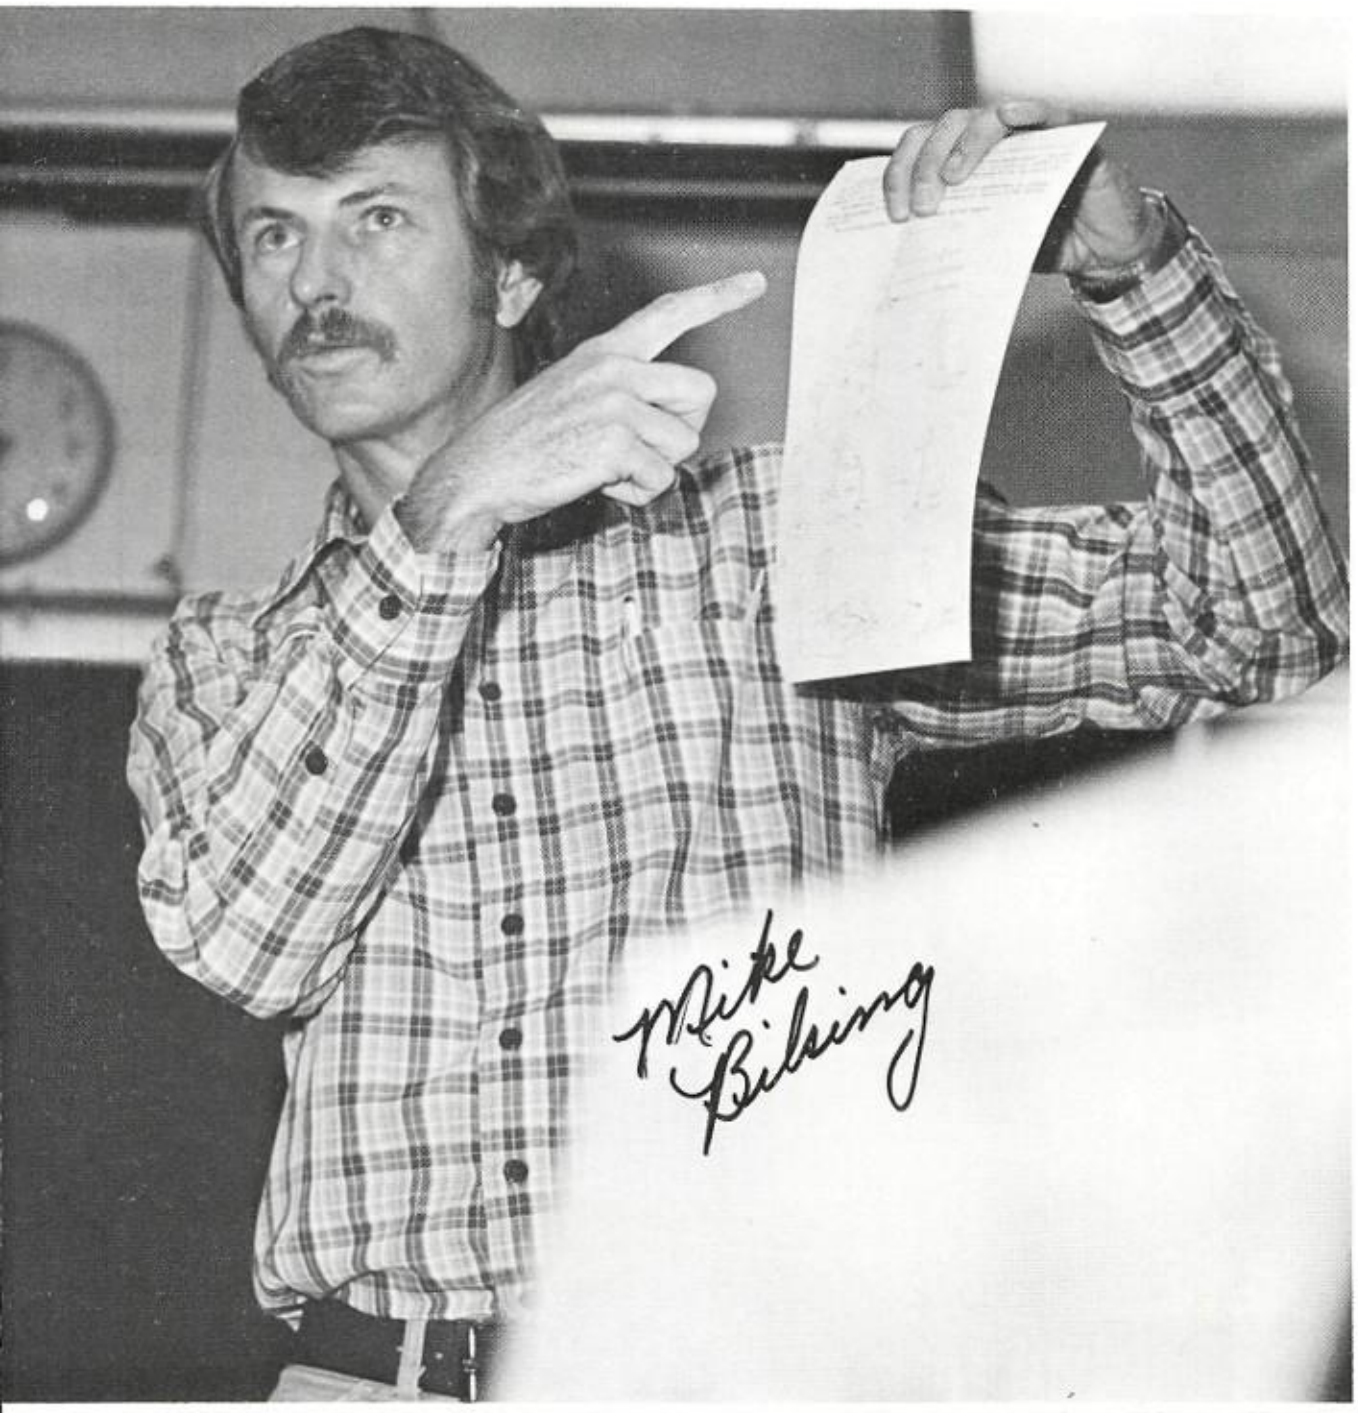
SCIENCE







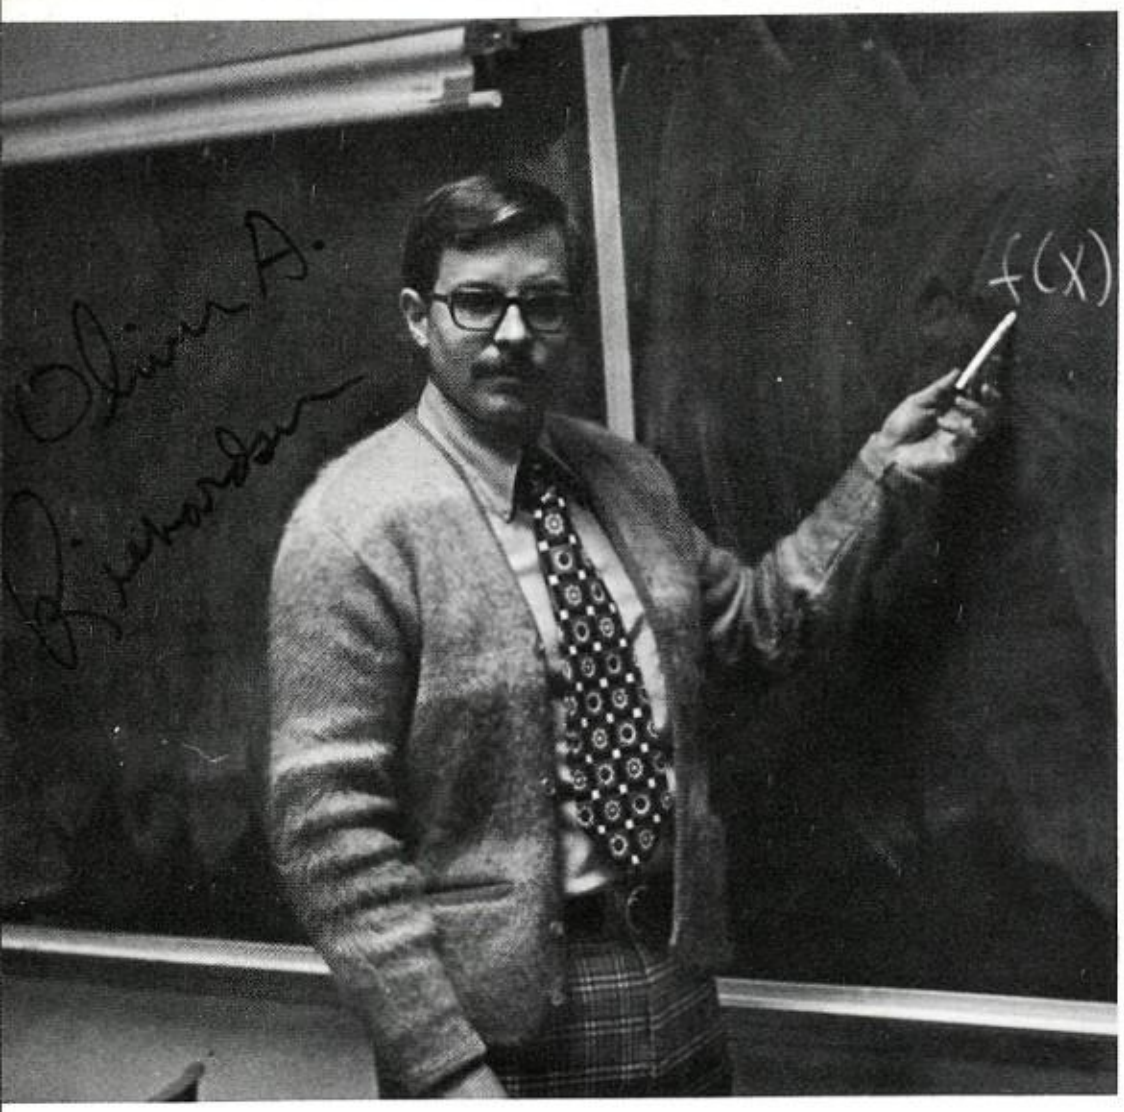
SCIENCE SCIENCE SCIENCE

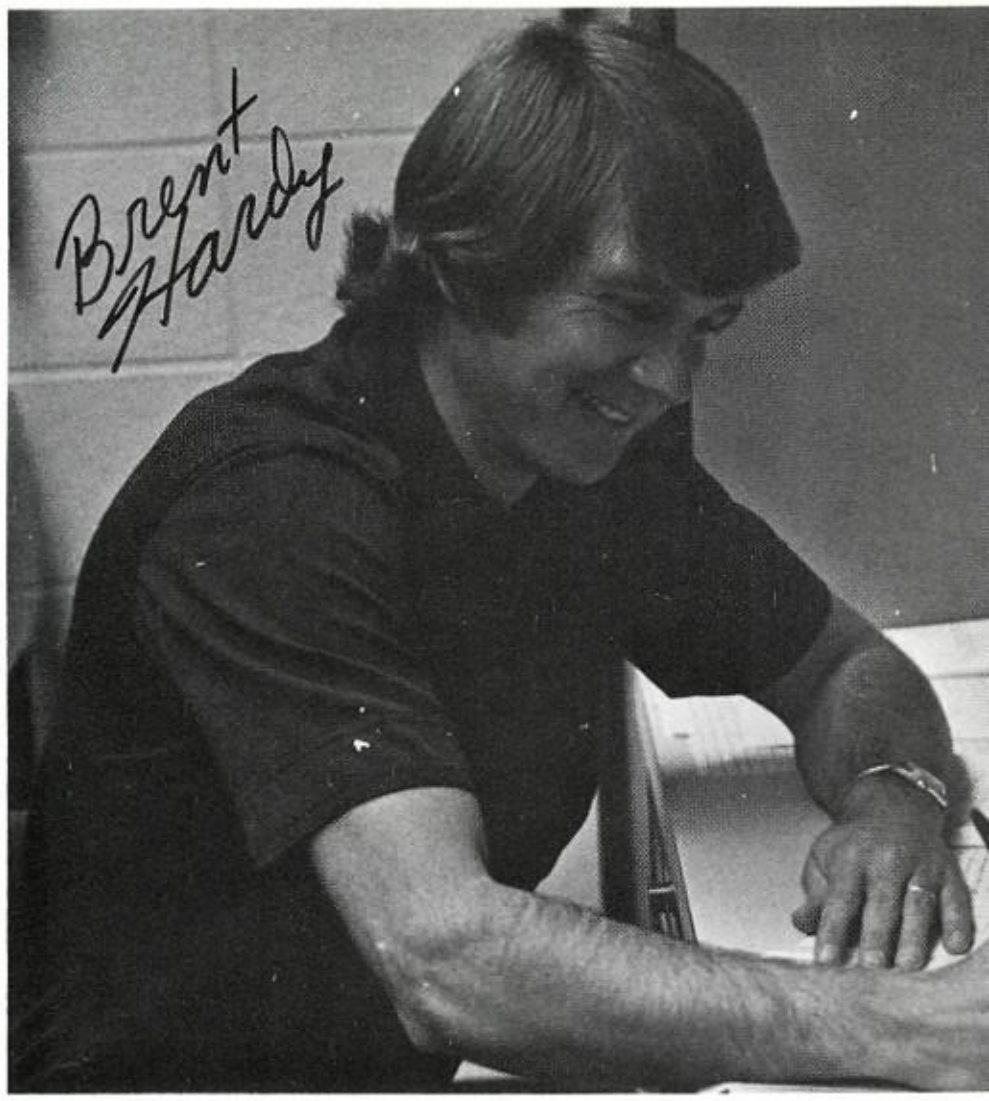


SCIENCE AND ENVIRONMENTAL STUDIES

Science at Rocky Mountain serves two basic functions. It, first of all, provides students with a method of problem-solving that is functional in all walks of life. It is a method of knowing, a means of becoming well-informed adults, capable of making intelligent decisions throughout their lives.

The second basic function is to provide science career students with a strong background in all areas of science. These basics, coupled with future work, make possible the knowledge and technology on which the future of man depends.





MATHEMATICS

MATHEMATICS AND COMPUTER SCIENCE

The Department of Mathematics and Computer Science welcomes all students to a stimulating educational experience. The philosophy of the Department is an extension of and a detailing of the goals and objectives of Rocky Mountain High School. In our everchanging world of today, Mathematics is more than ever providing the basis for fundamental education. Through firm, fair, and friendly teacher discipline, we teach students to become responsible and respectable citizens of tomorrow.

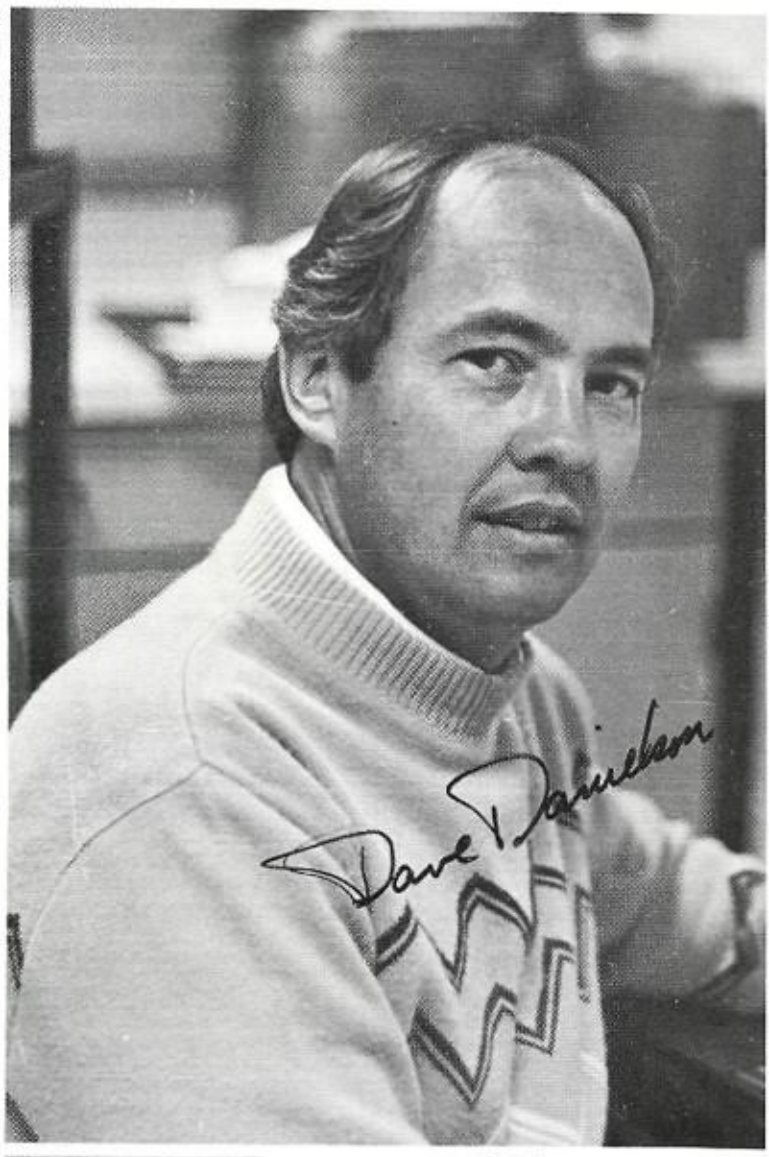
EDUCATION

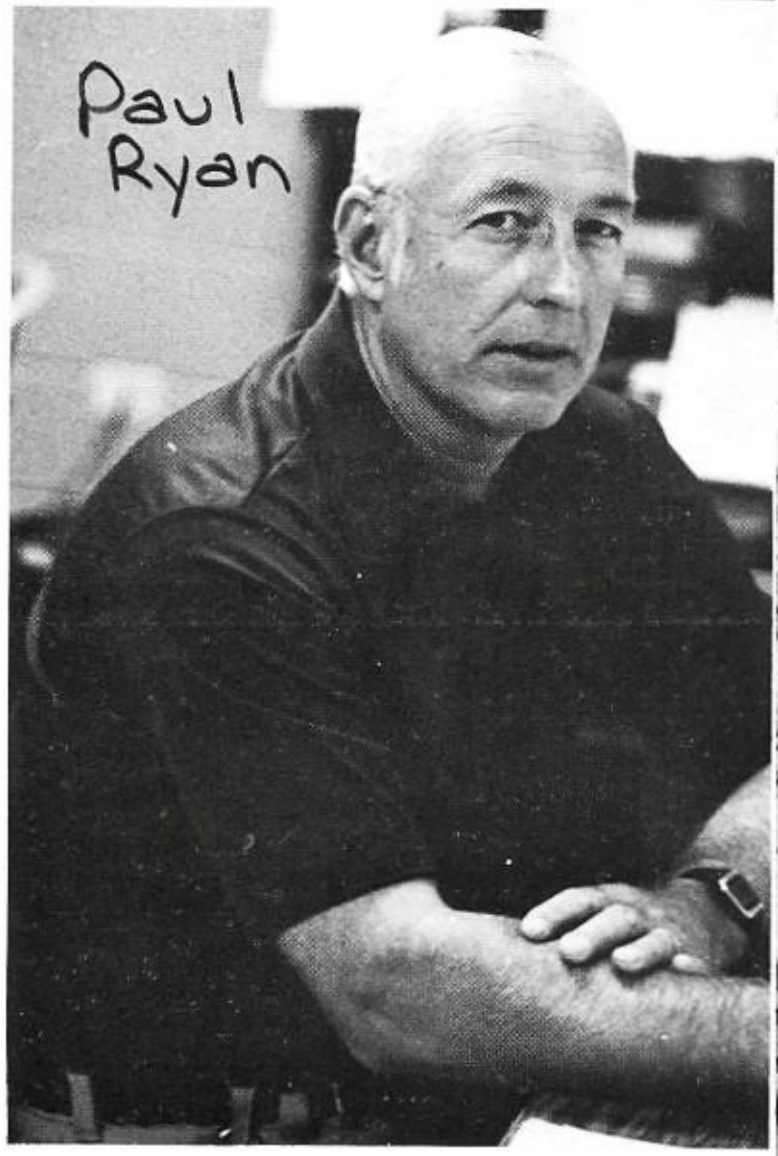
DRIVERS



DRIVER EDUCATION

Our department's role in education is the intelligent operation of a motor vehicle. Driver Education strives to produce the knowledge, attitudes and practices so that our youth will become responsible and educated drivers.

Highway and driving safety is important to all citizens--young and old. We feel it is our responsibility to prepare the youth of our city to enter the highway transportation system as safe, responsible drivers.



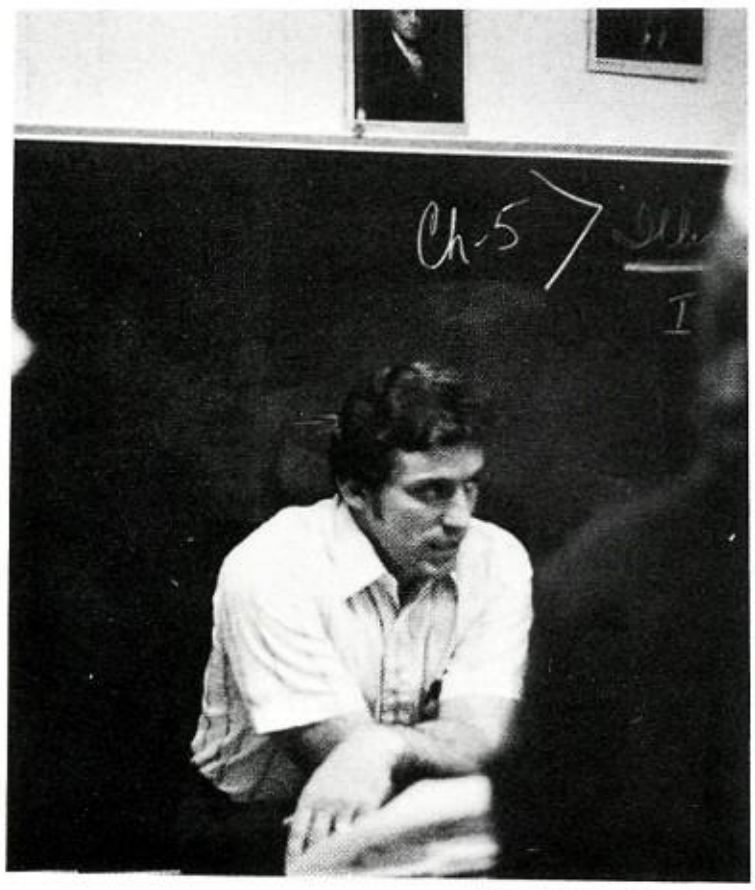
HOME ECONOMICS

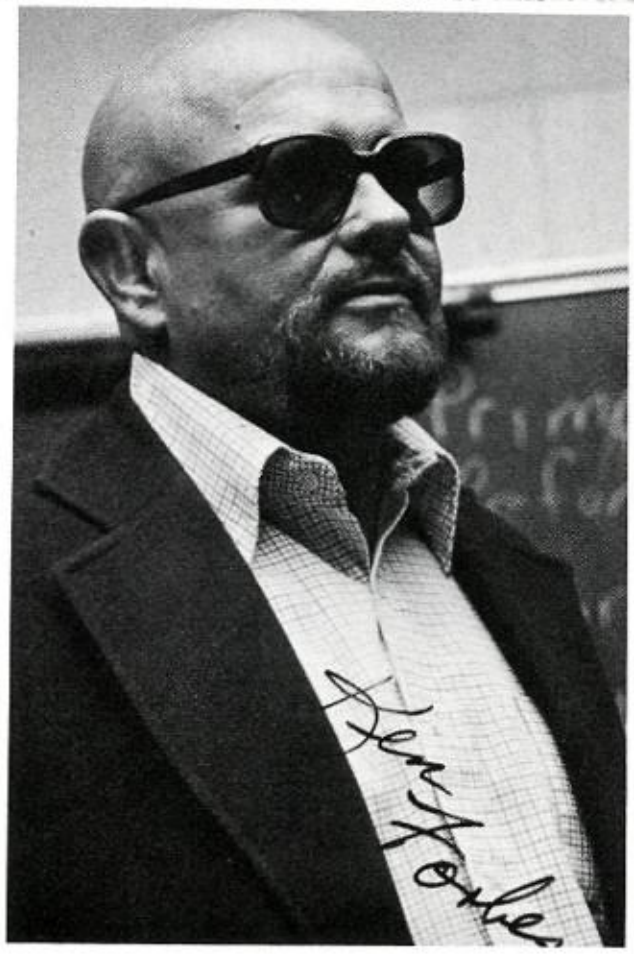
Students come to the Home Economics Department to learn life skills, vocational skills, and leisure time activities. They can learn much about themselves as they learn parenting skills, lifestyles, housing styles, nutrition, personal relations and their spending and earning power as a consumer.

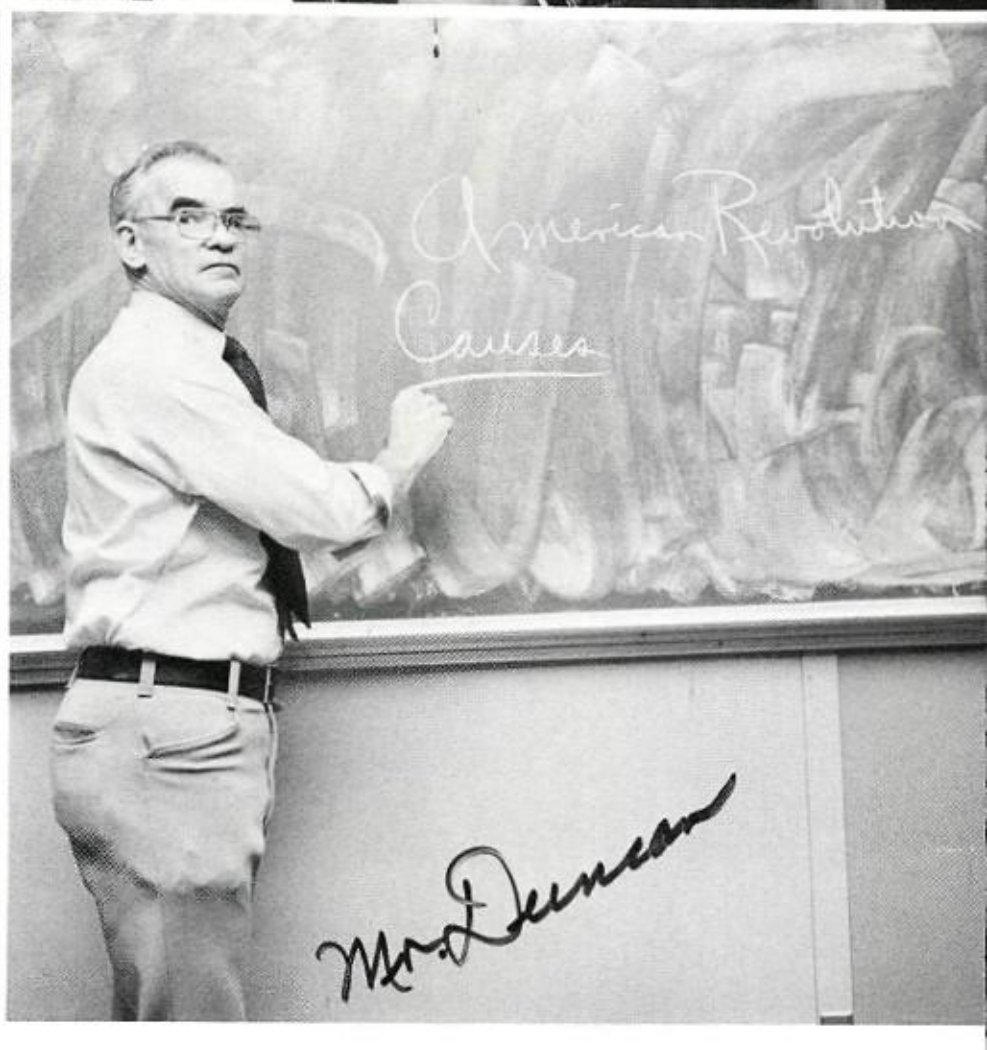
Home Economics brings together so much that is learned in many other classes and applies that variety of knowledge to real life situations.

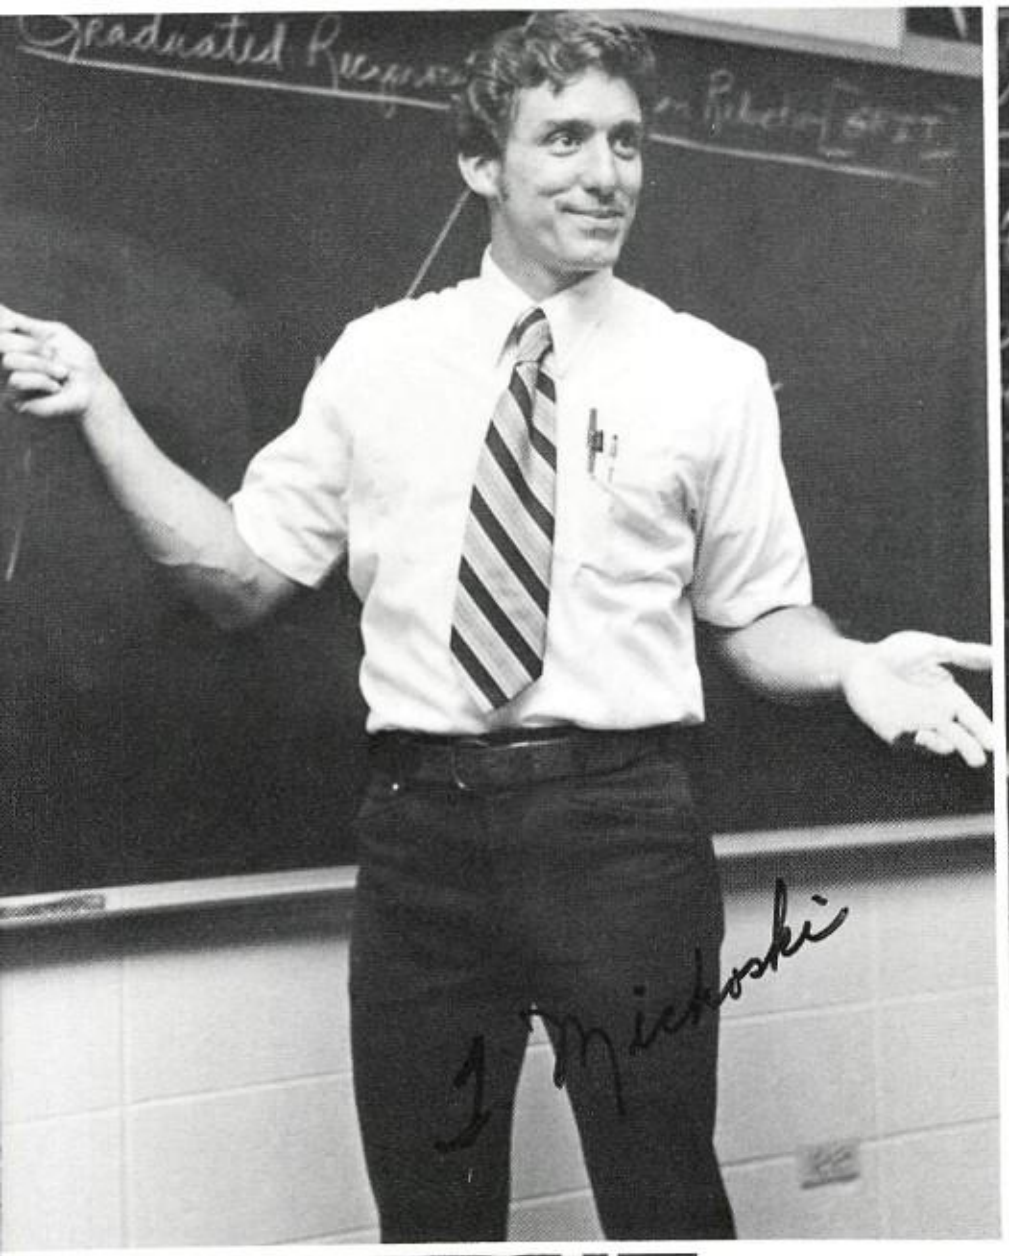
HOME ECONOMICS

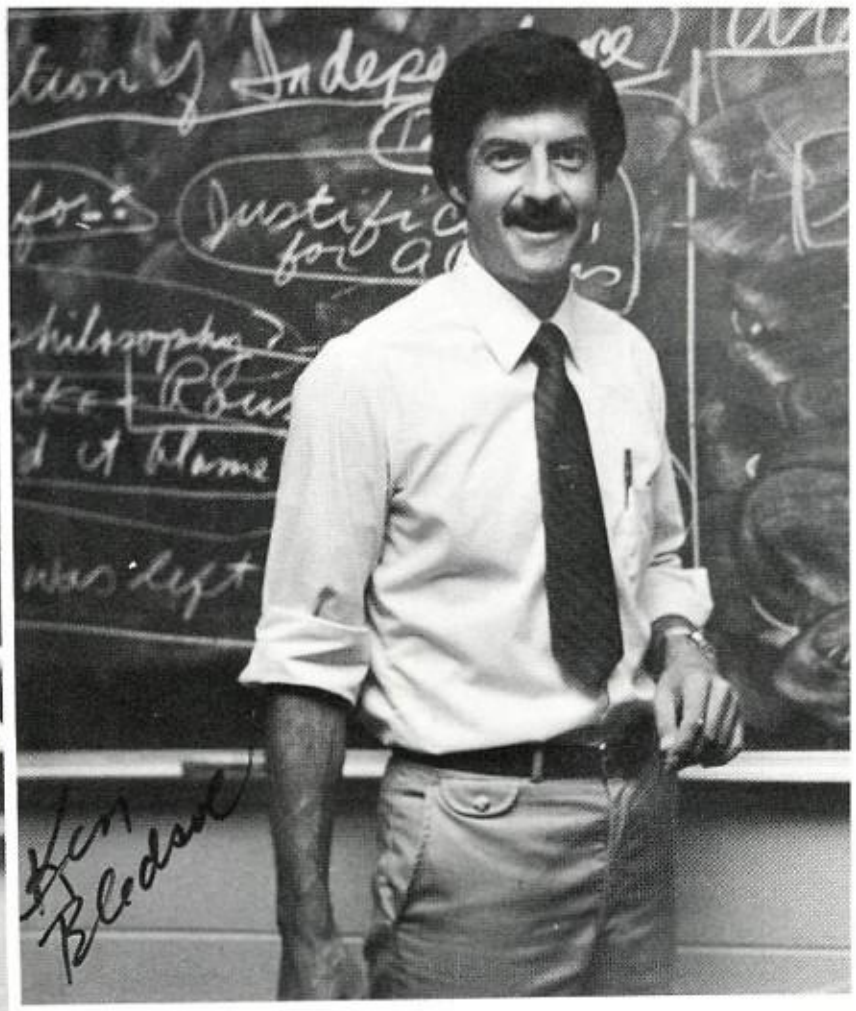
SOCIAL STUDIES

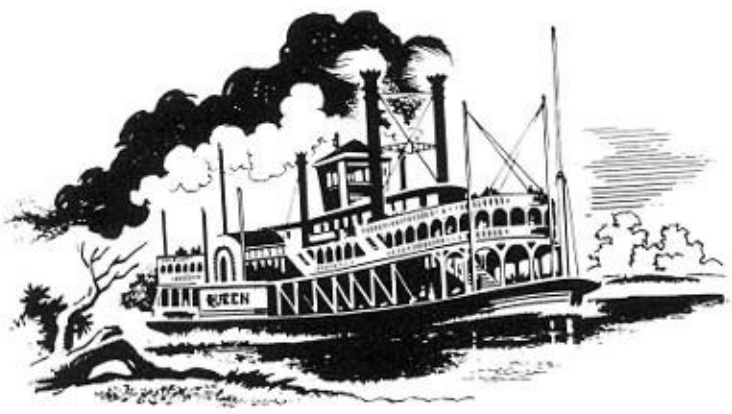






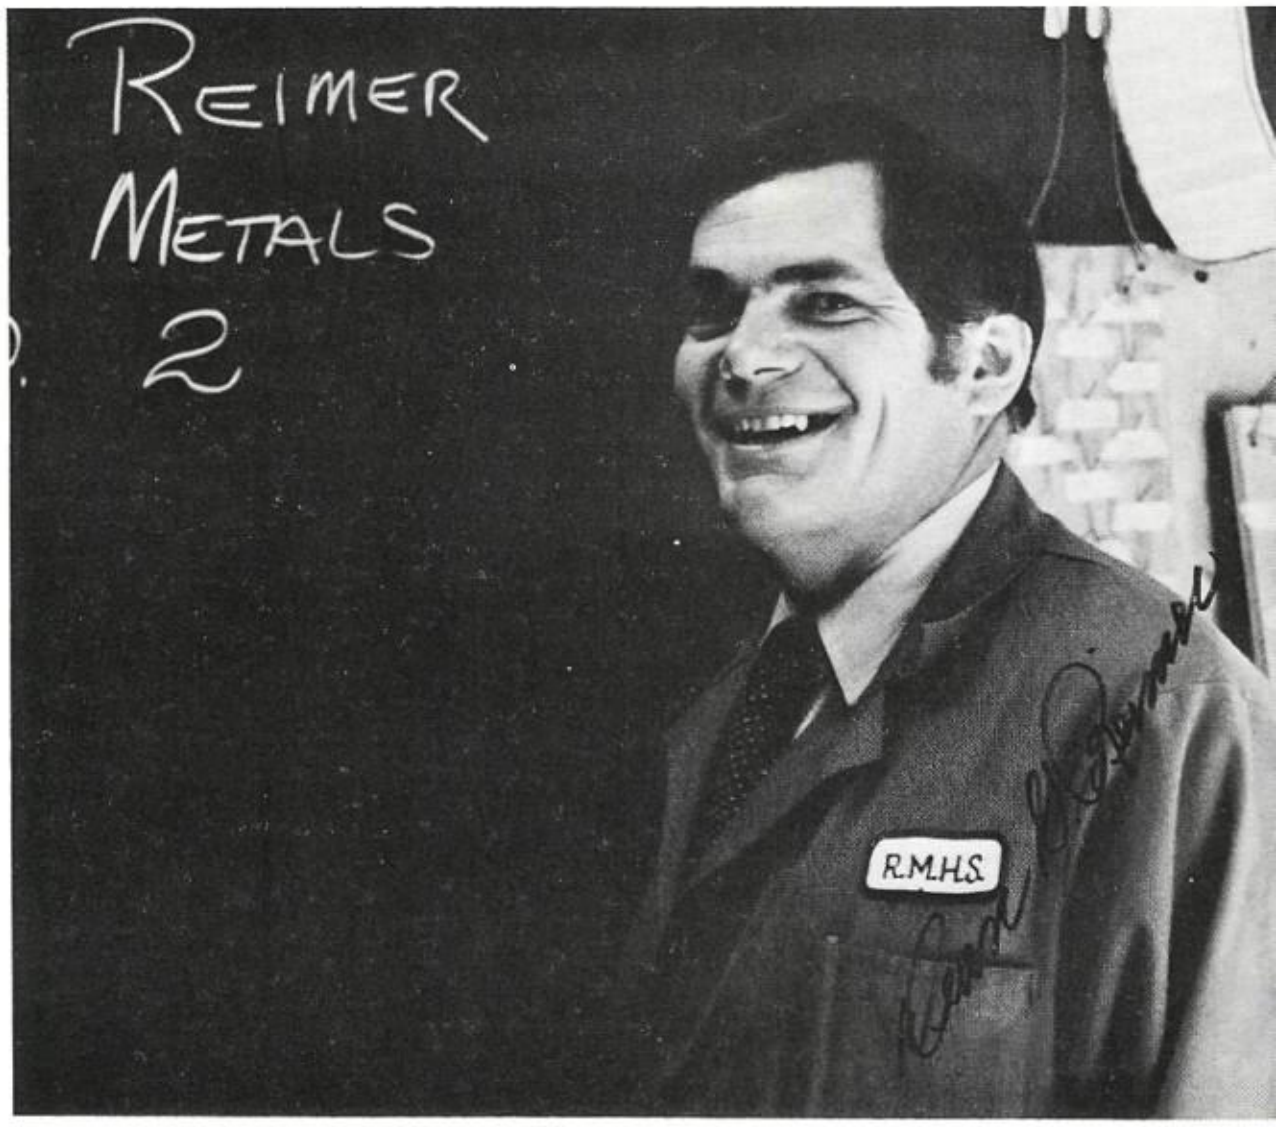


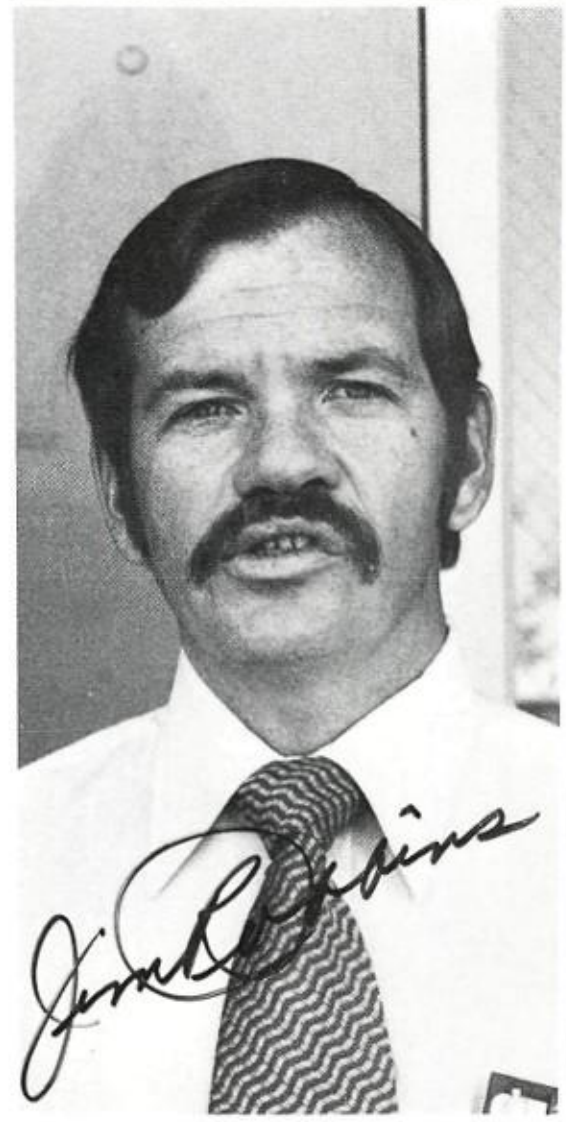


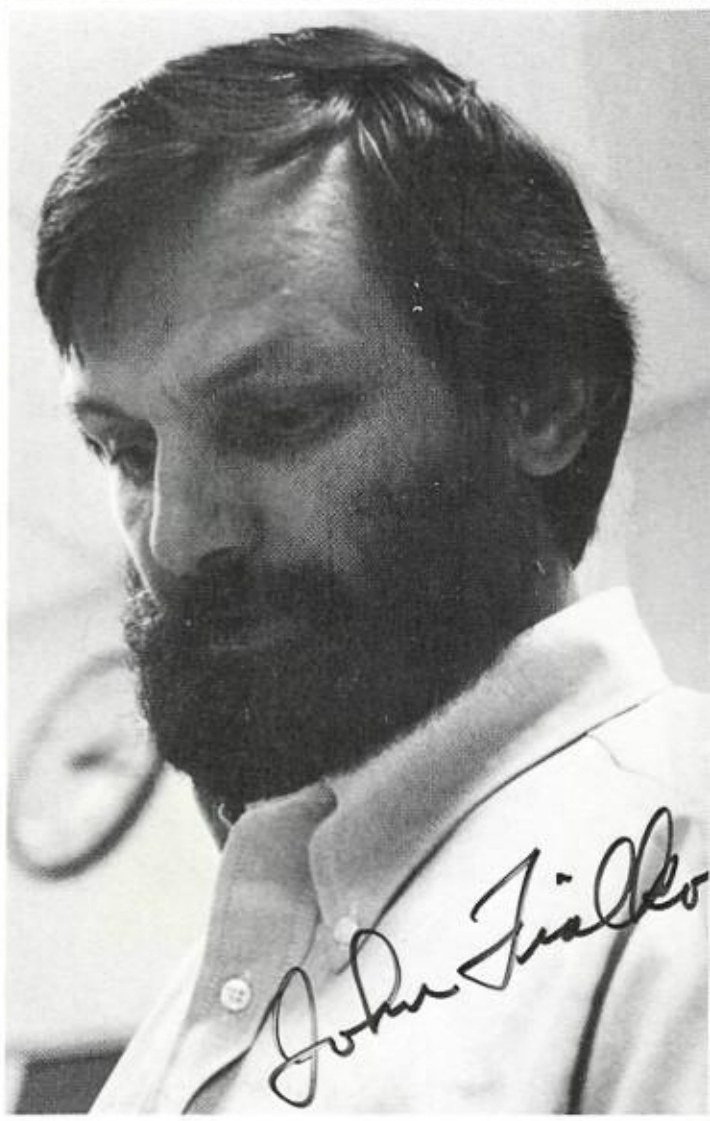


SOCIAL STUDIES

A democratic society requires intelligent action on the part of its citizens. The Social Studies Department promotes intelligent decision-making through an awareness of human potential and limitations. In this sense we hope to contribute to social stability and orderly change. Specifically, our goal is to confront students with ever-changing ideas and concepts that will help them to shape a more favorable future. To aid them in this endeavor, we believe students must develop essential communication skills and the capacity for analysis and problem-solving. Our hope is that in the end we will play some small part in shaping self-confident and responsible citizens who feel that problems can be solved, that wrongs can be righted, and most of all, that they personally can participate and influence the direction of society.





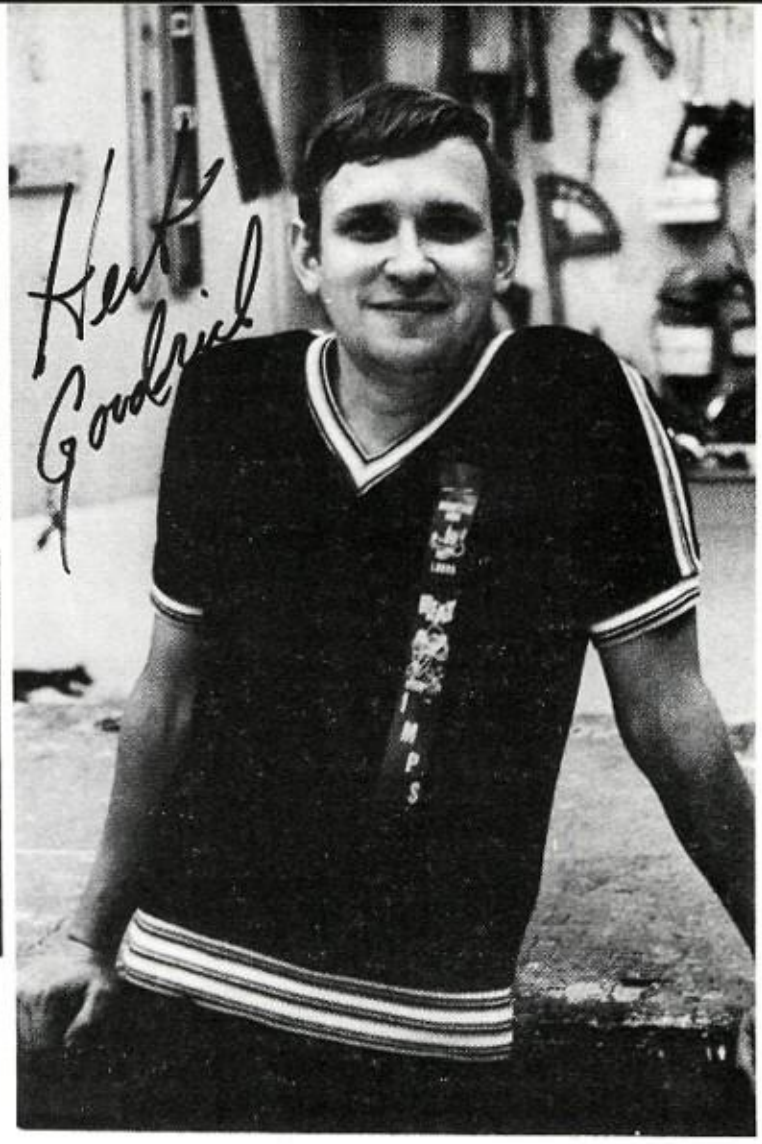


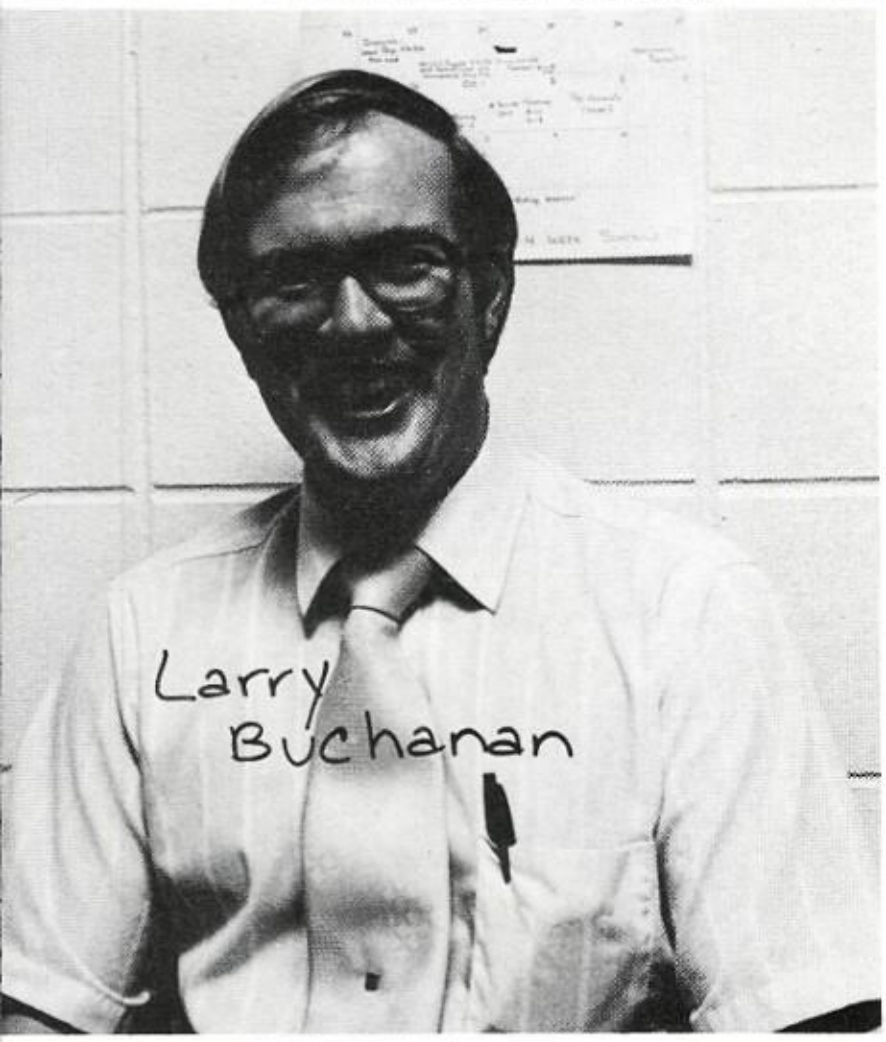
INDUSTRIAL ARTS

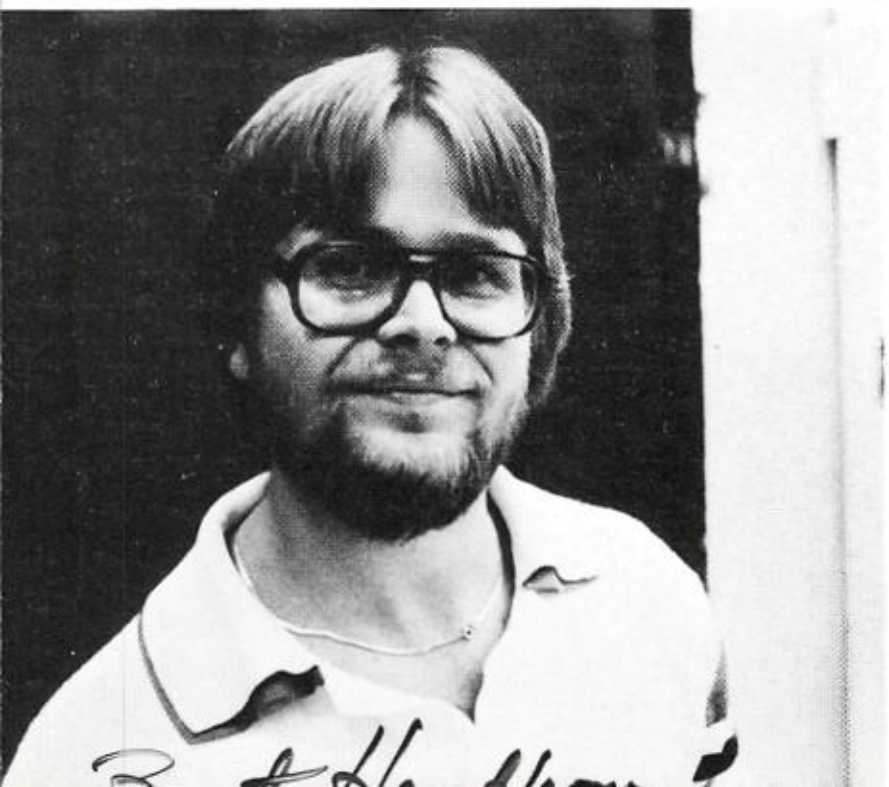
The Rocky Mountain High School Industrial Arts Department is committed to providing the best possible program for each individual student.

The program prepares students to go into the following fields: engineering, architecture, alternative energy sources, drafting, carpentry, teacher of Industrial Arts or Vocational Education, welding, machinist, mechanics, and learning a skill which will be used some time in one's leisure time.

INDUSTRIAL ARTS



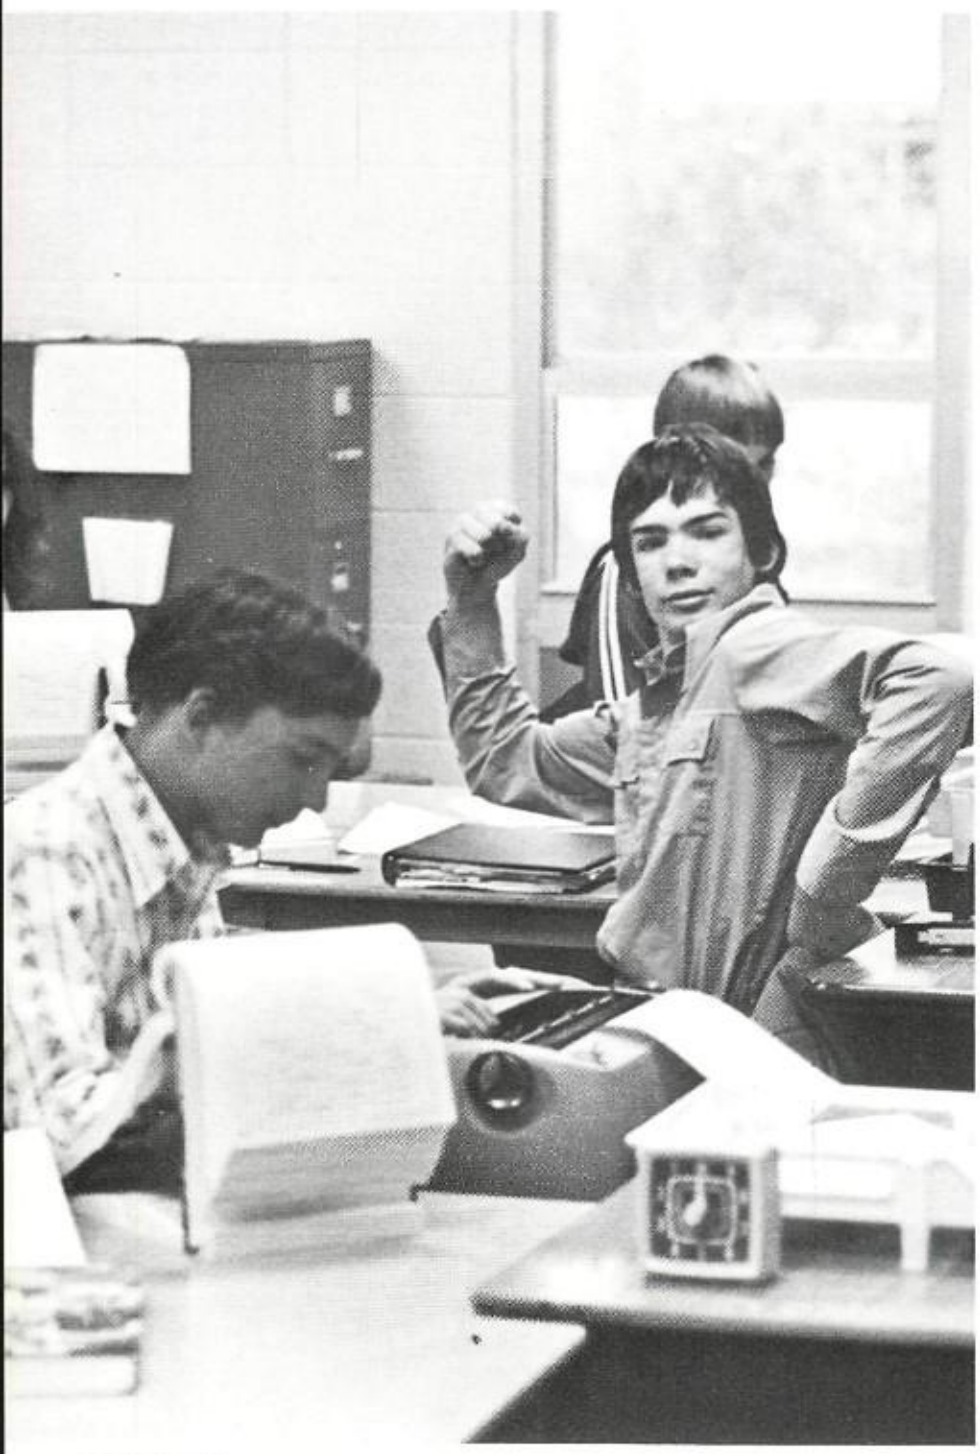




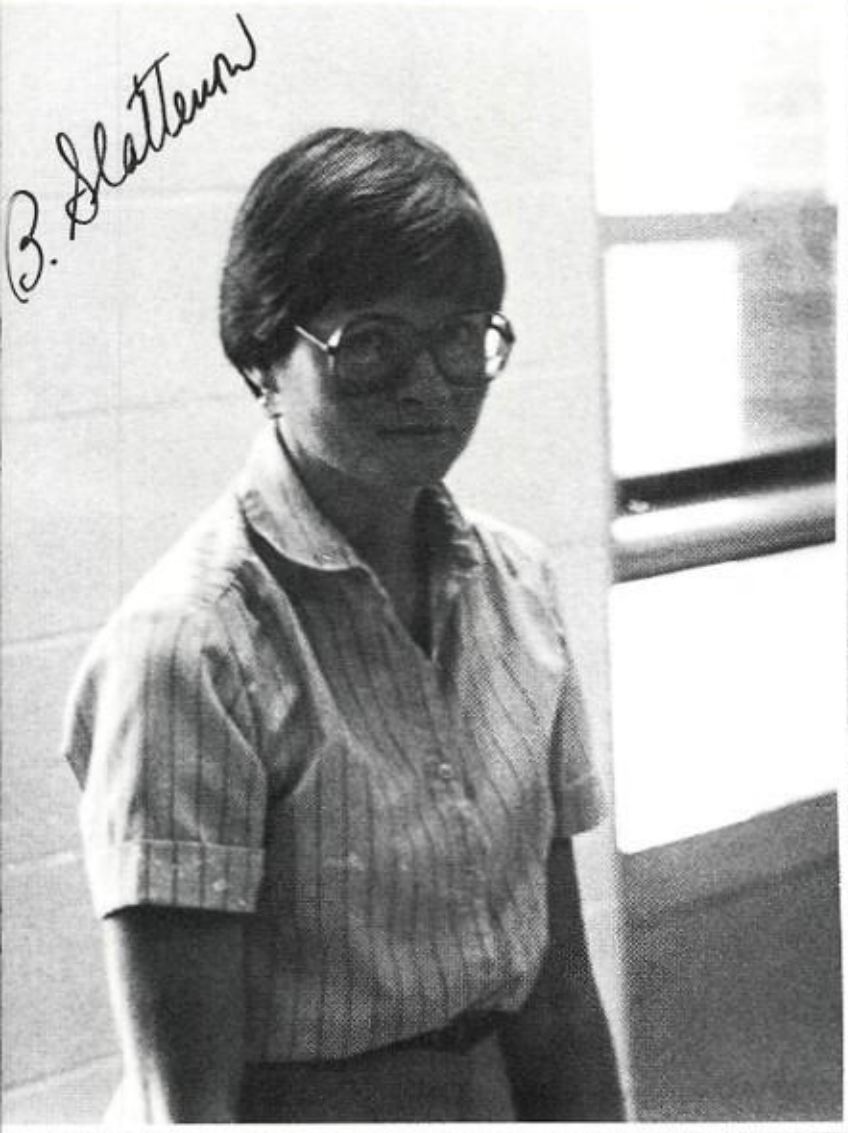
PERFORMING ARTS

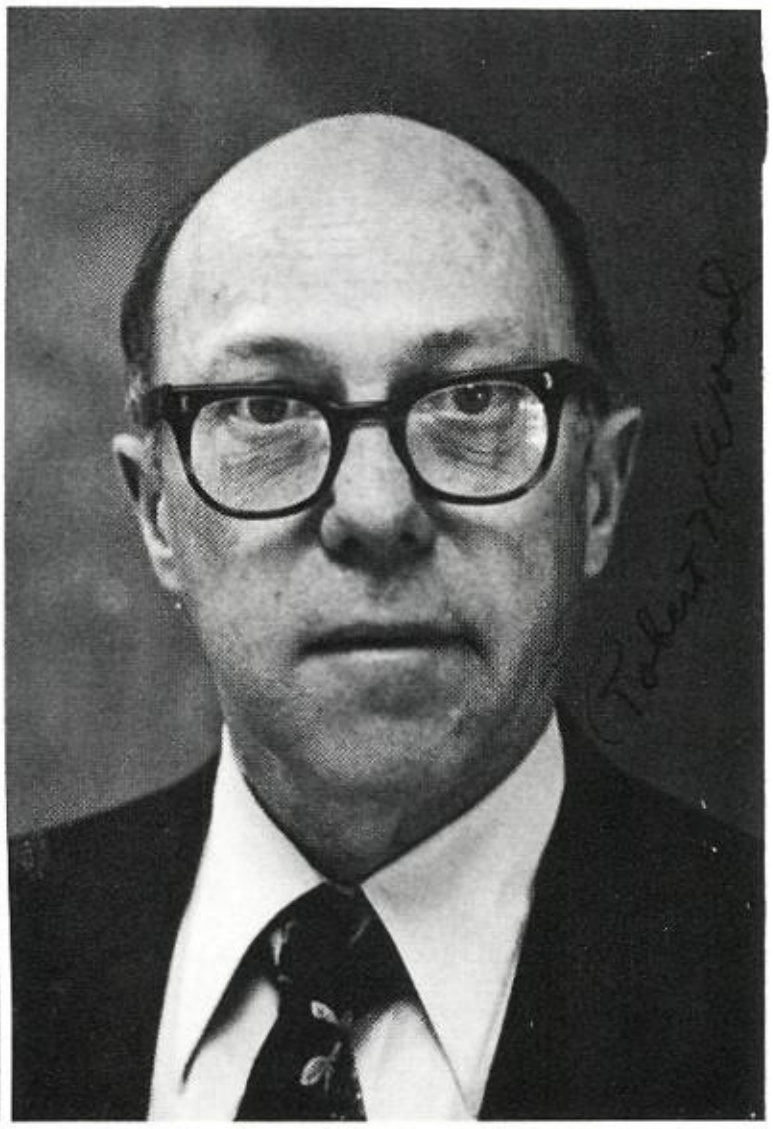
PERFORMING ARTS

The Performing Arts students and staff are proud to serve Rocky Mountain High with excellence that is recognized throughout the community, conference, and state. Performing Arts musicians and players from the dramatic stage entertain, create, and compete to further elevate the status of arts education in our society while producing future artists and consumers of the arts. Rocky can be proud of the accomplishments attained by this segment of the 'People Place'.



BUSINESS

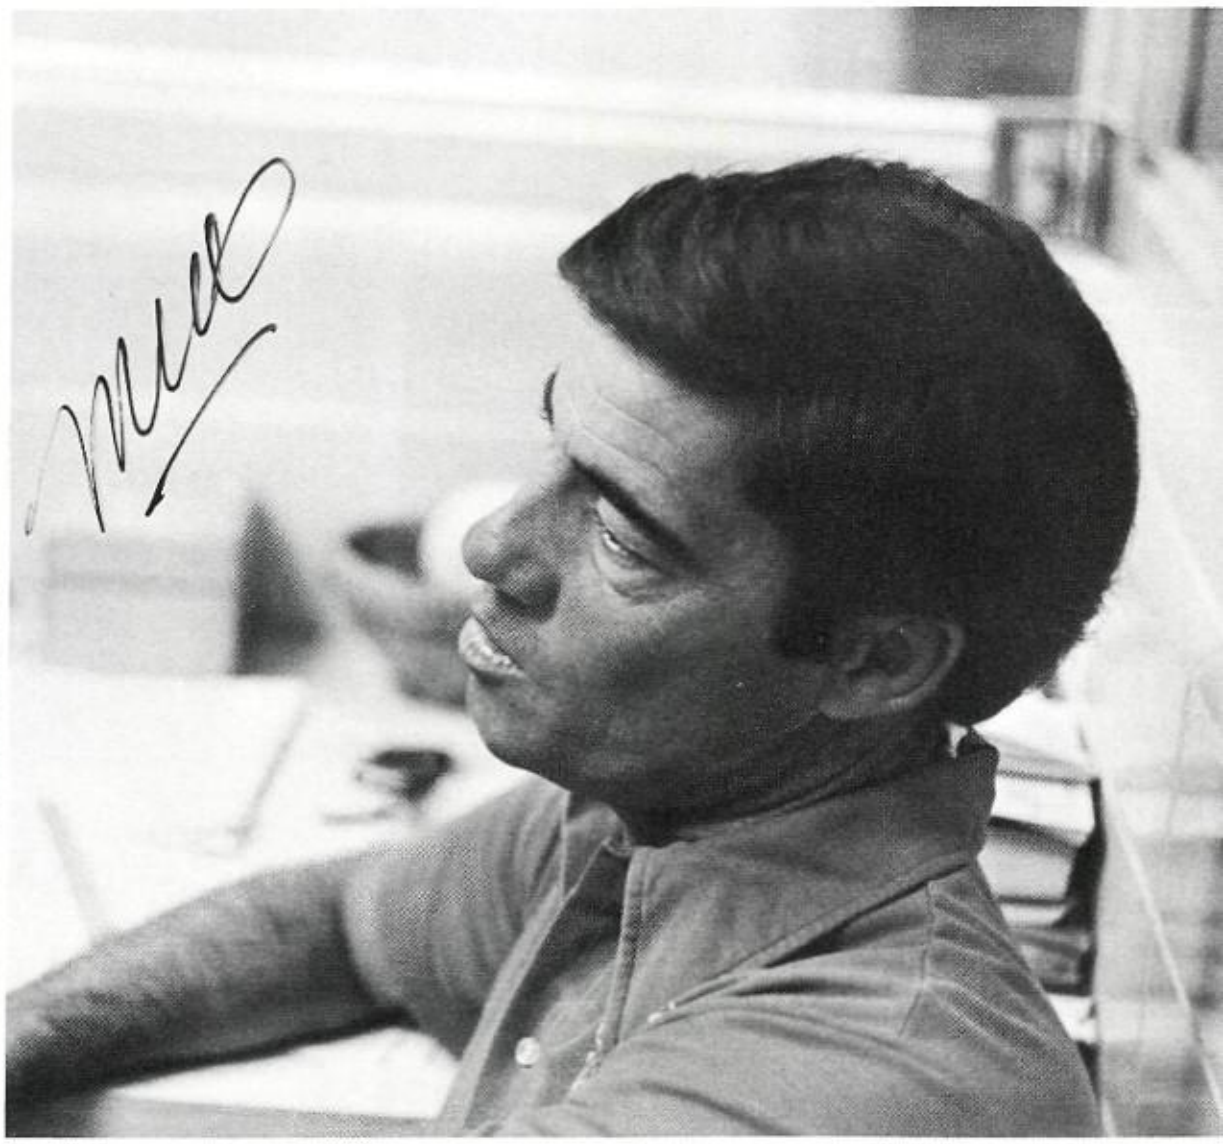


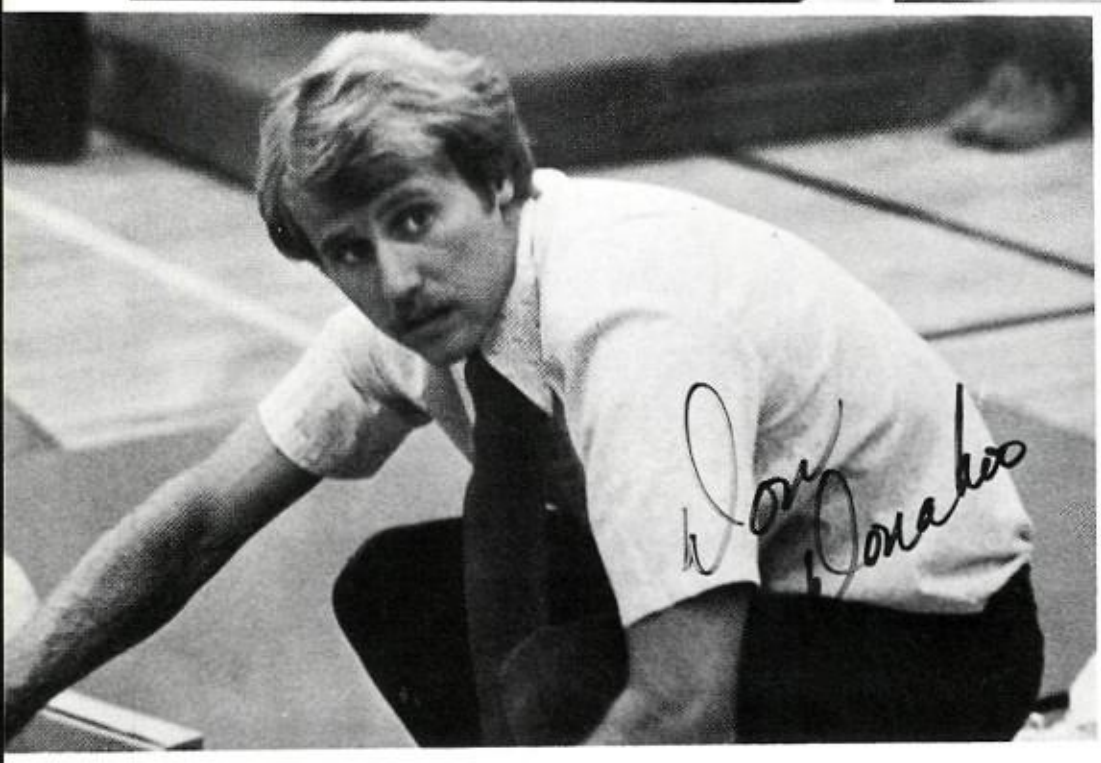


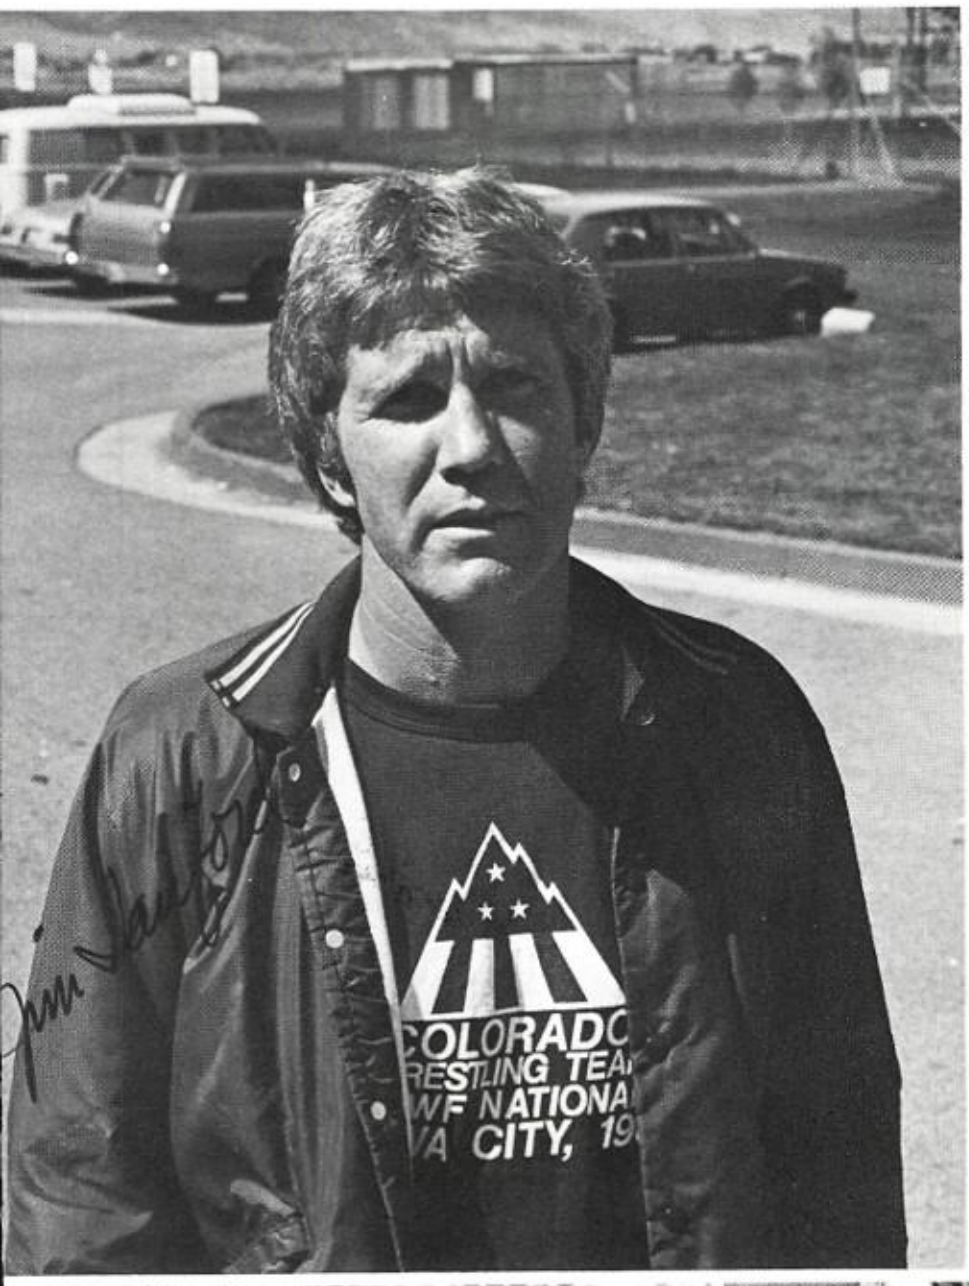
BUSINESS AND OFFICE

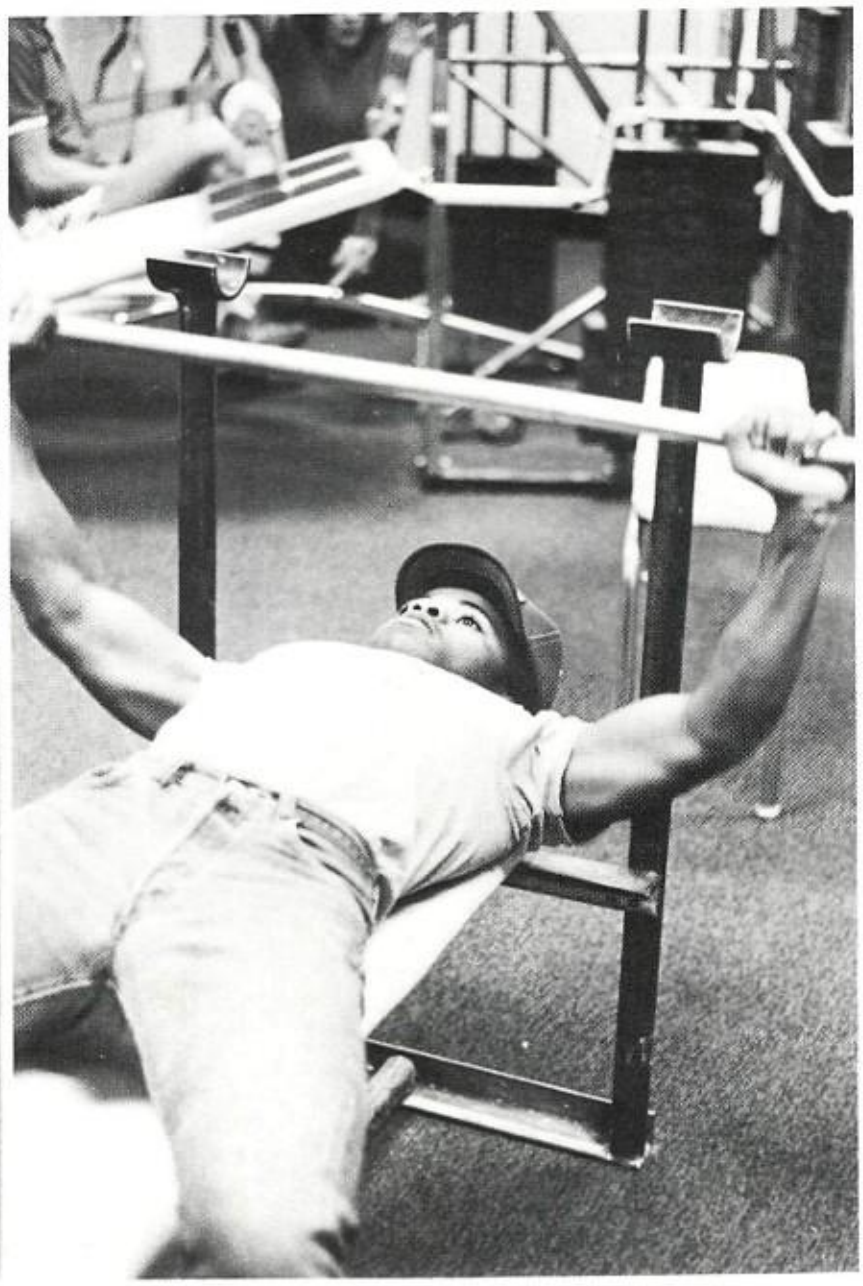
The goal of the Business and Office Department is to provide entry-level skill training and personal development for those students who have chosen a business and office career and to provide service classes for the general school population.

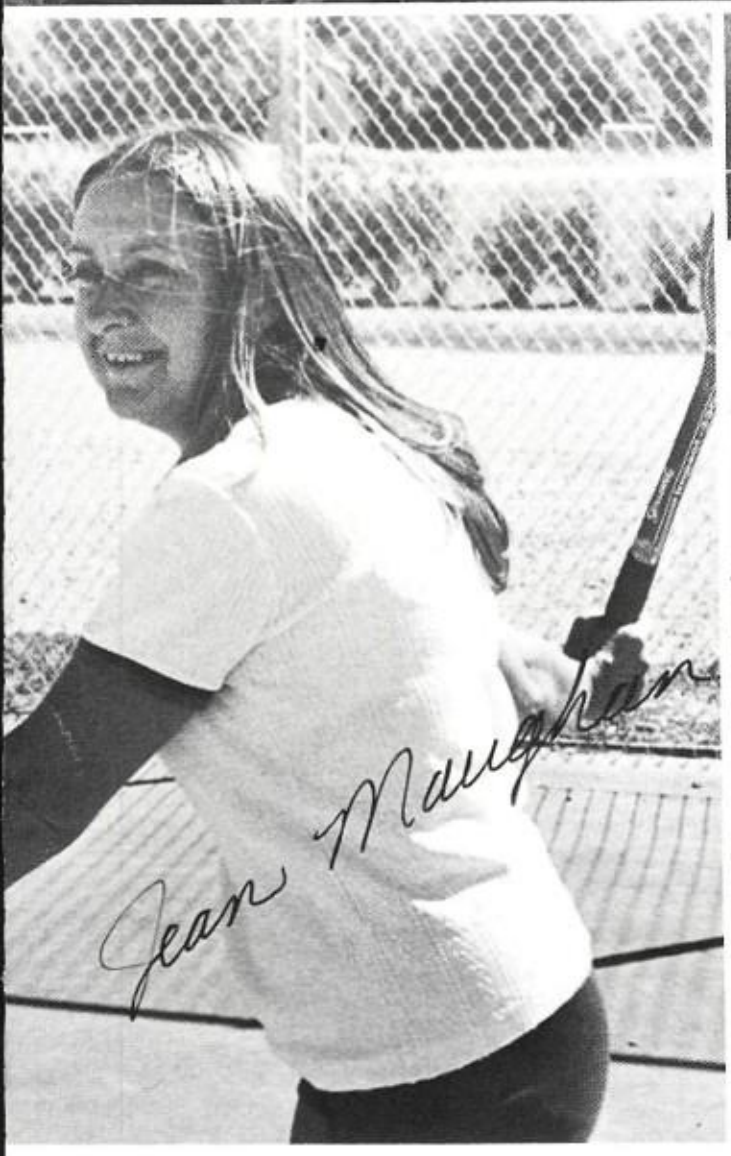
PHYSICAL ED











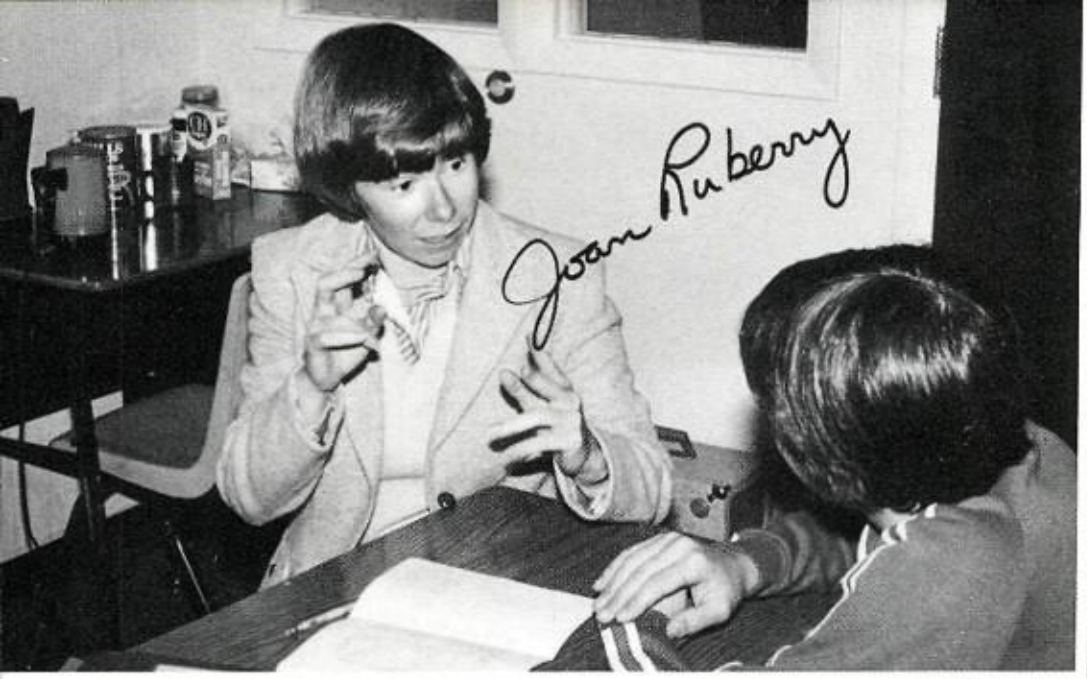
PHYSICAL EDUCATION

The P.E. Department is designed to allow students to participate in many activities. While a minimum of ten hours of physical education is required of all students in grades 10, 11, 12. The program allows the students to be selective in many activities throughout their three years at R.M.H.S. All the courses are open to both boys and girls except the highly competitive and combative.

CUSTODIAL STAFF

Gertie + Kitchen Staff

KITCHEN STAFF



RESOURCE PROGRAM

The Resource Program recognizes there are vast differences between people. And, with this understanding, there is a realization that no one method of providing services is adequate or suitable for all students. As a result, the Resource Program will provide options for students with special needs. Students are encouraged to work on their academics in small groups or individually during the day, fulfilling a prescribed course of study in order to receive a high school diploma. The Resource Program will provide work experience in addition to academic experience combining classroom instruction and actual work experiences. While on the job, students receive credit hours and are graded according to established standards for good performance.

FOOTBALL

"We had a slow start but a strong finish", stated Coach O'Donnell when asked about the football season. Indeed, the first seven games were lost, yet the spirit of the players was always high. For most of the games, the Lobos were within only one touchdown of their opponent. The turning point of the season came when the Lobos celebrated a much deserved victory over Niwot with another win the following week. Then in the final game, the Lobos stomped Skyline as the board lighted up with a 54-14 score. Even though the winning streak came too late in the season, the Lobos proved the overall strength they possessed as a team.

SWIMMING

The girls swim team had an excellent season which submerged into only two losses--the city championship and a second place in conference. Coach Donahoo was enthusiastic with the team's performance and stated, "The girls worked very hard and their times dropped." In the state meet at the Air Force Academy in Colorado Springs, the 400 relay team set a new school record of 4:03:90. The girls will continue to have many proud memories of their success.

"We had a better than average season and did as well as we could," felt Coach Ryan as he talked about the golf season. The Lobos putted away with many second and third place finishes in the twelve matches they participated in. Although the team had some disappointing matches, the Lobos finished eighth in the district and conference meet held in Greeley.

When asked about the girls gymnastic season, Coach Howard expressed, "I think they have done great and I couldn't be prouder of a team. The performance and attitude of each girl improved throughout the season." Obviously, the girls improved as they tumbled their way into thirteen wins and only eight losses. In the conference meet, the Lobos placed fifth while two girls, Kelly Webb and Sandy Moore, qualified for the state meet.

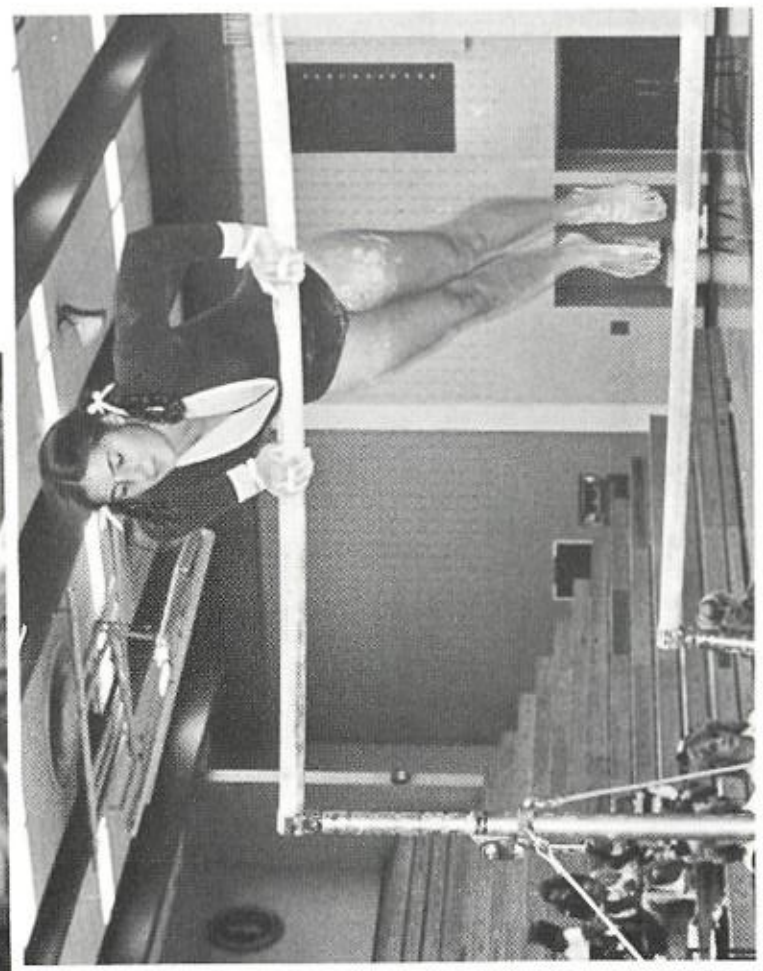
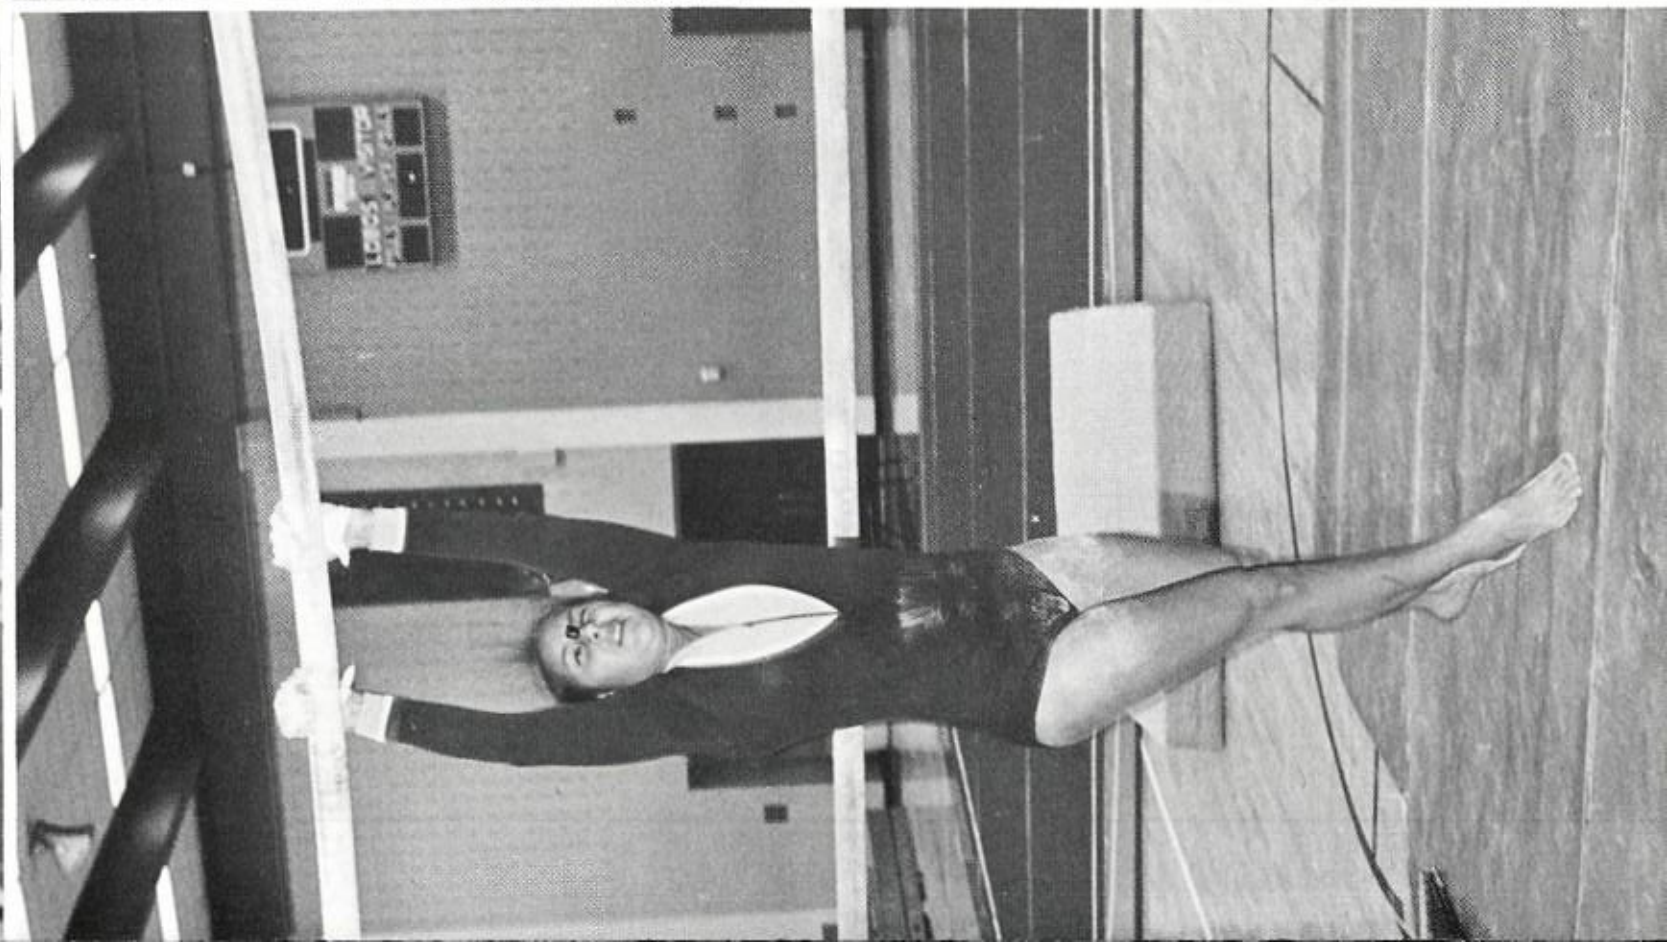
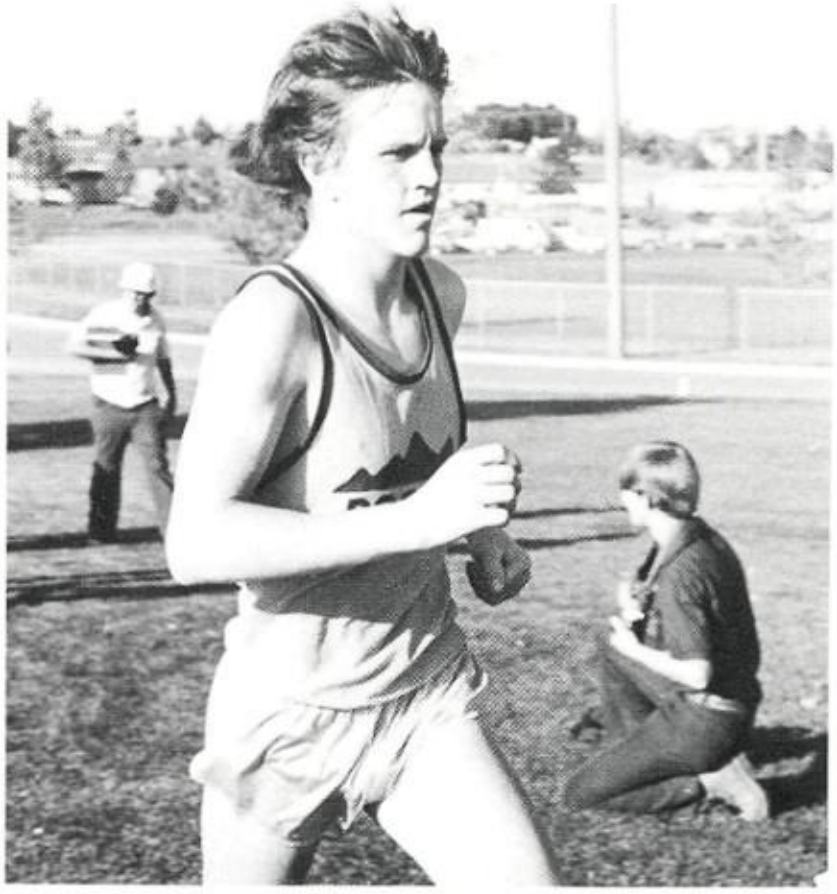
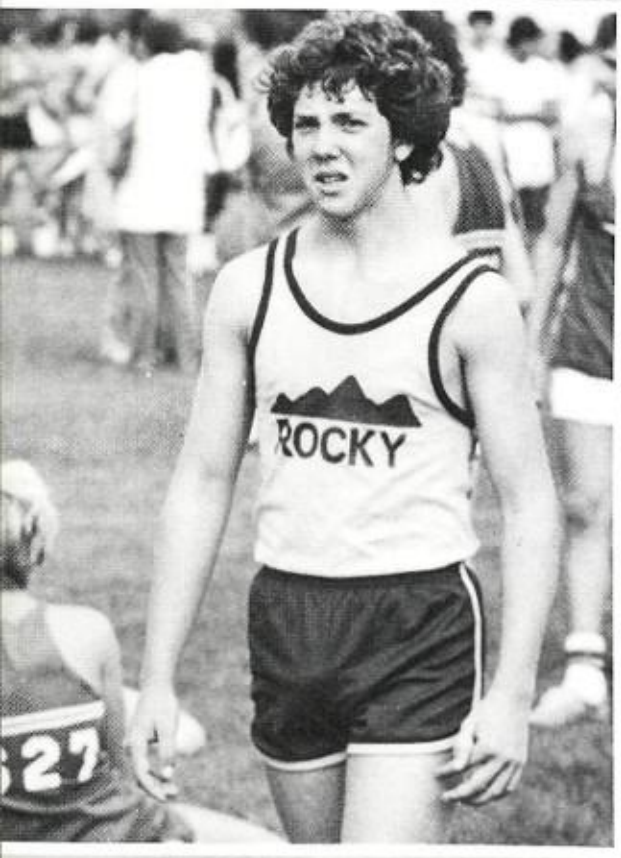
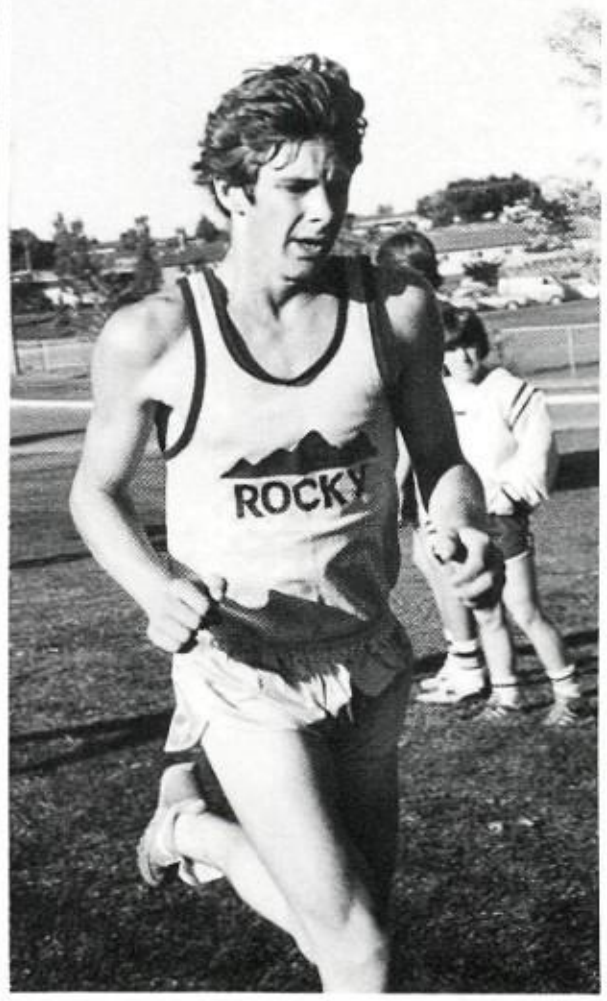
GIRLS GYMNASTICS











ALL CONFERENCE: TROY MONTGOMERY

"What can I say? They were fantastic... great!" remarked Coach Alm about the Boys 1980 Cross Country Season. The Lobo Cross Country Team proved to be very strong this season as the boys ran their way to a 2nd place finish in conference this year, qualifying them for the state finals. They showed a tremendous amount of depth, and consistently ran strong throughout the season. Many of the boys will be returning next year. Rocky Mountain should be very proud of their Boys Cross Country Team. They have worked very hard and had an excellent season.

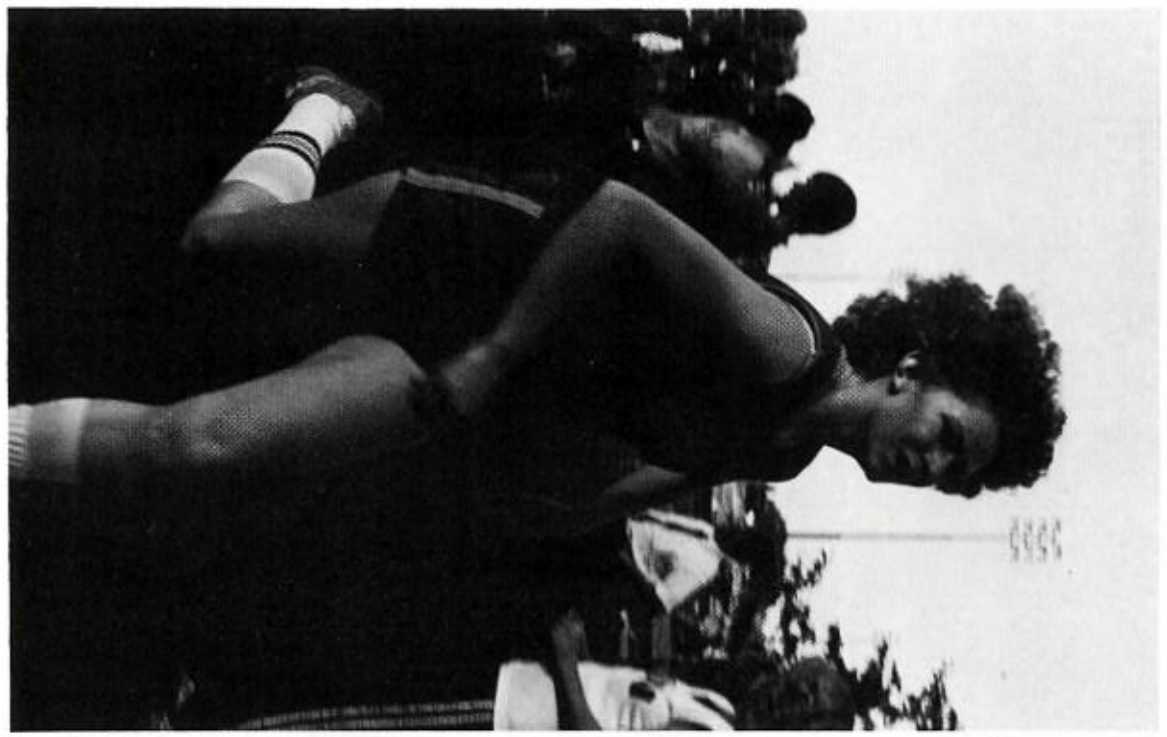
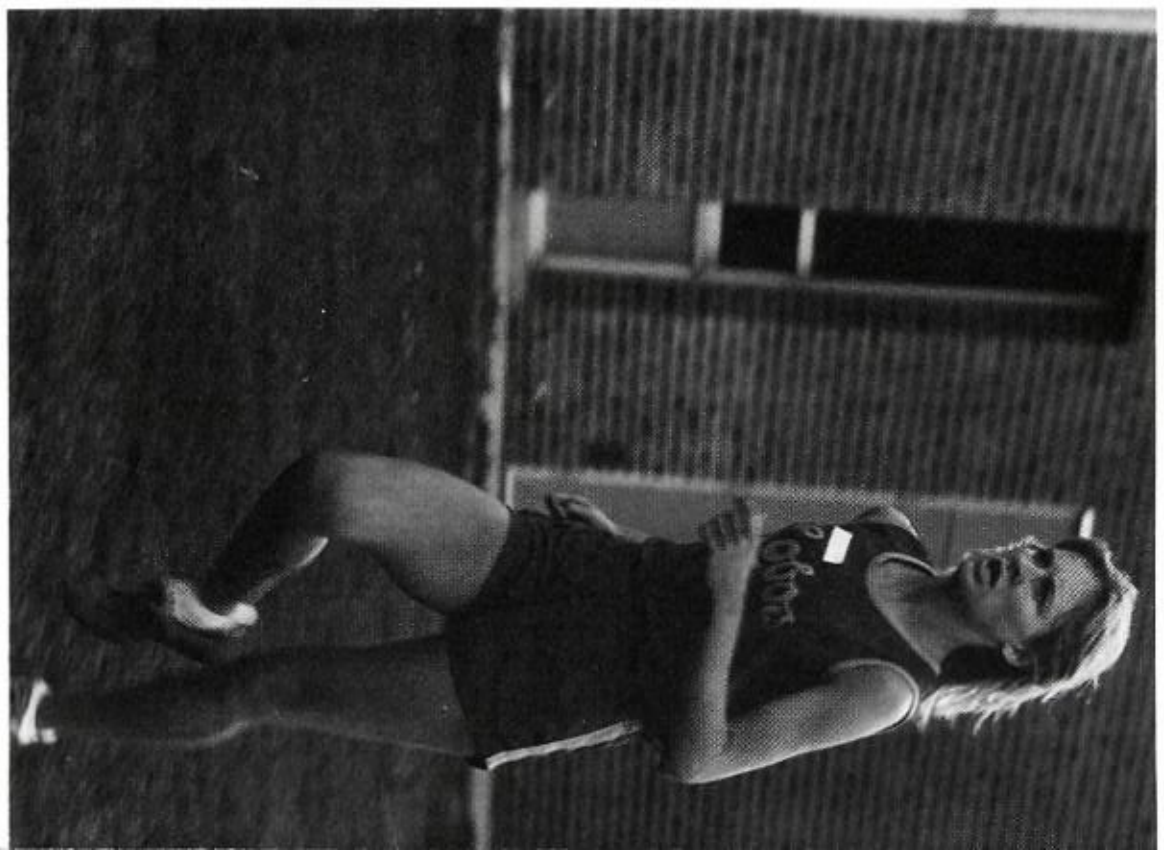
GIRLS CROSS COUNTRY





GIRLS CROSS COUNTRY

With only two returning letterwinners, and very few girls out for Cross Country, the beginning of the season did not look promising for the Lobos. However, as the season progressed, the girls' team came on strong and surprised many other conference teams by beating them badly. Coach Alm felt that "...the girls had accomplished a lot and ran really well." He also commented that he was very satisfied with the season overall. Battling injuries and illness, the girls placed 5th in conference and just missed qualifying for state. Anyway, the girls still did a super job and they all deserve recognition for the overall season.

TENNIS

The Boys Tennis Team swung into action by overpowering their opponents in two games early in the season. Unfortunately, there were only a couple more wins the remainder of the season. Yet, as Coach Danielson stated, "All of these boys can be proud of their individual effort". Even though the Lobos had a "so-so" year, the team finished eighth in the league.

"Fantastic" is the only word to describe the Girls Volleyball Team. Their tremendous record of 10-1, which put them in first place in Northern Conference, proves it. Coach Uhls enthusiastically commented, "The 1980 Championship Volleyball Team prided itself on a tough offense to a quick and aggressive defense." The Lobos traveled to Colorado Springs to play in the first game of the State Tournament and bumped their way to a victory over Denver South. Unfortunately, the win was the only one in the state meet, yet the team finished a remarkable seventh place in state.

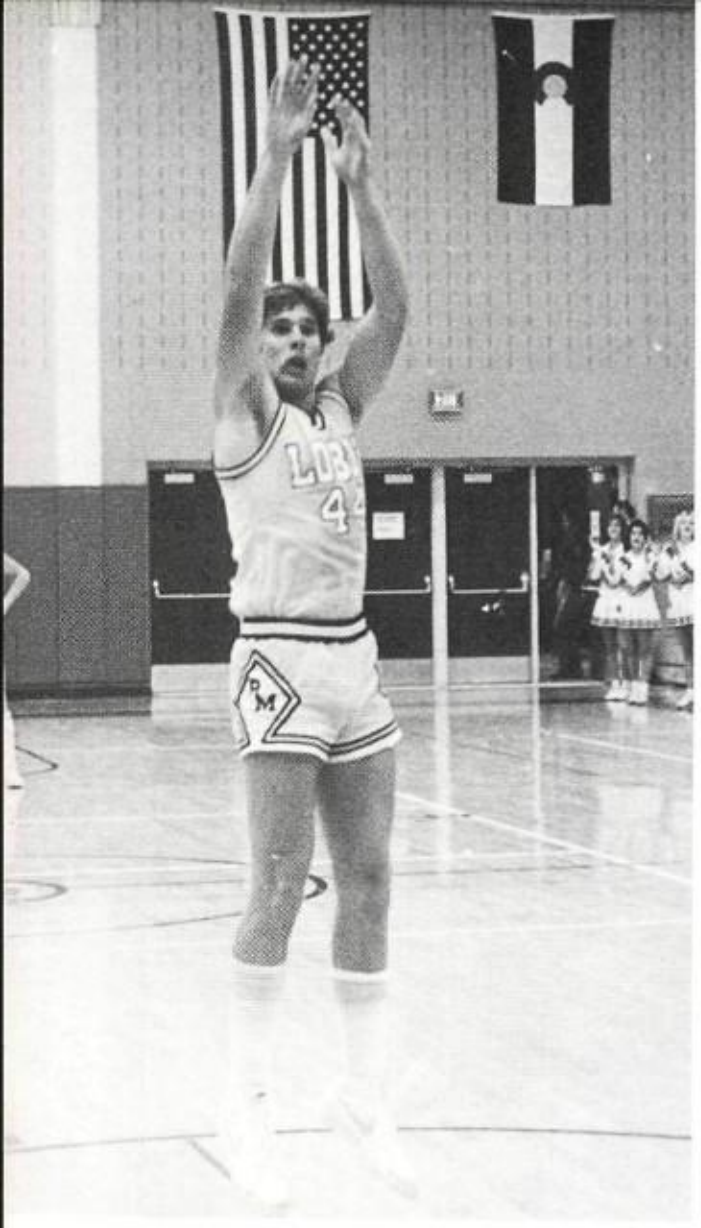
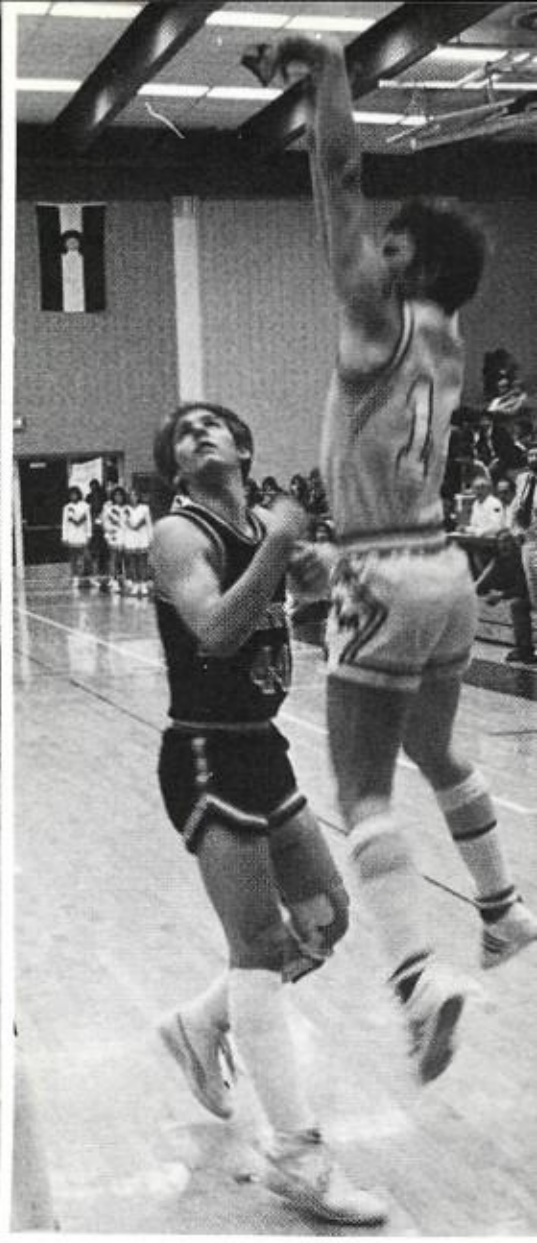
The boys' swim team had a very impressive season. Not only did the team have the most consecutive wins (24 to be exact) of the school but also broke 8 of 11 school records and won 93 out of 99 events. The work and effort the boys put into their daily practices obviously paid off as they skillfully glided their way to Northern Conference Champions with a 9-0 record. Coach Donahoo commented, "The season overall was excellent, not only teamwise but personal wise. The boys supported and inspired each other a lot." In the district meet, the Lobos placed 2nd and qualified seven swimmers and two divers for state.





BOYS BASKETBALL

Due to a frustrating start, everyone held their breath as the boys basketball team played their first league game against Fort Morgan. That game proved to be the turning point of the season as the Lobos won the league opener plus winning seven more games thereafter. The team was within one win of the school record of consecutive wins. Despite being hampered by injuries and some inexperienced players, the Lobos lost only three games with a very disappointing 56-55 loss to Longmont. The hard-working Lobos rebounded the previous week's loss by ending the league season with an effortless win over Skyline which gave our team a 8-3 record and third place tie with Longmont in Northern Conference. Coaching the Lobos for his first year, Coach Stevens enthusiastically commented, "I'm real proud of the team. We've come a long way and have shown great improvement. I feel they gave support for each other and gave an all-out effort in each game."

WRESTLING

Wrestling consists of individual victories more so than team victories which explains why a wrestler goes through the agonies of running and drilling at practices and sweating and starving to maintain his weight. The idea of winning on his own is well worth the grueling steps to get there. When asked about the Lobo wrestling team Coach Sanford stated, "We had a better tournament team than dual and more stronger individuals than in past years." The Lobos placed second in the Highland Tournament and won the Ranum and Thornton Tournaments. It should be noted that very few teams outside of Ranum ever win. In the district meet, the Lobos placed fourth and sent Matt Koehnke (105), Phil Koehnke (138), and Tyler Firkins (145) to state. Unfortunately, Matt Koehnke was ousted in the first round, but his brother, Phil, placed fifth and Firkins placed an impressive second. When asked how he felt about the state tournament, Firkins commented, "I knew I had first or second after semis, but I also knew what I was up against in finals wrestling Duane Goldman, who is considered the state's best wrestler. I feel that Coach Sanford has been the biggest help of my wrestling career." Coach Sanford summed up the wrestling season by saying, "The team had several individuals who improved greatly by working and really deserved the success they received. I'm proud of the team as a whole and of each individual."

"They have maintained the trade of excellence!" exclaimed Coach Lloyd for the girls basketball team. Her words could never be truer as the defending conference champs shot to another Northern Conference Championship with an outstanding league record of 11-0. The Lobos rarely faltered in any of the games, and once they pulled ahead of their opponent's score, maintained the lead throughout the remainder of the game. With the quickness and determination they possessed, the Lobos proved they could challenge any team as they defeated 2nd place Greeley Central, 51-48, even though their starting lineup boasted a height of 5'10" to 6'2" against the Lobos tallest player at 5'9". Always ready to talk about the team, Coach Lloyd commented, "The season has been one positive moment after another. The girl's attitude and dedication are the kinds of traits that will make them successes at anything they try--both present and future."

Farewell Now, My Friend
I love you, my friend
You're quite dear to me
A true friend you are.
And always will be
But you're leaving me soon
And going your own way
Perhaps we will meet
In the future someday
You've left me memories
Of good times we've had
To treasure forever
And make me feel glad
I wish you good luck
In all that you do
May all life's pleasures
Come your way, too
Farewell Now, my friend
And please may you find
Some thoughts of me
Always in your mind.
